Permit No.: 1190015-001-AF
County: Sumter
Effective Date: **OCT 12 1998**
Expiration Date: 7/31/2003
Project: Surface Coating
Operation

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rules 62-2 through 62-297 & 62-4. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the department and made a part hereof and specifically described as follows:

The Specific Conditions in this Federally Enforceable State Operating Permit (FESOP) establishes this facility as a synthetic non-Title V facility.

For the operation of a wood furniture surface coating operation. The facility finishes wood furniture using wood stain, sealer and lacquer. Finishing takes place in 7 (seven) Binks spray booths designated as Booths A, B, C, D, E, F, and H. The spray booths are equipped with Andrae overspray filters with an estimated collection efficiency of 99.6%.

Volatile organic compound/hazardous air pollutants (VOC/HAP) emissions are to be controlled by a material balance scheme through recordkeeping.

(This facility also has a propane fired heat tunnel which vents inside the building and is considered an insignificant source).

Location: Highway 476B, Bushnell, Sumter County

UTM: 17-381.4 E 3166.2 N

Facility ID No.: 0015

Permit No.: 1190015-001-AF
Project: Surface Coating Operation

SPECIFIC CONDITIONS:

1. A part of this permit is the attached 15 General Conditions [Rule 62-4.160, F.A.C.]
2. Issuance of this permit does not relieve the permittee from complying with applicable emission limiting standards or other requirements of Chapters 62-2 through 62-297, or any other requirements under federal, state, or local law [Rule 62-210.300, F.A.C.]

Operation and Emission Limitations

3. This facility is permitted to operate a maximum of 3,120 hours per 12 consecutive month period. Operation is defined as any period during which surface coating is being done [construction permit AC60-235695].
4. Total volatile organic compound (VOC) emissions from this facility shall not exceed 23.04 tons/year, total hazardous air pollutant (HAP) emissions from this facility shall be less than 5.0 tons/year [construction permit AC60-235695 and FESOP application received 5/14/98].
5. The permittee shall not store, pump, handle, process, load, unload, or use in any process or installation volatile organic compounds (VOC) without applying known and existing vapor emission control devices or systems deemed necessary and ordered by the Department. Pursuant to Rule 62-296.320(1)(a), F.A.C., the following procedures shall be utilized to minimize pollutant emissions:
 - A. Maintain tightly fitting cover, lids, etc. on all containers of VOC when they are not being handled, tapped, etc.
 - B. Prevent excessive air turbulence across exposed VOC's.
 - C. Where possible and practical, procure/fabricate a tightly fitting cover for any open trough, basin, bath, etc. of VOC so that it can be covered when not in use.
 - D. All fittings, valve lines, etc. shall be properly maintained.
 - E. All VOC spills shall be attended to immediately and the waste properly disposed of, recycled, etc.

[Rule 62-296.320(1)(a), F.A.C.]

6. The permittee shall not cause, suffer, allow, or permit the discharge of air pollutants which cause or contribute to an objectionable odor. An objectionable odor is any odor present in the outdoor atmosphere which by itself or in combination with other odors, is or may be harmful or injurious to human health or welfare, which unreasonably interferes with the comfortable use and enjoyment of life or property, or which creates a nuisance. Compliance and Recordkeeping Requirements

7. Compliance with the emission limitation of Specific Condition No. 4 shall be demonstrated by submission of a yearly summary of estimated VOC/HAP usage and emissions (See Specific Condition No. 9). Records to support the yearly summary of estimated VOC/HAP emissions shall be maintained on site and made available to the Department upon request. The VOC/HAP Usage and Emission Log records shall include, but are not limited to, the following:

- A. The source description - (i.e. Booths A, B, C, D, E, F, and H);
- B. Date - month, day, year;
- C. On a monthly basis, what "As Applied" coating (by identification number) was used, indicating the amount of each used in gallons or pounds;
- D. On a monthly basis, all other VOC and solvents, indicating the amount of each used;
- E. VOC content as applied (percent by weight) for each type of coating utilized;
- F. A monthly total of VOC/HAP emissions and a cumulative 12 month running total to ensure the annual VOC/HAP emission limit is not exceeded.

Supporting documentation ("As Supplied", "As Applied" sheets, MSD sheets, EPA data sheets, purchase orders, etc.) shall be kept for each coating and VOC/HAP which includes sufficient information to determine VOC/HAP emissions [Rules 62-296.320 and 62-4.070(3), F.A.C.].

8. In order to document compliance with Specific Condition No. 3, the permittee shall maintain a daily record of operating hours. Operation is defined as any period when surface coating is being done. These records shall be recorded in a permanent form suitable for inspection by the Department upon request, and shall be retained for at least the most recent two year period [Rule 62-4.070(3), F.A.C.].

Reporting Requirements

9. The permittee shall submit to the Air Compliance Section of the Southwest District Office of the Department each calendar year on or before March 1, completed DER Form 62-210.900(5), "Annual Operating Report (AOR) for Air Pollutant Emitting Facility," for the preceding calendar year. Included with the AOR, the permittee shall submit a copy of the VOC/HAP Usage and Emissions Log(s) summary (Specific Condition No. 7) for the previous calendar year [Rules 62-210.370(2), and 62-4.070(3), F.A.C.].

ATTACHMENT - GENERAL CONDITIONS

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, Florida Statutes (F.S.). The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.

3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.

4. Not applicable to Air Permits.

5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.

6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:

- a. Have access to and copy any records that must be kept under conditions of the permit;

GENERAL CONDITIONS:

- b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
- c. Sample or monitor any substances or parameters at any location reasonable necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- a. A description of and cause of noncompliance; and
- b. The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to educe, eliminate, and prevent recurrence of the noncompliance. The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Section 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Rule 62-4.120 and 62-730.300 F.A.C., as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

GENERAL CONDITIONS:

13. This permit also constitutes:

- () Determination of Best Available Control Technology (BACT)
- () Determination of Prevention of Significant Deterioration (PSD)
- () Compliance with New Source Performance Standards (NSPS)

14. The permittee shall comply with the following:

a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.

b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.

c. Records of monitoring information shall include:

1. the date, exact place, and time of sampling or measurements;
2. the person responsible for performing the sampling or measurements;
3. the dates analyses were performed;
4. the person responsible for performing the analyses;
5. the analytical techniques or methods used;
6. the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

16. Not applicable to Air Permits.

17. Not applicable to Air Permits.
