**PUBLIC NOTICE OF INTENT TO ISSUE AN AIR CONSTRUCTION PERMIT AND A TITLE V AIR OPERATION PERMIT RENEWAL**

STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION

Draft Air Construction Permit No. 1050234-015-AC/PSO-FL-196(D)/PSD-R-296(C)/PSD-FL-330(B)  
Title V DRAFT/PROPOSED Title V Air Operation Permit Renewal No. 180234-014-AV

Florida Power Corporation (dba Progress Energy Florida, Inc. (PEF))  
Hines Energy Complex  
Polk County

The Department of Environmental Protection (permitting authority) gives notice of its intent to issue an Air Construction Permit and a Title V Air Operation Permit Renewal for the Hines Energy, Complex Power Block 1, 2 and 3, located off County Road 856, approximately 2.5 miles South of County Road 640, Polk County. The applicant's name and address is: Mr. Martin J. Ganga, Plant Manager and responsible official, Florida Power Corporation dba Progress Energy Florida, Inc., Hines Energy Complex, 10 Central Avenue, P.O. Box 31, Palmetto, Florida 33707.

The subjects of the Air Construction Permit are to: (1) remove the Emergency Generator; (2) for Power Block 1 - 3, allow the use of the ASTM analytical methods for testing the sulfur content of the fuels as established in 40 CFR 60, Subpart GG; (3) for Power Block 1 allow CEMS data inclusion for fuel switches; and (4) for Power blocks 2 and 3, revise the duration of CEMS data exclusions due to coal startups and fuel switches.

The subject of the Title V Air Operation Permit is for the renewal of the initial Title V Air Operation Permit No. 1050234-001-AV. In addition, the renewal will be used to incorporate the terms and conditions of the ACA identified above.

The facility is also subject to Florida's Power Plant Site Certification Act, project No. PA 97-33.

The permitting authority will issue the Air Construction Permit in accordance with the conditions of the Draft Air Construction Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

EPA has agreed to treat the DRAFT Title V Permit as a PROPOSED Title V Permit and to perform its 45-day review period provided by the law and regulations concurrently with the public comment period. Although EPA's 45-day review period will be performed concurrently with the public comment period, the deadline for submitting a comment to the EPA Administrator will be determined as if EPA's 45-day review period is performed after the public comment period has ended. The FINAL Title V Air Operation Permit will be issued after the conclusion of the 45-day EPA review period so long as adverse comments are not received in a significant change of terms or conditions.

The status regarding EPA's 45-day review of the project and the deadline for submitting a citizen petition can be found at the following website address:  
<http://www.fl.gov/pepd/air/permits/1050234.htm>

The permitting authority will accept written comments concerning the proposed Draft Air Construction Permit issuance action for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be submitted to the Bureau of Air Regulation, 2600 West Stone Road, Mail Station 85205, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change to the Draft Air Construction Permit, the permitting authority shall issue a Revised Draft Air Construction Permit and reissue, if applicable, another Public Notice.

The permitting authority will accept written comments concerning the DRAFT/PROPOSED Title V Air Operation Permit renewal or a petition of right (PDR) days from the date of publication of this Public Notice. Written comments must be post marked and all applicable comments must be received by the close of business (5:00 p.m.) on or before the end of the 30-day period. By the Permitting Authority's determination of the date of publication of the public notice or the date of the public meeting, any person may also request that the Permitting Authority hold a public meeting on the permitting action. If the Permitting Authority determines there is a sufficient interest for a public meeting, it will publish notice of the time, date, and location in the Florida Administrative Weekly (<http://flaw.dos.state.fl.us/>) and in a newspaper of general circulation in the area affected by the permitting action. For additional information, contact the Permitting Authority office at the address or phone number listed below. Written comments or comments received at a public meeting result in a significant change to the DRAFT/PROPOSED Title V Air Operation Permit Renewal, the Permitting Authority shall issue a Revised DRAFT Title V Air Operation Permit Renewal and reissue, if applicable, another Public Notice. All comments filed will be made available for public inspection.

A person whose substantial interests are affected by the proposed permitting action may petition for an administrative hearing in accordance with Section 120.559 and 120.57 of the Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in Office of General Counsel of the Department of Environmental Protection, 3908 Commonwealth Boulevard, Mail Station 835, Tallahassee, Florida 32309 (telephone: 850/245-2261; Fax: 850/245-2303). Petitions filed by any person other than those entitled to written notice under Section 120.563(3), F.S., must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of the notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who raised the permitting authority for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall make copies of the petition to the applicant of the address indicated above at the time of filing. The failure of any person to file a petition within the applicable time period shall constitute a waiver of that person's right to request an administrative hearing under Sections 120.559 and 120.57, F.S., or to intervene in the proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts of which the permitting authority's action is based must contain the following information:

- The name and address of each agency affected and each agency's file or identification number, if known.
- The name, address, and telephone number of the petitioner, the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding, and an explanation of how the petitioner's substantial interests will be affected by the agency determination.
- A statement of when each petitioner received notice of the agency action or proposed action.
- A statement of all disputed issues of material fact. If there are none, the petitioner must so indicate.
- A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief.
- A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, and.
- A statement of the relief sought by the petitioner, stating precisely the action petitioner desires the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute otherwise that action in the same manner as set forth above as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding in accordance with the requirements set forth above.

Mediation is not available for this proceeding.

In addition to the above, pursuant to 42 United States Code (U.S.C.) Section 7610(d)(2), any person may petition the Administrator of the EPA within 60 (sixty) days of the expiration of the Administrator's 45 (forty-five) day review period as established at 42 U.S.C. Section 7610(d)(1) to object to issuance of any permit. Any petition filed with the Administrator shall be filed with the Administrator of EPA specifically during the 30 (thirty) day public comment period provided in the notice, unless the petitioner demonstrates to the Administrator of the EPA that it was impracticable to raise such objections before the termination of the public comment period. The grounds for such objection are other than the filing of a petition with the Administrator of the EPA does not stay the effective date of any permit properly issued pursuant to the provisions of Chapter 62-213, F.A.C. Petitions filed with the Administrator of EPA must meet the requirements of 42 U.S.C. Section 7610(d)(2) and must be filed with the Administrator of the EPA of U.S. EPA, 401 M Street S.W., Washington, D.C. 20460.

A complete project file is available for public inspection during normal business hours, 9:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays at:

Permitting Authority	Affected District Office
3908 Commonwealth Boulevard	Department of Environmental Protection
Mail Station 835	Southwest District Office
Tallahassee, Florida 32309	3711 South Magnolia Drive, Suite 4
Telephone: 850/488-3114	1305 N. Telecom Parkway
