CERTIFIED MAIL-RETURN RECEIPT REQUESTED

Mr. Henry Hirschman
V.P. & General Manager
Georgia-Pacific Corporation
Post Office Box 919
Palatka, Florida 32034-0919

Dear Mr. Hirschman:

Re: Amendment to Construction Permit AC 54-192551/PSD-FL-171
No. 4 Lime Kiln

Based on discussions with the Northeast District, there should not be a requirement to test for H_2SO_4 (sulfuric acid mist), as contained in Specific Condition No. 8.c. of the above referenced construction permit, since there is no H_2SO_4 emission limiting standard established in the permit. Therefore, the following shall be changed:

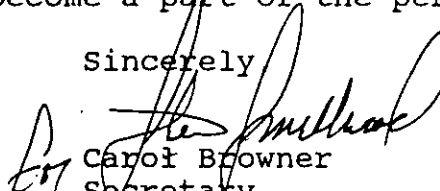

SPECIFIC CONDITION No. 8.c.:

From: The initial and annual compliance tests for H_2SO_4 and SO_2 shall be conducted using EPA Method 8, Determination of Sulfuric Acid Mist and Sulfur Dioxide Emissions from Stationary Sources, in accordance with F.A.C. Rule 17-2.700 and 40 CFR 60, Appendix A;

To: The initial and annual compliance tests for SO_2 shall be conducted using EPA Method 8, Determination of Sulfur Dioxide Emissions from Stationary Sources, in accordance with F.A.C. Rule 17-2.700 and 40 CFR 60, Appendix A;

This letter must be attached to the construction permit, No. AC 54-192551/PSD-FL-171, and shall become a part of the permit.

Sincerely

Carol M. Browner
Secretary

SUBJ: Amendment to Construction Permit AC 54-192551/PSD-FL-171
Georgia-Pacific Corporation
No. 4 Lime Kiln

Attached for your approval and signature is a letter amending the above referenced construction permit deleting the requirement to perform a compliance test for H₂SO₄ (sulfuric acid mist). There is no controversy associated with this issue.

The Bureau recommends approval of this amendment.
