Elizabeth,

Please assign this project to me when you receive the application. Could you also add to the application the corrected page and the site map that's included with this e-mail.

Thanks,
Syed

Good afternoon Syed,

I just wanted to let you know that I have finished the PTI application for the proposed JDC facility in Bartow. The application and 3 copies were mailed to your office yesterday.

There was an error on page 9 (CO2 was left out as one of the facility pollutants; it is included in the appropriate emission unit sections). I have attached the corrected page and I was hoping you could print it and place it the sets when you receive them. Also, the site map was inadvertently left out and I have included it as well.

Please let me know when you begin your review of the application. I will be some spending time in Florida later this month, as well as during the next several months, and I would be happy to meet with you to review the application and answer any questions or respond to any comments that you may have at a time that is good for you.

Thanks again for your help and assistance. I look forward to working with ou and your staff on this project.

Regards,

Mark Vignovic
