 15:00 End of Third run of Stack Test
 15:15 Rain caused Electrical
 problem with PTU. Attempting
 to get PTU started up.

Dear Mr. Hanks
 As you requested, the record
 of operating the afterburner
 at 1500°F or greater
 are attached. Please
 note that when soil was
 processed afterburner
 temp was greater than
 1500°F. Please call me
 if you have any questions.
