MEMORANDUM

Air Program Permitting Supervisor

From: Joseph Graham, M.E., M.P.H., E.I.

Date: December 18, 2008

Subject: Notice of Permit No. 1190015-003-AO for Pride Enterprises.

Attached find the Notice of Permit No. 1190015-003-AO for Pride Enterprises. Day 90 for this application is January 13, 2009.

This application is for the renewal of an operation permit for a furniture manufacturing and surface coating facility. Minor changes in the current permit include:

- Inclusion of the Special Testing condition;
- Inclusion of the General Visible Emission Limitation;
- Update of AOR requirement, to reflect current rules;
- Revision of Objectionable Odor language;
- Addition of unconfined PM language – facility does not have control of land/lot surrounding building (it is in a prison yard) so specifics of yard maintenance are omitted;
- Revision of the Emission Limitation Requirement to be internally consistent, i.e. both HAP and VOC limits are termed as “shall not exceed” and in terms of the appropriate number of decimal places; and
- Revision of project description including a change from 7 booths to 6 booths.

Comments from Enforcement Section indicate no enforcement cases since 1998. The facility is deemed to be in compliance as of a joint permitting/compliance inspection on August 4, 2008.

Joe,

I have reviewed the ARM's compliance and complaint modules for this facility. There are no complaints linked to this facility and there have been no enforcement cases since 1998. I also checked out the Enforcement Activity folders on the Air Common Drive and found no open enforcement cases.

Please let me know if you have any questions in reference to this information.

Thanks,

Wendy
