Mr. Walter Lachney, Plant Manager ([wlachney@caithnessenergy.com](mailto:wlachney@caithnessenergy.com))  
Auburndale Power Partners, L.P.  
1501 West Derby Avenue  
Auburndale, Florida 33823-4062

Re: Permit No. 1050221-016-AV  
Title V Air Operation Permit Revision  
Request for Additional Information

Dear Mr. Lachney:

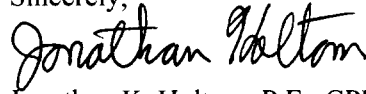

The Florida Department of Environmental Protection has reviewed your application for a Title V Air Operation Permit Revision for the Auburndale Power Partners facility. However, we must deem your application *incomplete*, because we need further information relative to the following items:

- Please specify if any of the facility's generators or other emissions units are subject to 40 CFR 60 Subpart IIII, Standards of performance for Stationary Compression Ignition (CI) Internal Combustion Engines (ICE), 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines (we note that all engines are subject to Subpart ZZZZ), or 40 CFR 60 Subpart JJJJ, Standards of Performance for Stationary Spark Ignition (SI) Internal Combustion Engines. If applicable,
  1. Please specify how the facility is complying with the applicable subpart(s).
  2. Please provide the following information for each emission unit subject to the referenced subparts: in-service date, cylinder displacement, and rule applicability.
- The requested changes to the current Title V air operation permit (Attachment H of the Application dealing with excess emissions and NO<sub>x</sub> CEMS) will require an air construction permit to implement.
- The Auburndale and Calpine draft Title V air operation permits need to be issued/public noticed at the same time. Do you wish to share a combined public notice?

When we receive this information, we will continue processing your application. If you have any questions, please contact Project Engineer Tom Cascio at 850-921-9526. Rule 62-4.050(3), F.A.C., requires that all applications for a Department permit must be certified by a professional engineer registered in the State of Florida. This requirement also applies to responses to Department requests for additional information of an engineering nature. Permit applicants are advised that Rule 62-4.055(1), F.A.C., requires applicants to respond to requests for information within 90 days, unless the applicant has requested in writing, and has been granted, additional time within 90 days.

Mr. Walter Lachney, Plant Manager  
Auburndale Power Partners, L.P.
