PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT
STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

Draft AC Permit No.: 7770073-007-AC
Amendment to Air Operation Permit No.: 7770073-005-AO

APAC-Florida, Inc.
Macasphalt Division
Relocatable Drum Mix Asphalt Plant

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit (letter) to APAC-Florida, Inc., for a relocatable drum mix asphalt plant, which will be operated within the Southeast District and elsewhere in Florida, depending on the newspaper publications of the Public Notice. The relocatable drum mix asphalt plant is a minor source of air pollution and not subject to the Prevention of Significant Deterioration (PSD) regulations, Rule 62-212.400, Florida Administrative Code (F.A.C.). A Best Available Control Technology determination was not required for this facility. The applicant's name and address are: Mr. Steven Christ, Environmental Health & Safety Director, APAC-Florida, Inc., Macasphalt Division, P.O. Box 1819, Winter Haven, Florida 33882-1819.

The facility has been reviewed for potential operation within the Southeast District and elsewhere in Florida. The proposed location of the relocatable facility is the Okeechobee Industrial Park in Okeechobee County.

The Department will issue the Final Permit (letter), in accordance with the terms and conditions in the Draft Permit (letter), unless a response received in accordance with the following procedures results in a different decision or significant change of the terms or conditions.

The Department will accept written comments concerning the proposed Draft Permit issuance action for a period of fourteen (14) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2600 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400, telephone: (850)488-1344, fax: (850)922-6379. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in this Draft Permit, the Department shall issue a Revised Draft Permit and require, if applicable, another Public Notice.

The Department will issue the Final Permit with the conditions of the Draft Permit unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, Florida Statutes (F.S.). Mediation is not available for this action. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the department's proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, telephone: (850)488-9730, fax: (850)467-4938. Petitions must be filed within fourteen (14) days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. A petition must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition must contain the following information: (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Permit File Numbers and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the Department's action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Copies of the proposed air construction permit (letter) are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays at:

Yi,

I have updated ARMS for the above referenced permitting projects. All that was done was place in the comments that the relocatable facility can move to Okeechobee County and operate. Please advise. Many thanks.

Dear Mr. Christ:

This air construction permit/air operation permit amendment (letter) is being issued for the purpose of allowing you to publish a Public Notice in a newspaper circulated in the potential counties in the Southeast District, and elsewhere in Florida, that you want to operate your relocatable facility.

Based on the affidavits provided by the newspaper organization(s), you are authorized to operate in the following additional county(ies):

1. Okeechobee County.
2. Expiration Date: April 30, 2003

Sincerely,

PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT

STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

Draft AC Permit No.: 7770073-007-AC
Amendment to Air Operation Permit No.: 7770073-005-AO

APAC-Florida, Inc.
Macasphalt Division
Relocatable Drum Mix Asphalt Plant

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit (letter) to APAC-Florida, Inc. for a relocatable drum mix asphalt plant, which will be operated within the Southeast District and elsewhere in Florida, depending on the newspaper publications of the Public Notice. The relocatable drum mix asphalt plant is a minor source of air pollution and not subject to the Prevention of Significant Deterioration (PSD) regulations, Rule 62-212.400, Florida Administrative Code (F.A.C.). A Best Available Control Technology determination was not required for this facility. The applicant's name and address are: Mr. Steven Christ, Environmental, Health & Safety Director, APAC-Florida, Inc., Macasphalt Division, P.O. Box 1819, Winter Haven, Florida 33882-1819.

The facility has been reviewed for potential operation within the Southeast District and elsewhere in Florida. The proposed location of the relocatable facility is the Okeechobee Industrial Park in Okeechobee County.

The Department will issue the Final Permit (letter), in accordance with the terms and conditions in the Draft Permit (letter), unless a response received in accordance with the following procedures results in a different decision or significant change of the terms or conditions.

The Department will accept written comments concerning the proposed Draft Permit issuance action for a period of fourteen (14) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2600 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400, telephone: (850)488-1344, fax: (850)922-6379. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in this Draft Permit, the Department shall issue a Revised Draft Permit and require, if applicable, another Public Notice.

The Department will issue the Final Permit with the conditions of the Draft Permit unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, Florida Statutes (F.S.). Mediation is not available for this action. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the department's proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, telephone: (850)488-9730, fax: (850)467-4938. Petitions must be filed within fourteen (14) days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. A petition must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition must contain the following information: (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Permit File Numbers and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the Department's action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Copies of the proposed air construction permit (letter) are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays at:
