**RE: Request to Add Permit Language to an "After-the-Fact" Construction Permit
Waterborne Wood Preservation Operation
Robbins Manufacturing Company, Sawmill – Sumter County
Facility ID No. 1190011**

Dear Mr. Stubbs:

This correspondence is pursuant to your exchange of communications with this office on and before June 1, 2012 regarding the referenced construction permit application for Robbins Manufacturing Company's (Robbins) Sumter County facility. Specifically, Robbins requests that the Department add language to the permit that enables the small treatment vessel to use chromated copper arsenate (CCA), as well as other waterborne wood preserving treatments.

Thank you for your consideration in this matter. Should you have questions or require further information, please feel free to contact this office or Mr. Jay Robbins at Robbins (813-971-3030) at any time.

Sincerely,

Cory A. Houchin
Project Manager

cc: Jay Robbins, Robbins Manufacturing Company.

Hi Danny

Here's the letter we emailed about a couple of weeks ago. Jay said he's going to send you the proof of public notice. If there's anything else, give me a ring. Thanks!
