Dear Mr. Wills:

Re: Amendment of Permit No. AC 48-166670

The Department is in receipt of your November 29, 1990, letter requesting the permit to construct a mobile 60 TPH soil remediation unit be extended. The extension is needed because CleanSoils, Inc. has not obtained a contract to clean up a petroleum contaminated site in Florida.

This request is acceptable and the expiration date of construction permit No. AC 48-166670 is extended from December 15, 1990, to September 15, 1991.

A copy of this letter must be filed with the referenced construction permit and shall become a part of that permit.

Sincerely,

  
Dale Twachtmann  
Secretary

RE: AC 48-166670

Dear Mr. Fancy:

I would like to request a nine (9) month extension of our construction permit. This would move the date of expiration from December 15, 1990 to September 15, 1991.

I make this request based on a conversation yesterday between Jim Ballis, of our office and Willard Hanks, of the Florida DER. Despite our best efforts to obtain a remediation project in Florida, using our technology, we find that we cannot compete with the asphalt companies. Because the asphalters do not use vapor incinerators (afterburners) their operating costs are much lower than ours. However, we feel that with the new chapter 17-775 rules and air quality guidelines, going into effect shortly, we will be more competitive in 1991.

If there are any further questions or if you feel that this extension is not possible please call me immediately. Our toll free number is 1-800-279-7645.

Thank you very much.

Sincerely,

Robert A. Wills, PhD  
Vice President of Engr.

SUBJ: Amendment to Construction Permit No. AC 48-166670  
CleanSoils, Inc.

Attached for your approval and signature is a letter extending the expiration date of a permit to construct a mobile soil remediation unit. The extension is needed because the permittee has not obtained a contract to clean up a petroleum contaminated site in Florida.

I recommend approval of this amendment.
