**RE: *American Cement Company
Application for Air Construction Permit
Correction to Supplemental Information***

Dear Al:

By letter dated October 10, 2005, I provided you with supplemental information related to the above captioned air permit application. That information package included a section on Past Violations (of permit conditions) by companies with some degree of common ownership. American Cement obviously has ~~no~~ past violations as it was only recently incorporated and has no operating record. ^{no}

In that section of the information, I mistakenly stated that Dixie Lime and Stone had an unresolved violation related to water quality monitoring. The matter has been resolved as documented by the attached correspondence.

I apologize for the misinformation.

Very truly yours,

KOOGLER & ASSOCIATES, INC.
