Dear Mr. Rainey:

On January 28, 2010, I sent you an email on the above referenced Final Permit.

It is important that I receive verification, by email, that you received and are able to access the documents. Your immediate reply will preclude subsequent email transmissions to verify accessibility of the document(s). Thank you for your help,

Patricia Prickett

CONVERSATION RECORD

Date: January 20, 2010		Subject: Changes to draft 1190050-001-AC	
Time: 11:55 a.m.		Permit No. 1190050-001-AC	
		County: Sumter	
Mr. Ed Abshier, P.E.		Telephone No.: 352-245-8592	
Representing: Consultant for Rainey Asphalt, LLC			
<input type="checkbox"/> Telephoned Me	<input checked="" type="checkbox"/> Was Called	<input type="checkbox"/> Scheduled Mtg.	<input type="checkbox"/> Unscheduled Mtg.
Other Individuals Involved in Conversation/Meeting:			
Summary of Conversation/Meeting: I called Mr. Abshier to advise him that the final permit 1190050-001-AC for Rainey Asphalt, LLC would be issued different than what was in the draft permit. I explained that the Final Permit would show the on-specification reclaimed fuel oil as being ranked between new No. 2 fuel and new No. 3 fuel oil, instead of as drafted between new No. 5 fuel oil and new No. 6 fuel oil. Therefore, I advised him to read the final permit when he receives it, since the conditions relating to the testing scenarios and associated recordkeeping are changed.			
Mr. Abshier then said to me that he did not have any issues with the changes that we made in the permit and he appreciated the phone call.

SWD INTERNAL PERMITTING MEMORANDUM

TO: Mara Grace Nasca
District Air Program Administrator

THRU: Cindy Zhang-Torres, P.E. *CJ*
Air Permitting Supervisor

FROM: Jim McDonald *JM*
Air Permitting Engineer

DATE: January 15, 2010

SUBJECT: Final Permit No: 1190050-001-AC
Facility Name: Rainey Asphalt, LLC

Day 90: March 16, 2010

From the information below, I recommend permit 1190050-001-AC for Rainey Asphalt, LLC be issued.

On November 9, 2009, the Department received from Rainey Asphalt, LLC and application to construct a drum mix asphalt concrete plant at 4477 East CR 462, Wildwood, Sumter County. The asphalt concrete plant is subject to Rule 62-210.300(3)(c)2., F.A.C. and 40 CFR 60, Subpart I. Natural gas, new Nos. 2 through 6 fuel oils, and on-specification reclaimed fuel oils are allowed to be fired in the plant's dryer. The plant produces a maximum of 300 tons/hr. and 475,000 tons per any consecutive 12-month period of asphalt concrete, which may be produced by using RAP.

Particulate matter and visible emissions are controlled by a baghouse.

This is the first permit for this facility, which has not been built yet, so there are no compliance and/or enforcement issues.

The draft permit was public noticed on December 31, 2009, and no comments were received.

During the public notice period Cindy Zhang-Torres and I determined that the ranking of on-specification reclaimed fuel oil should be between New No. 2 fuel oil & new No. 3 fuel oil, instead of between new No. 5 fuel oil & new No. 6 fuel oil. Therefore, as further described in the Final Determination, Specific Condition No. 1 in Section 3 and Specific Condition Nos. A.7 and A.14. in Section 4 of Permit No. 1190050-001-AC were changed. Additionally, Specific Condition A.7. in Section 4 further clarifies new emission compliance tests should be conducted with the worst fuel oil used during the 400-hour period. These changes/clarifications were not significant to require a new public notice.

Attached is the official **Written Notice of Intent to Issue Air Permit** for the project referenced above. The Written Notice of Intent to Issue Air Permit (including the Draft Permit and the Attachments) has been posted on the Department of Environmental Protection's Southwest District website.

Note: We must receive verification that you are able to access the documents. Your immediate reply will preclude subsequent e-mail transmissions to verify accessibility of the document(s).

Click on the link displayed above to access the permit project documents and send a "reply" message verifying receipt of the document(s) provided in the link; this may be done by selecting "Reply" on the menu bar of your e-mail software, noting that you can view the documents, and then selecting "Send".

Permit project documents that are addressed in this email may require immediate action within a specified time frame. Please open and review the document(s) as soon as possible, and verify that they are accessible. Please advise this office of any changes to your e-mail address or that of the Engineer-of-Record.

The Southwest District is issuing electronic documents for permits, notices and other correspondence in lieu of hard copies through the United States Postal System, to provide greater service to the applicant and the engineering community. Access these documents by clicking on the link provided above, or search for other project documents using the "Air Permit Documents Search" website at <http://www.dep.state.fl.us/air/emission/apds/default.asp>.

For your convenience, I have also attached the Public Notice of Intent to Issue Air Permit in a word document.

If you should have any questions, please contact Jim McDonald, the Permit Engineer at Jim.McDonald@dep.state.fl.us.

Sincerely,

Carol L. Moore

SWD INTERNAL PERMITTING MEMORANDUM

TO: Mara Grace Nasca
District Air Program Administrator

THRU: Cindy Zhang-Torres, P.E. *cf*
Air Permitting Supervisor

FROM: Jim McDonald *jm*
Air Permitting Engineer

DATE: December 8, 2009

SUBJECT: Draft Permit No: 1190050-001-AC
Facility Name: Rainey Asphalt, LLC

Day 90: February 7, 2010

From the information below, I recommend the Intent to Issue for Rainey Asphalt, LLC be signed.

On November 9, 2009, the Department received from Rainey Asphalt, LLC and application to construct a drum mix asphalt concrete plant at 4477 East CR 462, Wildwood, Sumter County. The asphalt concrete plant is subject to Rule 62-210.300(3)(c)2., F.A.C. and 40 CFR 60, Subpart I. Natural gas, new Nos. 2 through 6 fuel oils, and on-specification reclaimed fuel oils are allowed to be fired in the plant's dryer. The plant produces a maximum of 300 tons/hr. and 475,000 tons per any consecutive 12-month period of asphalt concrete, which may be produced by using RAP.

Particulate matter and visible emissions are controlled by a baghouse.

This is the first permit for this facility, which has not been built yet, so there are no compliance and/or enforcement issues.
