RE: CLEAN AIR ACT SECTION 112(j) NOTIFICATION INFORMATION
CARGILL CITRO PURE L.P., FORT PIERCE FACILITY
TITLE V PERMIT NO. 1110018-003-AV

Dear Ms Phillips:

On behalf of Cargill Citro Pure, L.P., Golder Associates Inc. is providing the information necessary to satisfy the provisions of Section 112(j) of the Clean Air Act as amended in 1990, which pertains to the development of Maximum Achievable Control Technology (MACT) standards. Final regulations that revised the Section 112(j) rules were promulgated by the U. S. Environmental Protection Agency (EPA) on April 5, 2002. The final regulations affect owners or operators of a major source of hazardous air pollutants (HAPs) that include one or more sources in a category or subcategory for which EPA has failed to promulgate an emission standard before the applicable 112(j) deadline. According to Section 63.52(a)(1) of Title 40 of the Code of Federal Regulations (40 CFR), such owners or operators must submit a Part 1 application by May 15, 2002. The following information must be contained in the Part 1 application [40 CFR 63.53(a)]:

1. The name, address (physical location), and brief description of the major source (facility);
2. An identification of the relevant industry type source category(ies);
3. A list of the emission units belonging to the relevant industry type source category(ies); and
4. An identification of any affected sources for which a Section 112(g) MACT determination has been made.

The required information for each item is provided below:

1. **Name:** Cargill Citro Pure, L.P., Fort Pierce Facility
Address: 3798 Selvitz Road, Fort Pierce, Florida 34981-4723
Source Description: The existing facility is a citrus processing plant. This facility produces various citrus products and animal feed. The citrus processing plant consists of various process equipment including fruit washers, oil and juice extraction and evaporation equipment, fruit and peel conveyance equipment, a feedmill, three boilers, and cooling towers. The feedmill consists of a citrus peel dryer, a pellet mill, a pellet cooler, and a pellet warehouse.
2. **Relevant Industry Type Source Categories:** Depending on the applicability of the final MACT standards for individual source categories, the following source category may be applicable to sources at the facility:

- Industrial, Commercial, and Industrial Boilers and Indirect-fired Process Heaters
- Reciprocating Internal Combustion Engines

3. List of the Emission Units Belonging to the Relevant Industry Type Source Categories:
This list is dependent on the applicability of the final MACT standard for each category.

Facility Emission Source	Emission Unit ID	Potentially Relevant Industry Type Source Category
Boiler No. 1	001	Industrial, Commercial, and Industrial Boilers and Indirect-fired Process Heaters
Peel Dryer/Waste Heat Evaporator*	007	Industrial, Commercial, and Industrial Boilers and Indirect-fired Process Heaters
Boiler No. 4	009	Industrial, Commercial, and Industrial Boilers and Indirect-fired Process Heaters
Boiler No. 3A	010	Industrial, Commercial, and Industrial Boilers and Indirect-fired Process Heaters
Stationary Internal Combustion Engines	--	Reciprocating Internal Combustion Engines

*The peel dryer is a direct-fired process heater and will not be covered under the source category. The peel dryer exhaust gases pass through the waste heat evaporator, which may be defined as an indirect-fired process heater. However, it is not clear at this time if the dryer will be regulated under MACT standards.

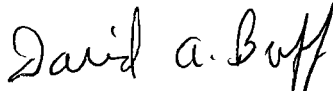

4. Previous Section 112(g) MACT Determinations: There have been no previous determinations for sources at the facility under Section 112(g).

Based on the information available to us at the time of this application, Cargill Citro Pure believes that the sources identified above may be subject to Section 112(j) of the Clean Air Act. We reserve the right, however, to amend or withdraw this application should we obtain new or different information regarding our status.

Attached is the Responsible Official's signature form. If you have any questions concerning the information provided, please contact Mr. Larry Hadden, Environmental Manager, at (863) 635-8057.

Sincerely,

GOLDER ASSOCIATES INC.

Re: 112(j) Notification Information Submittal
Cargill Citro Pure, L.P., Fort Pierce Facility
Facility ID 1110018

Dear Mr. Buff:

Thank you for submitting the referenced information in your letter received May 14, 2002. The information submittal appears to meet our current 112(j) requirements.

Please be aware that, although your letter refers to a "Part 1 application," and the "Owner/Authorized Representative or Responsible Official" signature page from DEP Form No. 62-210.900(1) is used, the Department does not recognize this submittal as a state permit application and has no plans to process it as such.

No further 112(j) information is needed from you at this time.

If you have any questions, please call me at 850/921-9534.

Sincerely,

A handwritten signature in cursive script that reads "Cindy L. Phillips".
