DIVISION OF AIR RESOURCE MANAGEMENT

THE SUWANNEE DEMOCRAT
Published Weekly
Post Office Box 370- Phone 362-1734
Live Oak, Suwannee County, Florida 32064

STATE OF FLORIDA
COUNTY OF SUWANNEE:

Before the undersigned authority personally appeared

LOUISE SHEDDAN

who on oath says that she is
Legal Secretary

of The Suwannee Democrat, a weekly newspaper
published at Live Oak in Suwannee County, Florida;
that the attached copy of advertisement, being a

PUBLIC NOTICE

in the matter of

INTENT TO ISSUE AIR PERMIT

was published in said newspaper in the issues of

APRIL 6, 2012

Affiant further says that the said, The Suwannee
Democrat is a newspaper published at Live Oak in
said Suwannee County, Florida, and that the said
newspaper has heretofore been continuously published
in said Suwannee County, Florida, each week and has
been entered as second class mail matter at the post
office in Live Oak, in said Suwannee County, Florida,
for a period of one year next preceding the first
publication of the attached copy of advertisement;
and affiant further says that he has neither paid
nor promised any person, firm or corporation any
discount, rebate, commission or refund for the pur-
pose of securing this advertisement for publication
in said newspaper.

Public Notice of Intent to Issue Air
Permit Florida Department of En-
vironmental Protection Division of Air
Resource Management, Office of
Permitting and Compliance Draft Air
Permit No. 1210468-001-AC / PSD-FL-
417 Klausner Holding USA Inc.,
Suwannee Mill Suwannee County,
Florida

Applicant: The applicant for this project
is Klausner Holding USA, Inc. The ap-
plicant's authorized representative and
mailing address is: Mr. Michael Funk,
CEO, Klausner Holding USA, Inc., 1297
Professional Drive, Suite 202, Myrtle
Beach, South Carolina 29577.

Facility Location: Klausner Holding
USA, Inc. proposes to construct the
Suwannee Mill, which will be a greenfield
project, to be located in Suwannee
County approximately 1.5 miles east of
the intersection of U.S. Highway 90 and
185th Road near Live Oak, Florida. The
location is approximately 1 mile northwest
of Exit 275, Interstate 10.

Project: The Suwannee Mill will have a
maximum annual production of 700 mil-
lion board feet per year of lumber. Key
operations include log handling, deb-
arking, sawing, heat production, lumber
drying, planing, and shipping. The mill will
have four natural gas-fueled boilers and
two woody biomass-fueled boilers that will
provide hot water to the drying kilns.

The project is subject to preconstruction
review for the Prevention of Significant
Deterioration (PSD) of Air Quality in ac-
cordance with Rule 62-212.400, Florida
Administrative Code (F.A.C.). Best
Available Control Technology (BACT)
determinations were required for the fol-
lowing pollutants: volatile organic
compounds (VOC), nitrogen oxides
(NOX), carbon monoxide (CO), par-
ticulate matter (PM), PM with an aero-
dynamic diameter less than or equal to 10
micrometers (PM10), and PM with an
aerodynamic diameter less than or equal
to 2.5 micrometers (PM2.5). Based on the
air permit application, the project will
result in the following annual emissions:
1,339 tons/year of VOC, 176 tons/year of
NOX, 452 tons/year of CO; 71 tons/year
of PM; 51 tons/year of PM10; and 43
tons/year of PM2.5 and 134 tons/year of
hazardous air pollutants (HAP). In ad-
dition to BACT emission standards and
controls, the kilns and boilers will meet
the applicable New Source Performance
Standards (NSPS) and National Emission
Standard for Hazardous Air Pollutants
(NESHAP) contained in 40 Code of
Federal Regulation, Parts 60 and 63.

The nearest PSD Class I area is the
Okefenokee National Wildlife Refuge
(ONWR), which is located 67 kilometers
from the proposed Suwannee Mill. PSD
Class I multi-source air quality analyses
for the ONWR were not required be-
cause project impacts are less than the
respective significant impact levels (SIL)
for nitrogen dioxide (NO2), PM10 and
PM2.5. PSD Class II multi-source air
quality analyses were required in the vi-
cinity of the project for NO2 (annual av-
erage), PM10 (24-hour and annual av-
erages), and PM2.5 (24-hour and annual
averages). The projected Class II in-
crement consumption of all projects in the
area since 1977, including the proposed
project, for these pollutants and aver-
aging times is summarized below:

Pollutant: NO2
Averaging Time: Annual
Allowable Increment (ug/m3): 25
Increment Consumed (ug/m3): 4.2
Percent of Allowable Increment
Consumed: 17%

Pollutant: PM10
Averaging Time: 24-hour
Allowable Increment (ug/m3): 30
Increment Consumed (ug/m3): 8.5
Percent of Allowable Increment
Consumed: 28%

Pollutant: PM10
Averaging Time: Annual
Allowable Increment (ug/m3): 17
Increment Consumed (ug/m3): 2.3
Percent of Allowable Increment
Consumed: 14%

Pollutant: PM2.5
Averaging Time: 24-hour
Allowable Increment (ug/m3): 9
Increment Consumed (ug/m3): 6.3
Percent of Allowable Increment
Consumed: 70%

Pollutant: PM2.5
Averaging Time: Annual
Allowable Increment (ug/m3): 4
Increment Consumed (ug/m3): 1.4
Percent of Allowable Increment
Consumed: 35%

Based on the required analyses, the
Department has reasonable assurance
that the proposed project will not cause or
significantly contribute to a violation of
any ambient air quality standard or PSD
increment.

The details of the Department's BACT
determination and the air quality analysis
are provided in the Technical Evaluation
and Preliminary Determination document
that can be accessed by entering
1210468-001-AC in the permit number
field at the following web link:
http://www.dep.state.fl.us/air/emission/ap
ds/default.asp

Permitting Authority: Applications for air
construction permits are subject to re-
view in accordance with the provisions of
Chapter 403, Florida Statutes (F.S.) and
Chapters 62-4, 62-210 and 62-212,
F.A.C. The proposed project is not ex-
empt from air permitting requirements and
an air permit is required to perform the
proposed work. The Division of Air Re-
source Management's Office of Per-
mitting and Compliance is the Permitting
Authority responsible for making a permit
determination for this project. The Per-
mitting Authority's physical address is:
111 South Magnolia Drive, Suite #4,
Tallahassee, Florida. The Permitting
Authority's mailing address is: 2600 Blair
Stone Road, MS #5505, Tallahassee,
Florida 32399-2400. The Permitting Au-
thority's telephone number is 850/717-
9000.

Project File: A complete project file is
available for public inspection during the
normal business hours of 8:00 a.m. to
5:00 p.m., Monday through Friday (ex-
cept legal holidays), at address indicated
above for the Permitting Authority. The
complete project file includes the Draft
Permit, the Technical Evaluation and
Preliminary Determination, the ap-
plication, and the information submitted
by the applicant, exclusive of confidential
records under Section 403.111, F.S. In-
terested persons may contact the Per-
mitting Authority's project review en-
gineer for additional information at the
address and phone number listed above.
In addition, electronic copies of these
documents are available at web site given
above.

DIVISION OF AIR
RESOURCE MANAGEMENT

Notice of Intent to Issue Air Permit:

The Permitting Authority gives notice of its intent to issue an air permit to the applicant for the project described above. The applicant has provided reasonable assurance that operation of the proposed equipment will not adversely impact air quality and that the project will comply with all applicable provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a Final Permit in accordance with the conditions of the proposed Draft Permit unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.

Comments: The Permitting Authority will accept written comments concerning the proposed Draft Permit and requests for a public meeting for a period of 30 days from the date of publication of the Public Notice. Written comments must be received by the Permitting Authority by close of business (5:00 p.m.) on or before the end of this 30-day period. In addition, if a public meeting is requested within the 30-day comment period and conducted by the Permitting Authority, any oral and written comments received during the public meeting will also be considered by the Permitting Authority. If timely received comments result in a significant change to the Draft Permit, the Permitting Authority shall revise the Draft Permit and require, if applicable, another Public Notice. All comments filed will be made available for public inspection.

Petitions: A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S.,

must be filed within 14 days of publication of this Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how each petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Public Notice of Intent to Issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation: Mediation is not available in this proceeding.
