## Daily Commercial

Leesburg, Lake County, Florida

Case No. \_\_\_\_\_

STATE OF FLORIDA  
COUNTY OF LAKE

Before the undersigned authority personally appeared Rich Pinder who on oath says that he is the President of the Daily Commercial, a daily newspaper published at Leesburg in Lake County, Florida, that the attached copy of advertisement, being

361999

in the matter of Public Notice of  
intent to issue air permit

in the \_\_\_\_\_ Court,

was inserted in said newspaper in the issues of \_\_\_\_\_

Oct 12, 2012

Affiant further says that the said Daily Commercial is a newspaper published in said Leesburg, in said Lake County, Florida, and that the said newspaper has heretofore been continuously published in said Lake, Sumter and southern Marion Counties, Florida each day and has been entered as second class matter at the post office in Leesburg in said Lake County Florida, for a period of one year preceding the first publication of the attached copy of advertisement; and affiant further says that he has neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in said newspaper.

Signed [Signature]  
Rich Pinder, President

Sworn to and subscribed before me this 17 day of Oct, 2012, by Rich Pinder, President, who is personally known to me.

**PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT**  
Florida Department of Environmental Protection  
Division of Air Resource Management, Office of Permitting and Compliance  
Draft Permit No. 1190042-009-AC/PSD-FL-361F, Air Construction Permit  
American Cement Company, LLC, Sumterville Cement Plant  
Sumter County, Florida

**Applicant:** The applicant for this project is American Cement Company, LLC. The applicant's responsible official and mailing address are: Mr. Cary O. Cohrs, President, American Cement Company, LLC, Sumterville Cement Plant, 4750 E. CR 470, Sumterville, Florida 33585.

**Facility Location:** The applicant operates the existing Sumterville Cement Plant; which is located in Sumter County at 4750 E. CR 470, Sumterville, Florida.

**Project:** The applicant applied on July 12, 2012, to the Department for a minor source air construction permit. The minor source air construction permit is for alternative fuels such as: tire-derived fuel; plastics; roofing materials; agricultural biogenic materials; cellulosic biomass - untreated; cellulosic biomass - treated; carpet-derived fuel; alternative fuel mix; biosolids; and, engineered fuel. The minor source air construction permit is also for a production rate increase from 3,000 short tons of clinker per day (TPD) to 3,250 short TPD by taking advantage of the existing Portland cement manufacturing plant's designed and as built capacity. A Prevention of Significant Deterioration (PSD) and Best Available Control Technology (BACT) determination was not required.

This existing facility consists of a Portland cement plant and associated quarry, and raw material and cement handling operations. Air pollutant emission control techniques, measures and devices at the plant include: a selective non-catalytic reduction (SNCR) system with ammonia injection in the preheater/calcliner for the control of nitrogen oxides (NOx) emissions, combustion devices & techniques like low-NOx burners in the kiln, an indirect firing system by the burners in the kiln, staged combustion in the preheater/calcliner; complete combustion in the kiln and calcliner, and minimizing carbon and oily content of raw materials to minimize carbon monoxide (CO) and volatile organic compound (VOC) emissions; low sulfur content fuels and raw materials along with natural lime process scrubbing in the calcliner for the control of sulfur dioxide (SO2) emissions; and, a main baghouse, numerous other baghouses for the control of particulate matter (PM/PM10) emissions and employing reasonable pre-

**Comments:** The Permitting Authority will accept written comments concerning the draft air construction permit for a period of 14 days from the date of publication of the Public Notice. Written comments must be received by the close of business (5:00 p.m.), on or before the end of this 14-day period by the Permitting Authority at the above address. If timely received written comments result in a significant change to the draft air construction permit, the Permitting Authority shall issue a revised draft air construction permit and require, if applicable, another Public Notice. All comments filed will be made available for public inspection. For additional information, contact the Permitting Authority at the above address or phone number.

**Petitions:** A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petitioner must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee Florida 32399-3000. Petitions filed by any person other than those entitled to written notice under Section 120.60(3), F.S. must be filed within 14 days of publication of the Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall make a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of an person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only if the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected by each agency's file or identification number, if known; (b) The name, address and telephone number of the petitioner; the name and address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding.

**PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT**

Florida Department of Environmental Protection  
Division of Air Resource Management, Office of Permitting and Compliance  
Draft Permit No. 1190042-009-AC/PSD-FL-361F, Air Construction Permit  
American Cement Company, LLC, Sumterville Cement Plant  
Sumter County, Florida

**Applicant:** The applicant for this project is American Cement Company, LLC. The applicant's responsible official and mailing address are: Mr. Cary O. Cohrs, President, American Cement Company, LLC, Sumterville Cement Plant, 4750 E. CR 470, Sumterville, Florida 33585.

**Facility Location:** The applicant operates the existing Sumterville Cement Plant, which is located in Sumter County at 4750 E. CR 470, Sumterville, Florida.

**Project:** The applicant applied on July 12, 2012, to the Department for a minor source air construction permit. The minor source air construction permit is for alternative fuels such as: tire-derived fuel; plastics; roofing materials; agricultural biogenic materials; cellulosic biomass - untreated; cellulosic biomass - treated; carpet-derived fuel; alternative fuel mix; bio-solids; and, engineered fuel. The minor source air construction permit is also for a production rate increase from 3,000 short tons of clinker per day (TPD) to 3,250 short TPD by taking advantage of the existing Portland cement manufacturing plant's designed and as built capacity. A Prevention of Significant Deterioration (PSD) and Best Available Control Technology (BACT) determination was not required.

This existing facility consists of a Portland cement plant and associated quarry, and raw material and cement handling operations. Air pollutant emission control techniques, measures and devices at the plant include: a selective non-catalytic reduction (SNCR) system with ammonia injection in the preheater/calcliner for the control of nitrogen oxides (NOx) emissions, combustion devices & techniques like low-NOx burners in the kiln, an indirect firing system by the burners in the kiln, staged combustion in the preheater/calcliner; complete combustion in the kiln and calcliner, and minimizing carbon and oily content of raw materials to minimize carbon monoxide (CO) and volatile organic compound (VOC) emissions; low sulfur content fuels and raw materials along with natural lime process scrubbing in the calcliner for the control of sulfur dioxide (SO2) emissions; and, a main baghouse, numerous other baghouses for the control of particulate matter (PM/PM10) emissions and employing reasonable precautions to minimize fugitive PM/PM10 emissions. The plant is already equipped with a certified continuous opacity monitoring system (COMS) for visible emissions (VE), certified continuous emissions monitoring systems (CEMS) for NOx, total hydrocarbons (THC) (THC is a surrogate for VOC), SO2 and mercury (Hg).

**Permitting Authority:** Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210 and 62-212 of the Florida Administrative Code (F.A.C.). The proposed project is not exempt from air permitting requirements. The Office of Permitting and Compliance is the Permitting Authority

responsible for making a permit determination for this project. The Permitting Authority's physical address is: 2600 Blair Stone Road, Tallahassee, Florida. The Permitting Authority's mailing address is: 2600 Blair Stone Road, MS #5505, Tallahassee, Florida 32399-2400. The Permitting Authority's telephone number is 850/717-9000.

**Project File:** A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at the address indicated above for the Permitting Authority. The complete project file includes the draft air construction permit, the Technical Evaluation and Preliminary Determination, the application, and the information submitted by the applicant, exclusive of confidential records under Section 403.111, F.S. Interested persons may view the draft air construction permit by visiting the following web site:

<http://www.dep.state.fl.us/air/emission/apds/default.asp> and entering the permit number shown above. Interested persons may contact the Permitting Authority's project review engineer for additional information at the address or phone number listed above.

**Notice of Intent to Issue Air Permits:** The Permitting Authority gives notice of its intent to issue an air construction permit for the project described above. The applicant has provided reasonable assurance that the project will comply with all appropriate provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-214, 62-296 and 62-297, F.A.C. The Permitting Authority will issue final permit in accordance with the conditions of the draft air construction permit unless a response, received in accordance with the following procedures results in a different decision or a significant change of terms or conditions.

**Comments:** The Permitting Authority will accept written comments concerning the draft air construction permit for a period of 14 days from the date of publication of the Public Notice. Written comments must be received by the close of business (5:00 p.m.), on or before the end of this 14-day period by the Permitting Authority at the above address. If timely received written comments result in a significant change to the draft air construction permit, the Permitting Authority shall issue a revised draft air construction permit and require, if applicable, another Public Notice. All comments filed will be made available for public inspection. For additional information, contact the Permitting Authority at the above address or phone number.

**Petitions:** A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S. must be filed within 14 days of publication of the Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial rights will be affected by the agency determination; (c) A statement of when and how the petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules

or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Public Notice of Intent to Issue Air Permits. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

**Mediation:** Mediation is not available for this proceeding.
