Dear Mr. Presnell:

Re: File Number AC 53-199112 Sulfuric Acid Plants Nos. 10 & 11
File Number AC 53-201152 Molten Sulfur Storage System

The Department has reviewed your response received on October 23, 1991 to its incompleteness letters of July 26, 1991 and August 26, 1991. In addition, the National Park Service has communicated its concerns to the Department about the impact this project may have on the Chassahowitzka Class I area located to the northwest of your facility. Before this application can be processed further, the Department will need the following information:

Please evaluate the impact of this project on the Class I Chassahowitzka National Wilderness Area. This evaluation should include a cumulative SO₂ PSD Class I increment analysis, a visibility analysis, and an air quality related values analysis (AQRV). The AQRV analysis includes impacts to soils, vegetation, and wildlife.

Please send the requested information to Cleve Holladay at the above address. The processing of your application will continue as soon as this information is received.

Sincerely,

for C. H. Fancy, P.E.
