## NOTICE OF INTENT TO ISSUE AIR PERMIT

### CERTIFIED MAIL-RETURN RECEIPT REQUESTED

In the Matter of an  
Application for Permit by:

Mr. Kevin Savoy, Vice President  
Great Southern Wood – Bushnell, Inc.  
Highway 431 North  
Abbeville, Alabama 36310

DEP File No. 1190048-001-AF  
Sumter County

Dear Mr. Savoy:

Enclosed is one copy of the Draft air permit for the Great Southern Wood – Bushnell, Inc., located at County Road 527-A, Lake Panasoffkee, Sumter County. The Department's Intent to Issue Air Permit and the Public Notice of Intent to Issue Air Permit are also included.

The Public Notice of Intent to Issue Air Permit must be published one time only, as soon as possible, in the legal advertisement section of a newspaper of general circulation in the area affected, pursuant to the requirements Chapter 50, Florida Statutes. Proof of publication, i.e., newspaper affidavit, must be provided to the Department's Southwest District Office within seven days of publication. Failure to publish the notice and provide proof of publication may result in the denial of the permit.

Please submit any written comments you wish to have considered concerning the Department's proposed action to Mara Grace Nasca, District Air Program Administrator at the above letterhead address. If you have any other questions, please contact the project engineer, Danny Stubbs at 813-632-7600, ext. 159.

Sincerely,

  
\_\_\_\_\_  
Mara Grace Nasca  
District Air Program Administrator

### **INTENT TO ISSUE AIR PERMIT**

The Department of Environmental Protection (Department) gives notice of its intent to issue an air permit (copy of Draft permit enclosed) for the proposed project, detailed in the application specified above for the reasons stated below.

The applicant, Great Southern Wood – Bushnell, Inc., applied on September 4, 2008, to the Department for a Federally Enforceable State Operation Permit (FESOP) for its wood treatment facility located at at County Road 527-A, Lake Panasoffkee, Sumter County. The permit authorizes Great Southern Wood – Bushnell, Inc., to operate three wood treatment cylinders and the associated equipment. This facility pressure treats wood using preservatives that contain chromium and arsenic compounds and it is therefore considered an area source of hazardous air pollutant emissions.

The Department has permitting jurisdiction under the provisions of Chapter 403, Florida Statutes (F.S.), and Florida Administrative Code (F.A.C.) Chapters 62-4, 62-210, and 62-212. The above actions are not exempt from permitting procedures. The Department has determined that an air permit is required for this project.

The Department intends to issue this air permit based on the belief that reasonable assurances have been provided to indicate that operation of these emission units will not adversely impact air quality, and the emission units will comply with all appropriate provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296, and 62-297, F.A.C.

Pursuant to Section 403.815, F.S., and Rule 62-110.106(7)(a)1., F.A.C., you (the applicant) are required to publish at your own expense the enclosed Public Notice of Intent to Issue Air Permit. The notice shall be published one time only in the legal advertisement section of a newspaper of general circulation in the area affected. Rule 62-110.106(7)(b), F.A.C., requires that the applicant cause the notice to be published as soon as possible after notification by the Department of its intended action. For the purpose of these rules, "publication in a newspaper of general circulation in the area affected" means publication in a newspaper meeting the requirements of Sections 50.011 and 50.031, F.S., in the county where the activity is to take place. If you are uncertain that a newspaper meets these requirements, please contact the Department at the address or telephone number listed below. The applicant shall provide proof of publication to the Department of Environmental Protection, 13051 N. Telecom Parkway, Temple Terrace, FL 33637-0926, (Telephone: 813-632-7600, Fax: 813-632-7668). You must provide proof of publication within seven days of publication, pursuant to Rule 62-110.106(5), F.A.C. No permitting action for which published notice is required shall be granted until proof of publication of notice is made by furnishing a uniform affidavit in substantially the form prescribed in Section 50.051, F.S. to the office of the Department issuing the permit. Failure to publish the notice and provide proof of publication may result in the denial of the permit pursuant to Rules 62-110.106(9) & (11), F.A.C.

The Department will issue the final permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit issuance action for a period of fourteen days from the date of publication of Public Notice of Intent to Issue Air Permit.

PERMITTEE: Great Southern Wood – Bushnell, Inc.  
PERMIT NO.: 1190048-001-AF

Written comments should be provided to the Department of Environmental Protection, 13051 N. Telecom Parkway, Temple Terrace, FL 33637-0926. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S. must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S. or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

All petitions filed under these rules shall contain:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department

PERMITTEE: Great Southern Wood – Bushnell, Inc.  
PERMIT NO.: 1190048-001-AF

on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

Any person may request to obtain additional information, a copy of the application (except for information entitled to confidential treatment pursuant to Section 403.111, F.S.), all relevant supporting materials, a copy of the draft permit, and all other materials available to the Department that are relevant to the permit decision. Additionally, the Department will accept written comments concerning the proposed permit issuance action for a period of 14 (fourteen) days from the date of publication of "Public Notice of Intent to Issue Air Permit." Requests and written comments filed should be provided to the Florida Department of Environmental Protection at 13051 N. Telecom Parkway, Temple Terrace, FL 33637-0926, to the attention of Mara Grace Nasca (phone no. 813-632-7600) referencing the DEP file number listed above. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

Executed in Hillsborough County, Florida.

## PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT

STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DEP File No. 1190048-001-AF  
Great Southern Wood – Bushnell, Inc.  
Sumter County

The Department of Environmental Protection (Department) gives notice of its intent to issue an air permit to Great Southern Wood – Bushnell, Inc., for the facility located at County Road 527-A, Lake Panasoffkee, Sumter County. The permit authorizes Great Southern Wood – Bushnell, Inc., to operate three wood treatment cylinders and the associated equipment. This facility pressure treats wood using preservatives that contain chromium and arsenic compounds and it is therefore considered an area source of hazardous air permit emissions. MAILING ADDRESS: Great Southern Wood – Bushnell, Inc., Highway 431 North, Abbeville, Alabama 36310 to the attention of Mr. Kevin Savoy, Vice President.

The Department will issue the final permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit issuance action for a period of fourteen days from the date of publication of this Public Notice of Intent to Issue Air Permit. Written comments should be provided to the Department of Environmental Protection, 13051 North Telecom Parkway, Temple Terrace, Florida 33637-0926. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the final permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, F.S. before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S. must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S. or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

All petitions filed under these rules shall contain:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;

- (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Florida Department of Environmental Protection, Southwest District, 13051 North Telecom Parkway, Temple Terrace, Florida.

The complete project file includes the application, technical evaluations, Draft permit, and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact Mara Grace Nasca, Southwest District Air Program Administrator, at 13051 North Telecom Parkway, Temple Terrace, Florida or call 813-632-7600, for additional information.

Any person may request to obtain additional information, a copy of the application (except for information entitled to confidential treatment pursuant to Section 403.111, F.S.), all relevant supporting materials, a copy of the permit draft, and all other materials available to the Department that are relevant to the permit decision. Additionally, the Department will accept written comments concerning the proposed permit issuance action for a period of 14 (fourteen) days from the date of publication of "Public Notice of Intent to Issue Air Permit." Requests and written comments filed should be provided to the Florida Department of Environmental Protection at 13051 North Telecom Parkway, Temple Terrace, Florida 33637-0926, to the attention of Mara Grace Nasca (phone no. 813-632-7600) referencing the DEP file number listed above. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

**PERMITTEE:**

Great Southern Wood – Bushnell, Inc.  
Highway 431 North  
Abbeville, Alabama 36310

**DRAFT Permit No.:** 1190048-001-AF

**County:** Sumter

**Effective Date:** xx/xx/xxxx

**Expiration Date:** xx/xx/xxxx

**Project:** Initial Permit for Wood Treatment  
Facility

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code (F.A.C.) Chapters 62-204, 62-210, 62-212, 62-213, 62-296, 62-297, and Chapter 62-4. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents, attached hereto or on file with the department and made a part hereof and specifically described as follows:

This Federally Enforceable State Operation Permit (FESOP) authorizes the operation of a wood treatment facility. This facility pressure treats wood using preservatives that contain chromium and arsenic compounds and is therefore considered an area source of Hazardous Air Pollutant (HAP) emissions. Specifically, this facility uses the Chromated Copper Arsenate (CCA) wood treatment process as a part of their operation and is therefore subject to 40 CFR 63 Subpart QQQQQQ. Based on the VOC and HAP potential emissions associated with this operation, this facility is considered a natural non-Title V.

This facility includes a total of three wood pressure treatment cylinders. Of the three treatment cylinders, only one utilizes the Chromated Copper Arsenate (CCA) wood treatment process. The air emission sources at this facility are as described below:

**Permitted Emissions Unit**

**Emission Unit ID No. 001 – Wood Treatment Process**

This emission unit consists of three wood pressure treatment cylinders (Cylinders 1, 2 and 3), process storage tanks and other associated equipment. The treatment process takes approximately one hour.

Cylinders 1 and 2 are both 7 feet in diameter and 102 feet in length and can treat approximately 12,982 thousand cubic feet of wood per year combined. Both cylinders use “MicroPro™ 200C” wood preserving solution and “Carbo-NT” co-biocide as part of the pressure treatment process. Micro Pro™ 200C does not contain any HAP components, but Carbo-NT, does contain a HAP, methanol.

Cylinder 3 is 6 feet in diameter and 52 feet in length and can treat approximately 2,746 thousand cubic feet of wood per year. It uses a chromated copper arsenate (CCA) wood preserving solution in the pressure treatment process. CCA preserving solution contains chromium and arsenic HAP components.

In this emission unit, lumber, timber and plywood to be treated are moved into one of the three large horizontal treatment cylinders via a small rail. The cylinder door is sealed and a vacuum is applied to remove most of the air from the cylinder and wood cells. Preservation solution is then pumped into the cylinder and the pressure is increased to 150 psi forcing the preservation solution into the wood. Pressure

**PERMITTEE:**  
Great Southern Wood – Bushnell, Inc.  
Highway 431 North  
Abbeville, Alabama 36310

**DRAFT Permit** : 1190048-001-AF  
**Project:** Initial Permit for Wood Treatment  
Facility

in the cylinder is then released and the remaining preservation solution is pumped back into a storage tank for re-use. A vacuum is drawn within the cylinder to remove excess preservation solution from the wood to control drippage following treatment.

At the end of the process, the cylinder door is opened and the lumber is pulled out and allowed to dry on a drip track or pad. Cylinders 1 and 2 each have a drip track areas built of steel plate that is sloped and Cylinder 3 has a concrete drip pad area that is sloped. The drip areas are sloped toward the cylinders to allow drippage from the treated wood to flow back to the steel-lined normally wetted process pit under the door of the cylinder. Liquid material collected in the normally wetted process pit is returned to the cylinders process storage tank for re-use. After the treated material has set on the drip pad or track area and the lumber has become surface dry, the product is ready for storage and/or shipment to the customer.

Because Cylinders 1 and 2 both use a co-biocide that contains the HAP, methanol as part of their wood preserving system, and Cylinder 3 uses a CCA wood preserving solution which contains the HAP components, chromium and arsenic, this emission unit is considered an area source of hazardous air pollutant (HAP) emissions and is subject to 40 CFR 63, Subpart QQQQQQ.

Cylinder 3 is subject to the standards of 40 CFR 63.11430 because it uses a CCA preservation solution that contains chromium and arsenic. Specifically, Cylinder 3 uses Osmose K-33(CCA Type C) to treat the lumber. Osmose K-33 is received in the form of a liquid concentrate containing 60% of the CCA oxides. It is delivered to the facility via tank trucks and transferred directly into the concentrate storage tank.

*Note: Cylinders 1 and 2 are not subject to the standards of 40 CFR 63.11430 because the standard is limited to wood preservatives containing chromium, arsenic, dioxins and methylene chloride.*

**Rule Applicability Note**

40 CFR 63 Subpart QQQQQQ – National Emission Standards for Hazardous Air Pollutants for Wood Preserving Area Sources.

**Exempt Emission Source**

This facility utilizes an LPG fired 600,000 BTU/hour lumber kiln (Manufacturer: Kiln-direct.com, Model No.: SLK-271109-10M6H2HR-ALU) that is exempt from permitting per rule 62-210.300(3)(a)33.

<u>E.U. ID No.</u>	<u>Description</u>
001	Wood Treatment Process

*NOTE: Please reference the Permit No., Facility ID, and Emission Unit ID in all correspondence, test report submittals, applications, etc.*

**Permit History**

- NA (this is the first air permit for this facility)

**Attachment(s) to this permit:**

- General Conditions, version dated 11/1/2005
- 40 CFR 63 Subpart QQQQQQ – National Emission Standards for Hazardous Air Pollutants for Wood Preserving Area Sources
- Management Practice Plan to Minimize Air Emissions, submitted with request for additional information response letter dated November 14, 2008.

**Specific Conditions:**

**Facility-wide Specific Conditions**

- 1. General Conditions** - A part of this permit is the attached 15 General Conditions.  
[Rule 62-4.160, F.A.C.]
- 2. Other Requirements** - Issuance of this permit does not relieve the permittee from complying with the applicable emission limiting standards or other requirements of Chapters 62-204, 62-210, 62-212, 62-213, 62-296, and 62-297, F.A.C. or any other requirement under federal, state, or local law.  
[Rule 62-210.300, F.A.C.]

**Operation and Emission Limitations**

- 3. Operating Hours** - The facility is permitted for continuous operation (i.e., 8760 hours/year)  
[Rule 62-210.200, F.A.C. (Definitions - Potential to Emit)]
- 4. Modification** - Unless otherwise exempt by rule, the permittee shall not initiate any construction, reconstruction, or modification at the facility and shall not install/modify any pollution control device at the facility without obtaining prior authorization from the Department. Modification is defined as: Any physical change or changes in the method of operations or addition to a facility that would result in an increase in the actual emissions of any air pollutant subject to air regulations, including any not previously emitted, from any emission unit or facility.  
[Rules 62-210.200 - Definition of "Modification" and 62-210.300(1)(a), F.A.C.]

**PERMITTEE:**  
Great Southern Wood – Bushnell, Inc.  
Highway 431 North  
Abbeville, Alabama 36310

**DRAFT Permit** : 1190048-001-AF  
**Project:** Initial Permit for Wood Treatment  
Facility

**5. General Pollutant Emission Limiting Standard: Visible Emissions** – Except for emissions units that are subject to a particulate matter or opacity limit set forth or established by rule, no person shall cause, let, permit, suffer or allow to be discharged into the atmosphere the emissions of air pollutants from any activity, the density of which is equal to or greater than that designated as Number 1 on the Ringelmann Chart (20 percent opacity). EPA Method 9 is the method of compliance pursuant to Rule 62-297.401, F.A.C.

[Rules 62-296.320(4)(b)1, 62-296.320(4)(b)4 and 62-297.401, F.A.C.]

**6. General Pollutant Emission Limiting Standards: Objectionable Odor** - No person shall cause, suffer, allow or permit the discharge of air pollutants, which cause or contribute to an objectionable odor. An objectionable odor is any odor present in the outdoor atmosphere, which by itself or in combination with other odors, is or may be harmful or injurious to human health or welfare, which unreasonably interferes with the comfortable use and enjoyment of life or property, or which creates a nuisance.

[Rules 62-210.200 (Definition “Objectionable Odor”) and 62-296.320(2), F.A.C.]

**7. Special Compliance Tests** - When the Department, after investigation, has good reason (such as complaints, increased visible emissions, or questionable maintenance of control equipment) to believe that any applicable emission standard contained in a Department rule or in a permit issued pursuant to those rules is being violated, it may require the owner or operator of the emissions unit to conduct compliance tests which identify the nature and quantity of pollutant emissions from the emission unit and to provide a report on the results of said tests to the Department.

[Rule 62-297.310(7)(b), F.A.C.]

### **Recordkeeping and Reporting**

**8. Records Retention** – All daily records shall be completed within three (3) business days. All monthly records shall be completed by the end of following month. All records required by this permit shall be maintained at the facility for at least five years, unless otherwise noted, and be made available to the Department for inspection upon request.

[Rules 62-4.070(3), F.A.C. and 40 CFR 63.10(b)1]

**9. Permit Renewal Application** – A completed application to renew this operation permit shall be submitted to the Air Permitting Section of the Department’s Southwest District Office no later than 60 days prior to the expiration date of this permit. To properly apply for an operation permit renewal, the applicant shall submit the following:

- A. The appropriate operation permit application form (see current version of Rule 62-210.900, F.A.C. and /or FDEP Division of Air Resource management website at: <http://www.dep.state.fl.us/air/>);
- B. The appropriate operation permit application fee (see Rule 62-4.050(4)(a), F.A.C.);
- C. Copies of the records specified in Specific Condition No. 12.B. for the most recent 2 months of operation; and

[Rules 62-4.070(3), 62-4.090, 62-210.300(2) and 62-210.900 F.A.C.]

**PERMITTEE:**  
Great Southern Wood – Bushnell, Inc.  
Highway 431 North  
Abbeville, Alabama 36310

**DRAFT Permit** : 1190048-001-AF  
**Project:** Initial Permit for Wood Treatment  
Facility

**EU ID No. 001 Specific Conditions**

**Operation Standards**

**10. Application of Wood Preservatives** – Wood preservatives containing chromium, arsenic, dioxins, or methylene chloride must be applied to the wood products inside a retort or similarly enclosed vessel.  
[Rules 62-204.800, FAC and 40 CFR 63.11430(a)]

**11. Management Practice Plan** - The permittee shall operate and maintain this emission unit in accordance with the attached management practice plan to minimize air emissions from the preservative treatment of wood at the existing area source.  
[Rules 62-204.800, FAC and 40 CFR 63.11430(c), Additional information response letter dated November 14, 2008]

**Recordkeeping and Reporting**

**12. Recordkeeping** – The permittee shall maintain a record log to satisfy the requirements of the Management Practice Plan of Specific Condition No. 11. For each treatment cylinder using wood preservatives containing chromium, arsenic, dioxins, or methylene chloride (i.e. Cylinder 3), the record logs shall include, but are not limited to, the following:

A. Daily Records:

- 1) Facility Name, Facility Number (1190048), Emission Unit No. (EU-001), Date
- 2) Cylinder Number
- 3) Charge Records (i.e. charge times and pressure readings during charge).

B. Monthly Records:

- 1) Facility Name, Facility Number (1190048), Emission Unit No. (EU-001), Month, Year
- 2) Cylinder Number and Treatment Process
- 3) The types and quantity of wood preservative used.

At the permittee's option, "quantity purchased" may be reported to satisfy the requirement of "quantity used", provided no materials are used which are not purchased.

[Rule 62-4.070(3), F.A.C. and 40 CFR 63.11430(c)2]

STATE OF FLORIDA DEPARTMENT  
OF ENVIRONMENTAL PROTECTION

***DRAFT***

---

Mara Grace Nasca  
District Air Program Administrator  
Southwest District

MGN/DS/pp

## ATTACHMENT – GENERAL CONDITIONS

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, Florida Statutes (F.S.). The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. Not applicable to Air Permits.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:
  - a. Have access to and copy any records that must be kept under conditions of the permit;
  - b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
  - c. Sample or monitor any substances or parameters at any location reasonable necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:
  - a. A description of and cause of noncompliance; and
  - b. The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance. The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

ATTACHMENT – GENERAL CONDITIONS

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Section 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Rule 62-4.120 and 62-730.300 F.A.C., as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit also constitutes:

- Determination of Best Available Control Technology (BACT)
- Determination of Prevention of Significant Deterioration (PSD)
- Compliance with New Source Performance Standards (NSPS)

14. The permittee shall comply with the following:

- a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
- c. Records of monitoring information shall include:
  - 1. the date, exact place, and time of sampling or measurements;
  - 2. the person responsible for performing the sampling or measurements;
  - 3. the dates analyses were performed;
  - 4. the person responsible for performing the analyses;
  - 5. the analytical techniques or methods used;
  - 6. the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

16. Not applicable to Air Permits.

17. Not applicable to Air Permits.

**Federal Regulations Adopted by Reference**

In accordance with Rule 62-204.800, F.A.C., the following federal regulation in Title 40 of the Code of Federal Regulations (CFR) was adopted by reference. The original federal rule numbering has been retained.

*Federal Revision Date: July 16, 2007*

*Rule Effective Date: February 1, 2008*

*Standardized Conditions Revision Date: February 14, 2008*

**40 CFR Part 63, Subpart QQQQQQ - National Emission Standards for Hazardous Air Pollutants for Wood Preserving Area Sources**

Source: 72 FR 38915, July 16, 2007, unless otherwise noted.

**APPLICABILITY AND COMPLIANCE DATES**

**§ 63.11428 Am I subject to this subpart?**

- (a) You are subject to this subpart if you own or operate a wood preserving operation that is an area source of hazardous air pollutant (HAP) emissions.
- (b) The affected source is each new or existing wood preserving operation.
  - (1) An affected source is existing if you commenced construction or reconstruction of the affected source on or before April 4, 2007.
  - (2) An affected source is new if you commenced construction or reconstruction of the affected source after April 4, 2007.
- (c) You are exempt from the obligation to obtain a permit under 40 CFR part 70 or 40 CFR part 71, provided you are not otherwise required by law to obtain a permit under 40 CFR 70.3(a) or 40 CFR 71.3(a). Notwithstanding the previous sentence, you must continue to comply with the provisions of this subpart.

**§ 63.11429 What are my compliance dates?**

- (a) If you have an existing affected source, you must achieve compliance with applicable provisions in this subpart by July 16, 2007.
- (b) If you startup a new affected source on or before July 16, 2007, you must achieve compliance with applicable provisions in this subpart not later than July 16, 2007.
- (c) If you startup a new affected source after July 16, 2007, you must achieve compliance with applicable provisions in this subpart upon initial startup.

**STANDARDS**

**§ 63.11430 What are the standards?**

- (a) If you use a pressure treatment process with any wood preservative containing chromium, arsenic, dioxins, or methylene chloride at a new or existing area source, the preservative must be applied to the wood product inside a retort or similarly enclosed vessel.
- (b) If you use a thermal treatment process with any wood preservative containing chromium, arsenic, dioxins, or methylene chloride at a new or existing area source, the preservative must be applied using process treatment tanks equipped with an air scavenging system to control emissions.
- (c) If you use any wood preservative containing chromium, arsenic, dioxins, or methylene chloride at a new or existing area source, you must prepare and operate according to a management practice plan to minimize air emissions from the preservative treatment of wood at a new or existing area source. You may use your standard operating procedures to meet the requirements for a management practice plan if it includes the minimum activities required for a management practice plan. The management practice plan must include, but is not limited to, the following activities:
  - (1) Minimize preservative usage;
  - (2) Maintain records on the type of treatment process and types and amounts of wood preservatives used at the facility;
  - (3) For the pressure treatment process, maintain charge records identifying pressure reading(s) inside the retorts (or similarly enclosed vessel);

- (4) For the thermal treatment process, maintain records that the air scavenging system is in place and operated properly during the treatment process;
- (5) Store treated wood product on drip pads or in a primary containment area to convey preservative drippage to a collection system until drippage has ceased;
- (6) For the pressure treatment process, fully drain the retort to the extent practicable, prior to opening the retort door;
- (7) Promptly collect any spills; and
- (8) Perform relevant corrective actions or preventative measures in the event of a malfunction before resuming operations.

§ 63.11431 [Reserved]

**OTHER REQUIREMENTS AND INFORMATION**

**§ 63.11432 What General Provisions apply to this subpart?**

- (a) If you own or operate a new or existing affected source that uses any wood preservative containing chromium, arsenic, dioxins, or methylene chloride, you must comply with the requirements of the General Provisions in 40 CFR part 63, subpart A, according to Table 1 to this subpart.
- (b) If you own or operate a new or existing affected source that uses any wood preservative containing chromium, arsenic, dioxins, or methylene chloride, you must submit an initial notification of applicability required by §63.9(a)(2) no later than 90 days after the applicable compliance date specified in §63.11429. The initial notification may be combined with the notification of compliance status required in paragraph (c) of this section. The notification of applicability must include the following information:
  - (1) The name and address of the owner or operator;
  - (2) The address ( *i.e.* , physical location) of the affected source; and
  - (3) An identification of the relevant standard, or other requirement, that is the basis of the notification and the source's compliance date.
- (c) If you own or operate a new or existing affected source that uses any wood preservative containing chromium, arsenic, dioxins, or methylene chloride, you must submit a notification of compliance status required by §63.9(h) no later than 90 days after the applicable compliance date specified in §63.11429. Your notification of compliance status must include this certification of compliance, signed by a responsible official, for the standards in §63.11430: "This facility complies with the management practices to minimize air emissions from the preservative treatment of wood in accordance with §63.11430."
- (d) You must report any deviation from the requirements of this subpart within 30 days of the deviation.

**§ 63.11433 What definitions apply to this subpart?**

Terms used in this subpart are defined in the Clean Air Act, §63.2, and in this section as follows:

*Air scavenging system* means an air collection and control system that collects and removes vapors from a thermal treatment process vessel and vents the emissions to a vapor recovery tank that collects condensate from the vapors.

*Chromated copper arsenate (CCA)* means a chemical wood preservative consisting of mixtures of water-soluble chemicals containing metal oxides of chromium, copper, and arsenic. CCA is used in pressure treated wood to protect wood from rotting due to insects and microbial agents.

*Deviation* means any instance in which an affected source subject to this subpart, or an owner or operator of such a source:

- (1) Fails to meet any requirement or obligation established by this subpart, including but not limited to any emissions limitation or management practice;
- (2) Fails to meet any term or condition that is adopted to implement an applicable requirement in this subpart and that is included in the operating permit for any affected source required to obtain such a permit; or
- (3) Fails to meet any emissions limitation or management practice in this subpart during startup, shutdown, or malfunction, regardless of whether or not such failure is permitted by this subpart.

*Pressure treatment process* means a wood treatment process involving an enclosed vessel, usually a retort, and the application of pneumatic or hydrostatic pressure to expedite the movement of preservative liquid into the wood.

*Responsible official* means responsible official as defined in 40 CFR 70.2.

*Retort* means an airtight pressure vessel, typically a long horizontal cylinder, used for the pressure impregnation of wood products with a liquid wood preservative.

*Thermal treatment process* means a non-pressurized wood treatment process where the wood is exposed to a heated preservative.

*Wood preserving* means the pressure or thermal impregnation of chemicals into wood to provide effective long-term resistance to attack by fungi, bacteria, insects, and marine borers.

**§ 63.11434 Who implements and enforces this subpart?**

- (a) This subpart can be implemented and enforced by the U.S. EPA or a delegated authority such as a State, local, or tribal agency. If the U.S. EPA Administrator has delegated authority to a State, local, or tribal agency pursuant to 40 CFR subpart E, then that Agency has the authority to implement and enforce this subpart. You should contact your U.S. EPA Regional Office to find out if this subpart is delegated to your State, local, or tribal agency.
- (b) In delegating implementation and enforcement authority of this subpart to a State, local, or tribal agency under 40 CFR part 63, subpart E, the authorities contained in paragraphs (b)(1) through (4) of this section are retained by the Administrator of the U.S. EPA and are not transferred to the State, local, or tribal agency.
  - (1) Approval of an alternative non-opacity emissions standard under §63.6(g).
  - (2) Approval of a major change to test methods under §63.7(e)(2)(ii) and (f). A “major change to test method” is defined in §63.90
  - (3) Approval of a major change to monitoring under §63.8(f). A “major change to monitoring” is defined in §63.90.
  - (4) Approval of a major change to recordkeeping/reporting under §63.10(f). A “major change to recordkeeping/reporting” is defined in §63.90.

As required in §63.11432, you must comply with the requirements of the NESHAP General Provisions (40 CFR part 63, subpart A) as shown in the following table.

**NESHAP SUBPART QQQQQQ**

**Table 1 To Subpart QQQQQQ of Part 63.—Applicability of General Provisions to Subpart QQQQQQ**

<b>Citation</b>	<b>Subject</b>	<b>Applies to subpart QQQQQQ?</b>	<b>Explanation</b>
63.1(a)(1), (a)(2), (a)(3), (a)(4), (a)(6), (a)(10)–(a)(12)(b)(1), (b)(3), (c)(1), (c)(2), (c)(5), (e)	Applicability	Yes	
63.1(a)(5), (a)(7)–(a)(9), (b)(2), (c)(3), (c)(4), (d)	Reserved	No	
63.2	Definitions	Yes	
63.3	Units and Abbreviations	Yes	
63.4	Prohibited Activities and Circumvention	Yes	
63.5	Preconstruction Review and Notification Requirements	No	
63.6(a), (b)(1)–(b)(5), (b)(7), (c)(1), (c)(2), (c)(5), (e)(1), (i), (j)	Compliance with Standards and Maintenance Requirements	Yes

63.10(c)(2)–(c)(4), (c)(9)	Reserved	No	
63.11	Control Device Requirements	No	Subpart QQQQQQ does not require flares.
63.12	State Authorities and Delegations	Yes	
63.13	Addresses	Yes	
63.14	Incorporations by Reference	Yes	
63.15	Availability of Information and Confidentiality	Yes	
63.16	Performance Track Provisions	Yes	

**Management Practice Plan to  
Minimize Air Emissions for**

**Great Southern Wood Preserving, Inc.**

**To comply with 40 CFR Part 63 Subpart QQQQQQ NESHAP for  
Wood Preserving Area Sources**

Our company uses the following operational procedures that minimize air emissions.

1. Our company uses the minimum amount of preservative allowed by the American Wood Preservers Association (AWPA) Treatment Standards to produce a quality treated wood product. Preservative usage is checked by an internal quality control program as well as a third party quality control program. The residues from treatment plus system wash water are collected for reuse in our treatment system.
2. The plant history required by the RCRA Subpart W regulations will provide a history of the preservatives used at our facility. The amounts of preservative used can be determined from our purchase records; from our Tier II reporting or from our process computer/treating records or our handwritten charge records and charts from recorders.
3. Treatment process records such as pressure readings for treatment cylinders can be found in the process computer or in our handwritten charge records and charts from recorders.
4. We do not employ thermal treating processes.
5. Our facility operates under the operational requirements of RCRA Subpart W which states that all treated wood products must be maintained on the drip pad until drippage has ceased. Our company maintains a treated wood drip pad residence time record as required by RCRA Subpart W.
6. It is our company policy to drain our cylinder to the fullest possible extent before we open the door.
7. Our plant is built so that a spill of treatment chemical to the environment outside the plant is very remote. Leaks from process equipment malfunctions inside the plant occur from time to time. On occasions when leaks occur, we clean up the area as soon as possible and repair the cause as soon as possible.

## P.E. CERTIFICATE STATEMENT

### PERMITTEE

Great Southern Wood – Bushnell, Inc.

Draft Air Permit No. 1190048-001-AF

Project Type: AF2C

Project Description: This is the first air permit for Great Southern Wood – Bushnell, Inc. This FESOP authorizes the facility to operate three wood treatment cylinders and the associated equipment.

**I HEREBY CERTIFY** that the air pollution control engineering features described in the above referenced application and subject to the proposed permit conditions provide reasonable assurance of compliance with applicable provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Chapters 62-4 and 62-204 through 62-297. However, I have not evaluated and I do not certify aspects of the proposal outside of my area of expertise (including, but not limited to, the electrical, mechanical, structural, hydrological and meteorological features).

**MEMORANDUM**

TO: Mara Grace Nasca *MGN*  
District Air Program Administrator

THRU: Cindy Zhang-Torres, P.E.  
Air Permitting Supervisor

FROM: Danny Stubbs *DS*  
Air Permitting Engineer

DATE: 4/8/2009

SUBJECT: Draft Permit No: 1190048-001-AC  
Facility Name: Great Southern Wood – Bushnell, Inc.

Day 90: 4/28/2009

On March 14, 2008, the department received an “initial notification of applicability” and a “notice of compliance status” from Great Southern Wood – Bushnell, Inc. This facility pressure treats wood using Chromated Copper Arsenate (CCA) preservation solution and is therefore considered an area source of HAP emissions subject to 40 CFR 63, Subpart QQQQQQ, which became effective on July 16, 2007 and amended on March 28, 2008. The notification and notice indicated that the facility is subject to 40 CFR 63, Subpart QQQQQQ and stated that the facility currently meets the management practices of the subpart.

On March 19, 2008, the department received a letter from Great Southern Wood – Bushnell, Inc., requesting a permit determination for a small lumber kiln with a 600,000 Btu/hr burner. On June 23, 2008, the Department issued a permit determination letter indicating that the kiln may be categorically exempt from permitting. The permit determination letter also stated that the facility is required to obtain a permit because the facility is subject to unit specific requirements of 40 CFR 63, Subpart QQQQQQ.

On September 4, 2008, the department received an application from Great Southern Wood – Bushnell, Inc., requesting a Federally Enforceable State Operation Permit (FESOP) for its wood treatment facility. Because this is the initial permit for the facility, compliance and enforcement histories has not been established.

During the review process, two “request for additional information” (RAI) letters were mailed to the applicant. The first RAI letter was mailed to the applicant on October 3, 2008 and a second was mailed on December 17, 2008. There were no major issues with the application and the letters were primarily requests for further clarifications regarding the process and operations. The letters also requested additional documentation to satisfy the authorized representative

requirements. Response letters were received on November 17, 2008 and January 28, 2009.

On April 8, 2009, James Burkholder and I visited the facility to verify that the information included in the application adequately represents the existing operation. We were given a tour of the facility by Mr. Sean Odell, the Production Manager. During the tour, Mr. Odell was able to show us the three pressure treatment cylinders and the associated equipment (i.e. storage tanks, pumps and pad/containment areas). We also briefly discussed the record keeping that will be required in their air permit and as a result, Mr. Odell was able to show us the records currently maintain on their computer. Their current records appeared to either meet or exceed what we require in the permit and will only require some querying of data to calculate monthly totals along with some additional formatting.

I recommend issuance of the permit.

**MEMORANDUM**

TO: Mara Grace Nasca  
District Air Program Administrator

THRU: Cindy Zhang-Torres, P.E. *cf*  
Air Permitting Supervisor

FROM: Danny Stubbs *DS*  
Air Permitting Engineer

DATE: 3/4/2009

SUBJECT: Draft Permit No: 1190048-001-AC  
Facility Name: Great Southern Wood – Bushnell, Inc.

Day 90: 4/28/2009

On March 14, 2008, the department received an “initial notification of applicability” and a “notice of compliance status” from Great Southern Wood – Bushnell, Inc. This facility pressure treats wood using Chromated Copper Arsenate (CCA) preservation solution and is therefore considered an area source of HAP emissions subject to 40 CFR 63, Subpart QQQQQQ, which became effective on July 16, 2007 and amended on March 28, 2008. The notification and notice indicated that the facility is subject to 40 CFR 63, Subpart QQQQQQ and stated that the facility currently meets the management practices of the subpart.

On March 19, 2008, the department received a letter from Great Southern Wood – Bushnell, Inc., requesting a permit determination for a small lumber kiln with a 600,000 Btu/hr burner. On June 23, 2008, the Department issued a permit determination letter indicating that the kiln may be categorically exempt from permitting. The permit determination letter also stated that the facility is required to obtain a permit because the facility is subject to unit specific requirements of 40 CFR 63, Subpart QQQQQQ.

On September 4, 2008, the department received an application from Great Southern Wood – Bushnell, Inc., requesting a Federally Enforceable State Operation Permit (FESOP) for its wood treatment facility. Because this is the initial permit for the facility, compliance and enforcement histories has not been established.

During the review process, two “request for additional information” (RAI) letters were mailed to the applicant. The first RAI letter was mailed to the applicant on October 3, 2008 and a second was mailed on December 17, 2008. There were no major issues with the application and the letters were primarily requests for further clarifications regarding the process and operations. The letters also requested additional documentation to satisfy the authorized representative

requirements. Response letters were received on November 17, 2008 and January 28, 2009.

I recommend issuance the permit.

AND  
PRELIMINARY DETERMINATION  
FOR  
Great Southern Wood – Bushnell, Inc.  
Sumter County

Construction Permit Application Number  
1190048-001-AF

Florida Department of Environmental Protection  
Southwest District  
Temple Terrace, Florida  
March 4, 2009

Prepared by: Danny Stubbs

I. Project Description:

A. Applicant:

Mr. Kevin Savoy, Vice President  
Great Southern Wood – Bushnell, Inc.  
Highway 431 North  
Abbeville, Alabama 36310

B. Professional Engineer:

Mr. Stan Price, P.E.  
Barge Waggoner Sumner & Cannon, Inc.  
2047 West Main Street  
Dothan, Alabama 36301

C. Project Location:

The facility is located at County Road 527-A, Lake Panasoffkee, Sumter County.

D. Project Summary:

This project is for the initial Federally Enforceable State Operation Permit (FESOP) for an existing non-Title V, wood treatment facility. This facility produces pressure treated wood products by applying wood preserving solutions to lumber, timber and plywood products in a pressure treatment cylinder. The facility has a total of three wood pressure treatment cylinders. Cylinders 1 and 2 both use the MicroPro™ 200C wood preservative system and Cylinder 3 uses the Chromated Copper Arsenate (CCA) wood preserving system. This facility is subject to 40 CFR 63, Subpart QQQQQQ.

E. Application Information:

Application Received on: September 4, 2008  
Additional Information Requested on: October 3, 2008  
Additional Information Received on: November 17, 2008  
Additional Information Requested on: December 17, 2008  
Additional Information Received on: January 28, 2009  
Application Complete: January 28, 2009

## II. Rule Applicability

This project is subject to the preconstruction review requirements of Chapter 403, Florida Statutes and Chapters 62-204 through 62-297, Florida Administrative Code (F.A.C.), as indicated below.

<b>Subject to:</b>	<b>Y/N</b>	<b>Comments</b>
<b>Rule 62-210.300, F.A.C.</b> - Sources Not Subject to Prevention of Significant Deterioration or Nonattainment Requirements, F.A.C.	Y	Not exempt from general permitting requirements
<b>Rule 62-212.400, F.A.C.</b> - Prevention of Significant Deterioration	N	Facility is PSD minor source.
<b>Rule 62-296.320(4), F.A.C.</b> - General Particulate Emission Limiting Standards	Y	General Visible Emissions Standard is applicable.
<b>Rules 62-296.320(1) and (2), F.A.C.</b> - General Pollutant Emission Limiting Standards (VOCs and Odor)	Y	Facility is a VOC source and could also be a source of odor.
<b>Rule 62-296.400, F.A.C.</b> - Stationary Source Emission Standards	N	There is no applicable source category.
<b>Rule 62-296.500, F.A.C.</b> - Reasonably Available Control Technology (VOC)	N	Sumter County is an attainment area for ozone.
<b>Rule 62-296.700, F.A.C.</b> - Reasonably Available Control Technology (PM)	N	Sumter County is an attainment area for PM.
<b>Rule 62-204.800, F.A.C.</b> - Standards of Performance for New Stationary Sources (NSPS)	N	There is no applicable source category.
<b>Rule 62-204.800, F.A.C.</b> National Emission Standard for Hazardous Air Pollutants (NESHAPS – 40 CFR 61)	N	There is no applicable source category.
<b>Rule 62-204.800, F.A.C.</b> National Emission Standard for Hazardous Air Pollutants for Source Categories a.k.a. MACT (NESHAPS – 40 CFR 63)	Y	EU No. 001 is subject to 40 CFR 63, Subpart QQQQQQ. Cylinders 1, 2 and 3 are subject to this subpart; however, Cylinder 3 is the only cylinder that uses a preservation solution (i.e., CCA) that is covered by a standard in Subpart QQQQQQ.
<b>Chapter 62-213, F.A.C.</b> - Operation Permits for Major Sources of Air Pollution	N	Facility is a natural non-Title V source.
<b>Rule 62-297.310, F.A.C.</b> - General Compliance Test Requirements, F.A.C.	N	Compliance testing is not required for this project.

III. Summary of Emissions

Pollutant	EU No.	Potential Emissions (tpy)	Allowable Emissions (tpy)
VOC	001	0.63	NA
	Facility Total	0.63	
Individual HAP (Methanol)	001	0.03	NA
	Facility Total	0.03	
Individual HAP (Arsenic Compounds)	001	0.000008	NA
	Facility Total	0.000008	
Individual HAP (Chromium Compounds)	001	0.000003	NA
	Facility Total	0.000003	

IV. Conclusions

The emission limits proposed by the applicant will meet all of the requirements of Chapters 62-204 through 297, F.A.C.

The General and Specific Conditions listed in the proposed permit (attached) will assure compliance with all the applicable requirements of Chapters 62-204 through 297, F.A.C.

V. Proposed Agency Action

Pursuant to Section 403.087, Florida Statutes and Section 62-4.070, Florida Administrative Code, the Department hereby gives notice of its intent to issue a permit to construct the aforementioned air pollution source in accordance with the draft permit and its conditions as stipulated (see attached).

STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DEP File No. 1190048-001-AF  
Great Souther Wood - Bushnell, Inc.  
Sumter County

Dept. of Environmental Protection

JUL 07 2009

Southwest District

The Department of Environmental Protection (Department) gives notice of its intent to issue an air permit to Great Southern Wood - Bushnell, Inc., for the facility located at County Road 527-A, Lake Panasoffkee, Sumter County. The permit authorizes Great Souther Wood - Bushnell, Inc., to operate three wood treatment cylinders and the associated equipment. This facility pressure treats wood using preservatives that contain chromium and arsenic compounds and it is therefor considered an area source of hazardous air permit emissions. MAILING ADDRESS: Great Southern Wood - Bushnell, Inc., Highway 431 North, Abbeville, Alabama 36310 to the attention of Mr. Kevin Savoy, Vice President.

The Department will issue the final permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit issuance action for a period of fourteen days from the date of publication of this Public Notice of Intent to Issue Air Permit. Written comments should be provided to the Department of Environmental Protection, 13051 N. Telecom Parkway, Temple Terrace, FL 33637-0926. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the final permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, F.S. before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.569(3), F.S. must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first.

<b>Notes</b>	:		
<b>Zones</b>	:		

Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S. or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

All petitions filed under these rules shall contain:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules to statutes; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Florida Department of Environmental Protection, Southwest District, 13051 N. Telecom Parkway, Temple Terrace, Florida.

---

The complete project file includes the application, technical evaluations, Draft permit, and the information submitted by the responsible official, exclusive of confidential records under Section 403.1 II, F.S.. Interested persons may contact Mara Grace Nasca, District's Air Program Administrator, at 13051 N. Telecom Parkway, Temple Terrace, Florida or call 813-632-7600, for additional information.

Any person may request to obtain additional information, a copy of the application (except for information entitled to confidential treatment pursuant to Section 403.111, F.S.), all relevant supporting materials, a copy of the permit draft, and all other materials available to the Department that are relevant to the permit decision. Additionally, the Department will accept written comments concerning the proposed permit issuance action for a period of 14 (fourteen) days from the date of publication of "Public Notice of Intent to Issue Permit." Requests and written comments filed should be provided to the Florida Department of Environmental Protection at 13051 N. Telecom Parkway, Temple Terrace, FL 33637-0926, to the attention of Mara Grace Nasca (phone no. 813-632-7600) referencing the DEP file number listed above. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

## 622-0611 SCT PUBLIC NOTICE

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT  
STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DEP File No. 1190048-001-AF  
Great Souther Wood - Bushnell, Inc.  
Sumter County.

The Department of Environmental Protection (Department) gives notice of its intent to issue an air permit to Great Southern Wood - Bushnell, Inc., for the facility located at County Road 527-A, Lake Panasoffkee, Sumter County. The permit authorizes Great Souther Wood - Bushnell, Inc., to operate three wood treatment cylinders and the associated equipment. This facility pressure treats wood using preservatives that contain chromium and arsenic compounds and it is therefore considered an area source of hazardous air permit emissions. MAILING ADDRESS: Great Southern Wood - Bushnell, Inc., Highway 431 North, Abbeville, Alabama 36310 to the attention of Mr. Kevin Savoy, Vice President.

The Department will issue the final permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit issuance action for a period of fourteen days from the date of publication of this Public Notice of Intent to Issue Air Permit. Written comments should be provided to the Department of Environmental Protection, 13051 N. Telecom Parkway, Temple Terrace, FL 33637-0926. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the final permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, F.S. before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S. must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S. or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

All petitions filed under these rules shall contain:

- The name and address of each agency affected, and each agency's file or identification number, if known;
- The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- A statement of when and how the petitioner received notice of the agency decision;
- A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;
- A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules to statutes; and
- A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Florida Department of Environmental Protection, Southwest District, 13051 N. Telecom Parkway, Temple Terrace, Florida.

The complete project file includes the application, technical evaluations, Draft permit, and the information submitted by the responsible official, exclusive of confidential records under Section 403.1 II, F.S.. Interested persons may contact Mara Grace Nasca, District's Air Program Administrator, at 13051 N. Telecom Parkway, Temple Terrace, Florida or call 813-632-7600, for additional information.

Any person may request to obtain additional information, a copy of the application (except for information entitled to confidential treatment pursuant to Section 403.111, F.S.), all relevant supporting materials, a copy of the permit draft, and all other materials available to the Department that are relevant to the permit decision. Additionally, the Department will accept written comments concerning the proposed permit issuance action for a period of 14 (fourteen) days from the date of publication of "Public Notice of Intent to Issue Permit." Requests and written comments filed should be provided to the Florida Department of Environmental Protection at 13051 N. Telecom Parkway, Temple Terrace, FL 33637-0926, to the attention of Mara Grace Nasca (phone no. 813-632-7600) referencing the DEP file number listed above. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.
