USEPA Region IV
61 Forsyth Street, SW
Atlanta, GA. 30303 - 8960

REF: This letter is sent in reference to your request for notification, (Section 112(j) of the Clean Air Act), concerning facilities that are categorized as a major source of hazardous air pollutants as defined by Title V definition.

Item (1) - Physical Location.

- Metalcoat Inc. of Florida , 1910 Highway 37 South, Mulberry, FL. 33860

Item (1) - Brief Description of the major source.

- Metalcoat applies protective coatings to various pieces of miscellaneous machinery, piping, fittings and equipment.

Item (2) - Identification of the relevant industry type source category.

- Misc. Metal Parts and Products (Surface Coating)
- Industrial, Commercial and Institutional Boilers and Indirect-fired Process Heaters

Item (3) - List of the emission units belonging to the relevant industry type source category(ies)

- Our Title V permit defines two emission units.
- Emission I.D. Unit 002 is the actual surface coating unit (this is the regulated unit). Unit I.D. 002 comprises multiple techniques for coating with various protective surfaces (e.g. paint, rubber, flakeglass or urethane).
- Emission I.D. Unit 003 is the surface preparation part of our permit (this unit is the unregulated unit). Unit I.D. 003 consists of the blast area and blast booth used to prepare the surfaces for the coatings.
