Carla/Mimi –

You likely will remember that the Final Order which Secretary Sole signed on April 4th, stated:

"It is therefore ORDERED: This proceeding is remanded to DOAH for the purpose of developing a factual record through either further administrative proceedings or submittal of a stipulation that provides detailed facts addressing the factors set forth above."

Attached is the referred stipulation which I am being asked to comment upon for accuracy. My initial reading is that the stipulation is accurate, but given the sensitivity of the issue, I wanted to make you both aware. Barring your counsel to the contrary, my intention is to reply to Scott (tomorrow) that the record of facts developed within the stipulation appear accurate to me.

Thanks
Mike
