Bill Leffler Florida Department of Environmental Protection Twin Towers Office Building 2600 Blair Stone Road Tallahassee, FL 32399-2400

SUBJECT: Florida Rock Industries, Inc.

Application for Air Construction Permit Relocatable Cedar Rapids Crushing Unit

Dear Mr. Leffler:

Enclosed please find four (4) copies of the referenced application. A check for \$1250 is enclosed as the applicable processing fee.

Please call me if you have any questions at (352) 377-5822.

Sincerely,

Koogler & Associates

Ken Conwell

Kenneth F. Conwell, Project Engineer

DEP Form No. 62-210.900(3) - Form

Purpose of Application

Air Operation Permit Application

T	nis .	Application for Air Permit is submitted to obtain: (Check one)
[]	Initial non-Title V air operation permit for one or more existing, but previously unpermitted, emissions units.
[]	Initial non-Title V air operation permit for one or more newly constructed or modified emissions units.
		Current construction permit number:
[Non-Title V air operation permit revision to address one or more newly constructed or modified emissions units.
		Current construction permit number:
		Operation permit number to be revised:
[Initial non-Title V air operation permit under Rule 62-210.300(2)(b), F.A.C., for an existing facility seeking classification as a synthetic non-Title V source.
		Current operation/construction permit number(s):
[_	Non-Title V air operation permit revision for a synthetic non-Title V source. Give reason for revision; e.g., to address one or more newly constructed or modified emissions units.
		Operation permit number to be revised:
		Reason for revision:
Ai	r C	onstruction Permit Application
Th	is A	Application for Air Permit is submitted to obtain: (Check one)
[X	[] [Air construction permit to construct or modify one or more emissions units.
]	-	Air construction permit to make federally enforceable an assumed restriction on the potential emissions of one or more existing, permitted emissions units.
[] /	Air construction permit for one or more existing, but unpermitted, emissions units.

4. Professional Engineer Statement:

I, the undersigned, hereby certify, except as particularly noted herein*, that:

- (1) To the best of my knowledge, there is reasonable assurance that the air pollutant emissions unit(s) and the air pollution control equipment described in this Application for Air Permit, when properly operated and maintained, will comply with all applicable standards for control of air pollutant emissions found in the Florida Statutes and rules of the Department of Environmental Protection; and
- (2) To the best of my knowledge, any emission estimates reported or relied on in this application are true, accurate, and complete and are either based upon reasonable techniques available for calculating emissions or, for emission estimates of hazardous air pollutants not regulated for an emissions unit addressed in this application, based solely upon the materials, information and calculations submitted with this application.

If the purpose of this application is to obtain an air construction permit for one or more proposed new or modified emissions units (check here [X], if so), I further certify that the engineering features of each such emissions unit described in this application have been designed or examined by me or individuals under my direct supervision and found to be in conformity with sound engineering principles applicable to the control of emissions of the air pollutants characterized in this application.

If the purpose of this application is to obtain an initial air operation permit or operation permit revision for one or more newly constructed or modified emissions units (check here [], if so), I further certify that, with the exception of any changes detailed as part of this application, each such emissions unit has been constructed or modified in substantial accordance with the information given in the corresponding application for air construction permit and with all provisions contained in such permit.

Emissions Unit Details

1.	Package Unit: N/A			
]	Manufacturer:			
Ì	Model Number:			
2.	Generator Nameplate Rating: N/A	MW		
3.	Incinerator Information: N/A			
	Dwell Temperature:		°F	
ļ	Dwell Time:		seconds	
ĺ	Incinerator Afterburner Temperature:		°F	

Emissions Unit Operating Capacity and Schedule

1. Maximum Heat Input Rat	e:	3.	64 mmBtu/hr
2. Maximum Incineration Ra	ate: N/A	lb/hr	tons/day
3. Maximum Process or Thr	oughput Rate: N/A		
4. Maximum Production Rat	e: N/A		-
5. Requested Maximum Ope	rating Schedule:	-	
	hours/day	· da	ys/week
	weeks/year	3000 ho	urs/year
7. Operating Capacity/Sched	ule Comment (limit to 200 c	haracters):	
The diesel unit has a process	sing rate of 26 gal/hour.		
26 gal/hr x 140,000 Btu/gal =	= 3.64 mmBtu/hr
