Dear Mr. Alexander:

Re: Turner Steam Units 3 and 4 Long-term Reserve Shutdown
(Permit Number AO64-185095)

Florida Power Corporation is providing the Department of Environmental Protection notification that the units referenced above will be placed in long-term reserve shutdown on January 24, 1994. As you know, Unit 2 is already in long-term reserve shutdown.

To the best of my knowledge, these units are currently operating in compliance with all applicable air pollution rules and air operation permit conditions.

Please contact Mr. Scott Osbourn at (813) 866-5158 if you have any questions.

Sincerely,

W. Jeffrey Pardue, C.E.P.
