P.E. CERTIFICATE STATEMENT

PERMITTEE

Robbins Manufacturing Company
P.O. Box 17939
Tampa, FL 33682

Project No. 1190011-008-AC
Robbins Manufacturing Company
Project: Construction of chromate copper
arsenate wood preserving operation

PROJECT DESCRIPTION

This permit is for the after-the-fact construction of a Chromated Copper Arsenate (CCA) wood preserving operation. This CCA wood preserving operation will be used to pressure treat wood using preservatives that contain chromium and arsenic compounds, which are classified as hazardous air pollutants. This wood preserving operation has potential emissions of 0.006 pounds/year of chromium compound and 0.006 pounds/year of arsenic compound.

The Department's full review of the project and rationale for issuing the draft permit is provided in the Technical Evaluation and Preliminary Determination.

I HEREBY CERTIFY that the air pollution control engineering features described in the above referenced application and subject to the proposed permit conditions provide reasonable assurance of compliance with applicable provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Chapters 62-4 and 62-204 through 62-297. However, I have not evaluated and I do not certify any other aspects of the proposal (including, but not limited to, the electrical, mechanical, structural, hydrological, geological, and meteorological features).

This review was conducted by Danny Stubbs under my responsible supervision.
