Re: IMC South Pierce Converter Replacement (Facility ID 1050055)

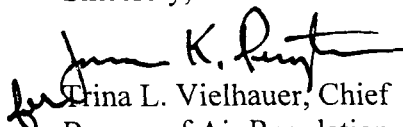

Dear Mr. Daigle:

The Department reviewed the additional information received in response to our request for preliminary design information regarding the replacement catalyst and bed dimensions.

Since the dimensions are similar, and since IMC stated in a letter dated April 23, 2004 submitted by Koogler and Associates that the type and quantity of catalyst used in the new converter will be exactly the same (463,500 liters of standard vanadium catalyst) as that for the existing converter, this project can be considered as a like kind replacement. If the type or quantity of catalyst is changed in the future, the change will have to be reviewed by the Department.

If there are any questions, please call John Reynolds at 850/921-9530.

Sincerely,

  
Trina L. Vielhauer, Chief  
Bureau of Air Regulation
