Subject: RE: Seminole Unit 3 - Sufficiency

Cleve just called me and said he has no issues so I have the memo prepared finding Seminole Unit 3 sufficient. Buck, it is through you to Scott. On its way up. Thanks, Ann

No, and I too tried to reach him yesterday.
My advice is to move forward; even if Cleve has some issues, we can likely work it out with Seminole over the phone.

Subject: Seminole Unit 3 - Sufficiency

Hi Cleve, I just left you a phone message as well. The Siting Coordination Office has a deadline of tomorrow (July 26th) to find the Seminole Unit 3 sufficient or not for its second round. At this point in time, all other agencies have determined sufficiency and will put any concerns they may have in the Conditions of Certification. You had indicated last week that you needed a little more time to review so just checking in. If you have comments then I need them today by 4pm. Otherwise, I would suggest that they be incorporated into the Conditions or dealt with through post-certification review. Thank you, Ann
