PUBLIC NOTICE OF INTENT TO ISSUE AN AIR CONSTRUCTION PERMIT AND A TITLE V AIR OPERATION PERMIT RENEWAL

Permitting Authority
Department of Environmental Protection
Bureau of Air Regulation

DRAFT Title V Air Operation Permit Renewal Project No.: 1050052-008-AV
Draft Air Construction Permit Project No.: 1050052-009-AC
CF Industries, Inc.
Bartow Plant
Polk County

Applicant: The applicant for these projects is the CF Industries, Inc., Bartow Phosphate Complex, located at 2501 Bonnie Mine Road, Bartow, Polk County. The applicant's responsible official is Mr. John Doran, Manager of Industries, Inc., Bartow Phosphate Complex, P.O. Box 1480, Bartow, FL 33831.

Facility Location: The proposed project is the Bartow Phosphate Complex, which is a phosphate plant and located at 2501 Bonnie Mine Road, Bartow, Polk County, Florida.

Project: On February 28, 2003, the applicant applied to the Permitting Authority for a Title V Air operation permit (Permit) renewal. On October 4, 2004, the applicant applied for an air construction permit (AC) for a permit renewal. Details of the project are provided in the application and the enclosed Statement of Basis for the Permit renewal, and the Technical Evaluation and Preliminary Determination for the AC.

The Air Construction Permit 1050052-009-AC is being issued to allow truck loading and unloading operations to take place at the DAP/MAP/GTSP ractor storage and handling facility, i.e. EU # 031.

The Permit renewal is being issued to allow continued commercial operation of the facility, as authorized by the Initial Permit No. 1050052-004-AV, and incorporate the terms of Air Construction Permits 1050052-006-AC and 1050052-007-AC.

Permitting Authority: Applications for Permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210, and 62-213 of the Florida Administrative Code (F.A.C.). The proposed project is not exempt from air permitting requirements and an air permit is required to operate the facility. The Bureau of Air Regulation is the Permitting Authority responsible for making a permit determination regarding this project. The Permitting Authority's physical address is: 1111 South Magnolia Drive, Suite 4, Tallahassee, Florida 32301; the Permitting Authority's mailing address is: 2600 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400; the Permitting Authority's telephone number is 850/488-0114.

Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays) at the address indicated above for the Permitting Authority. The complete project file includes the DRAFT Permit, the Statement of Basis for the application, and the information submitted by the applicant, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Permitting Authority's project review engineer for additional information at the address and phone number listed above, and may view the DRAFT Permit and file electronic comments by visiting the following website: <http://www.dep.state.fl.us/air/products/ords/>. A copy of the complete project file is also available at:

Permitting Authority: Bureau of Air Regulation 1111 South Magnolia Drive, Suite 4 Tallahassee, Florida 32301 Telephone: 850/488-0114 Fax: 850/921-9533	Affected District: Department of Environmental Protection Southwest District 3804 Coconut Palm Drive Tampa, Florida Telephone: 813/744-6100 Fax: 813/744-6084
--	--

Notice of Intent to Issue Air Permits: The Permitting Authority gives notice of its intent to issue an AC and a Permit renewal to the applicant for the project described above. The applicant has provided reasonable assurance that operation of the facility will not adversely impact air quality and that the project will comply with all applicable provisions to Chapters 62-4, 62-204, 62-210, 62-212, 62-213, 62-214, 62-256, 62-257, 62-281, 62-296, and 62-297, F.A.C. The Permitting Authority will issue an AC and a PROPOSED Permit and a subsequent FINAL Permit, in accordance with the conditions of the enclosed DRAFT Permit, unless a response received in accordance with the following procedures results in a different decision or a significant change of terms or conditions.

Comments: The Permitting Authority will accept written comments concerning the proposed AC and Permit renewal for a period of fourteen (14) days from the date of publication of the Public Notice. Written comments should be provided to the permitting authority office. If written comments received result in a significant change to the Draft Permit, the permitting authority shall issue a Revised Draft AC and Permit, if applicable, another Public Notice. Any written comments filed shall be made available for public inspection.

The Permitting Authority will accept written comments concerning the Draft Permit for a period of thirty (30) days from the date of publication of this Public Notice. Written comments must be postmarked and all facsimile comments must be received by the close of business (5:00 p.m.) on or before the end of this 30-day period, by the Permitting Authority at the above address or facsimile. As part of his or her comments, any person may also request that the permitting authority hold a public meeting on the permitting action. If the Permitting Authority determines there is sufficient interest for a public meeting, it will publish notice of the time, date, and location on the Department's official website for notices at: <http://www.dep.state.fl.us/oww> and in a newspaper of general circulation in the area affected by the permitting action. For additional information, contact the Permitting Authority at the above address or phone number. If written comments or comments received at a public meeting result in a significant change to the Draft Permit, the Permitting Authority shall issue a Revised Draft Permit and requires, if applicable, another Public Notice. All comments filed will be made available for public inspection.

Petitions: A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, FL 32399-3000. Petitions filed by any person other than those entitled to written notice under Section 120.60(3), F.S. must be filed within fourteen (14) days of publication of this Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within fourteen (14) days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28.106.205, F.A.C.

A petition that disputes the material facts on which the permitting authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address and telephone number of the petitioner; name address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how petitioner's substantial rights will be affected by the agency determination; (c) A statement of how and when the petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact, if there are none, the petition must so state; (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle petitioner to relief; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding. In accordance with the requirements set forth above.

Mediation: Mediation is not available for this proceeding.

Objections: In addition to the above, pursuant to 42 United States Code (U.S.C.) Section 7601(d)(2), any person may petition the Administrator of the EPA within sixty (60) days of the expiration of the Administrator's 45 (forty-five) day review period as established at 42 U.S.C. Section 7601(d)(1), to object to the issuance of any Title V Air Operation Permit. Any petition shall be based only on objections to the permit that were raised with reasonable specificity during the thirty (30) day public comment period provided in the Public Notice, unless the petitioner demonstrates to the Administrator of the EPA that it was impracticable to raise such objections within the comment period or, unless the grounds for such objection arose after the comment period. Filing of a petition with the Administrator of the EPA does not delay the effective date of any permit properly issued pursuant to the provisions of Chapter 62-213, F.A.C. Petitions filed with the Administrator of EPA must meet the requirements of 42 U.S.C. Section 7601(d)(2), and must be filed with the Administrator of the EPA at: U.S. EPA, 401 M Street, S.W., Washington, D.C. 20460. For more information regarding objections, visit the EPA Region 4 web site at: www.epa.gov/region4/air/permits.
