Mike,

I talked to Jeff this afternoon. I'm still working on the Seminole Unit 3 air quality analysis (AQA) write-up. I did tell Jeff earlier this week that the project was complete, and that I was working on the AQA, but I didn't tell him I was finished with it. I will be finished soon, and I will give you an update tomorrow when you drop by to see Jeff.

Thanks
Cleve

Cleve –

Jeff had told me you were done with your part of Seminole Unit 3.
If you want to e-mail it to me, I'll re-format a necessary. I'm dropping by to see Jeff at 10:30 tomorrow to (hopefully) get going with the internal approvals and get it out the door.

Thanks
Mike
