BUREAU OF AIR REGULATION

Reference: Permit No. 1230034-011-AC  
Compressor Station No. 15, Taylor County

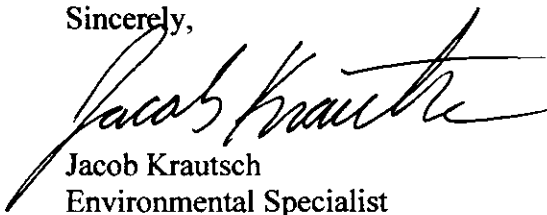

Dear Mr. Koerner:

**Subject: Extension of Construction Permit Expiration**

It will not be possible for Florida Gas Transmission Company (FGT) to complete the modifications to this facility, perform the required initial emissions compliance test and apply for a Title V operating permit modification at least 90 days before the expiration date. Construction is currently scheduled to begin in October 2002. FGT hereby requests a 180-day extension for the above referenced construction permit in order to complete the construction, perform the required 40 CFR Subpart GG emissions test and to submit an application for the Title V operating permit.

If you have any questions or need additional information, please call me at (850) 350-5042.

Sincerely,

Jacob Krautsch  
Environmental Specialist
