RE: **Sanford Plant, Unit No. 4**
Orimulsion Test Burn
Emissions Testing -
Vanadium Pentoxide

Dear Ms. Phillips:

Please be advised that Sanford Unit No. 4 resumed Orimulsion firing yesterday (May 9, 1991). In order to complete the emissions testing, we have scheduled the pending Vanadium Pentoxide test for Tuesday, May 14, 1991. The test will be conducted by Entropy Environmentalists, Inc. according to the protocol agreed upon between Walt Smith of Entropy and John Glunn of DER's Division of Air Resources Management, previously submitted to you with my letter of April 30, 1991.

Please call me at (407) 697-6926 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Elsa A. Bishop".
