Joe,

Compliance inspection at Progress Rail Services was performed on 02/28/07 and facility was found to be in compliance. Visible emission test, required to be completed by 03/21/08 (last permit's expiration date), was scheduled to be performed on 01/18/08, but report for this VE test has not been submitted as of today. I have no other comments.

Joe,

There are no complaints documented in ARMS for this facility and one historical enforcement case back in 1998 for permit rate exceedance that resulted in a CWOE. Since this is a permit renewal I recommend a permit inspection to make sure the facility is operating as listed in the current permit. I have no additional comments at this time.

Danielle
