**Subject: Angelo's Recycled Materials
DEP File No. 7770262-001-AC
Extension of Construction Permit and Statewide Status**

Dear Mr. Kissel:

As discussed with you in our telephone conversation on Thursday, July 24th, 1997, it came to our attention that the above referenced FDEP construction permit is due to expire on July 31st, 1997.

A recent conversation with Mr. Bob Coble, General Manager of Angelo's Recycled Materials, revealed that he had hand delivered the operation permit applications to your office as well as Hillsborough and Pinellas County, sometime last week. In addition, Mr. Coble has informed us that they would like to change the status of their permit from "District Wide" to "State Wide", as they have decided to locate this crusher at other sites within the state.

Therefore, we respectfully request that the construction permit for the above mentioned facility be amended to reflect a six (6) month extension period to allow time for Mr. Willard Hanks of the Tallahassee Office to review and process the operation permit application as discussed.

Enclosed is a check for fifty dollars (\$ 50.00) as required by 62-4, F.A.C. to extend the expiration date of the above mentioned construction permit.

NOTICE OF PERMIT ISSUANCE

CERTIFIED MAIL

Mr. Dominico Iafrate
President
Angelo's Recycled Materials
Post Office Box 280226
Tampa, FL 33682-0226 /

DEP File No.: 7770262-005-AO
District: Southwest

Enclosed is Permit Number 7770262-005-AO for the operation of a portable concrete and reclaimed asphalt processing facility. The main location of the facility is 0.8 miles east of Nebraska Avenue on Bearss, Tampa, Hillsborough County. This permit allows this facility to be relocated within the Southwest District after notification requirements and Department approval. Procedures for administrative hearing, mediation, and variance/waiver are described below.

Administrative Hearing

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen (14) days of receipt of this permit. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition (or a request for mediation, as discussed below) within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 of the Florida Statutes, or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with rule 28-5.207 of the Florida Administrative Code.

A petition for an administrative hearing must contain the following:

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number, and the county in which the project is proposed;

"Protect, Conserve and Manage Florida's Environment and Natural Resources"

- (b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by the petitioner, if any;
- (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the permit.

Because the administrative action or proposed action addressed in this hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation

A person whose substantial interests are affected by the Department's permitting decision, may elect to pursue mediation by asking all parties to the proceeding to agree to such mediation and by filing with the Department a request for mediation and the written agreement of all such parties to mediate the dispute. The request and agreement must be filed in (received by) the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, by the same deadline as set forth above for the filing of a petition.

A request for mediation must contain the following information:

- (a) The name, address, and telephone number of the person requesting mediation and that person's representative, if any;
- (b) A statement of the preliminary agency action;
- (c) A statement of the relief sought; and
- (d) Either an explanation of how the requester's substantial interests will be affected by the action or proposed action addressed in this permit or a statement clearly identifying the petition for hearing that the requester has already filed, and incorporating it by reference.

The agreement to mediate must include the following:

- (a) The names, addresses, and telephone numbers of any persons who may attend the mediation;
- (b) The name, address, and telephone number of the mediator selected by the parties, or a provision for selecting a mediator within a specified time;

- (c) The agreed allocation of the costs and fees associated with the mediation;
- (d) The agreement of the parties on the confidentiality of discussions and documents introduced during mediation;
- (e) The date, time, and place of the first mediation session, or a deadline for holding the first session, if no mediator has yet been chosen;
- (f) The name of each party's representative who shall have authority to settle or recommend settlement; and
- (g) The signatures of all parties or their authorized representatives.

As provided in section 120.573 of the Florida Statutes, the timely agreement of all parties to mediate will toll the time limitations imposed by sections 120.569 and 120.57 for requesting and holding an administrative hearing. Unless otherwise agreed by the parties, the mediation must be concluded within sixty days of the execution of the agreement. If mediation results in settlement of the administrative dispute, the Department must enter a final order incorporating the agreement of the parties. Persons whose substantial interests will be affected by such a modified final decision of the Department have a right to petition for a hearing only in accordance with the requirements for such petitions set forth above. If mediation terminates without settlement of the dispute, the Department shall notify all parties in writing that the administrative hearing processes under sections 120.569 and 120.57 remain available for disposition of the dispute, and the notice will specify the deadlines that then will apply for challenging the agency action and electing remedies under those two statutes.

Variance/Waiver

In addition to the above, a person subject to regulation has a right to apply for a variance from or waiver of the requirements of particular rules, on certain conditions, under section 120.542 of the Florida Statutes. The relief provided by this state statute applies only to state rules, not statutes, and not to any federal regulatory requirements. Applying for a variance or waiver does not substitute or extend the time for filing a petition for an administrative hearing or exercising any other right that a person may have in relation to this permit.

The application for a variance or waiver is made by filing a petition with the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

The petition for a variance or waiver must specify the following information:

- (a) The name, address, and telephone number of the petitioner;
- (b) The name, address, and telephone number of the attorney or qualified representative of the petitioner, if any;
- (c) Each rule or portion of a rule from which a variance or waiver is requested;
- (d) The citation to the statute underlying (implemented by) the rule identified in (c) above;
- (e) The type of action requested;

- (f) The specific facts that would justify a variance or waiver for the petitioner;
- (g) The reason why the variance or waiver would serve the purposes of the underlying statute (implemented by the rule); and
- (h) A statement whether the variance or waiver is permanent or temporary and, if temporary, a statement of the dates showing the duration of the variance or waiver requested.

The Department will grant a variance or waiver when the petition demonstrates both that the application of the rule would create a substantial hardship or violate principles of fairness, as each of those terms is defined in section 120.542(2) of the Florida Statutes, and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Persons subject to regulation pursuant to any federally delegated or approved air program should be aware that Florida is specifically not authorized to issue variances or waivers from any requirements of any such federally delegated or approved program. The requirements of the program remain fully enforceable by the Administrator of EPA and by the person under the Clean Air Act unless and until Administrator separately approves any variance or waiver in accordance with the procedures of the federal program.

This permit is final and effective on the date filed with the Clerk of the Department unless a timely petition for an administrative hearing is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition and conforms to Rule 62-103.070, F.A.C., or a party requests mediation as an alternative remedy before the deadline for filing a petition. Choosing mediation will not adversely affect the right to a hearing if mediation does not result in a settlement. Upon timely filing of a petition or a request for an extension of time to file the petition or a request for mediation, this permit will not be effective until further Order of the Department.

When the Order (Permit) is final, any party to the Order has the right to seek judicial review of the Order pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate procedure, with the Clerk of the Department in the Office of General Counsel, Douglas Building, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date the Final Order is filed with the Clerk of the Department.

Executed in Tampa, Florida.

Permit No.: 7770262-005-AC
Effective Date:
Expiration Date: 9/3/2002
Project: Portable Concrete
and Reclaimed Asphalt Processing
Facility

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and Florida Administrative Code (F.A.C.) Chapters 62-4, 62-103, 62-204, 62-210, 62-296, and 62-297. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the department and made a part hereof and specifically described as follows:

For the operation of a portable concrete and reclaimed asphalt processing facility. The facility is authorized to operate at the sites listed on page 2 of this permit. Operation at other sites within the Southwest District requires a permit amendment as detailed in Specific Condition No. 27 of this permit. This permit establishes the facility as a synthetic non-Title V source.

Reclaimed asphalt and concrete is processed by crushing and screening to produce a recycled base material. The processing system particulate matter emission sources include a Bohringer Model RC14 jaw crusher (maximum capacity is 200 tons/hour), a vibrating screener, a grizzly feeder, a portable discharge (screening) system, 5 belt conveyors, and truck loading/unloading. Non-process fugitive emission sources include paved/unpaved yards, roadways, and stockpiles. The facility is powered by a 545 kW Caterpillar Generator Set, Model No. 3412/SR4 with a maximum heat input of 6.21 MMBtu/hr. This corresponds to 45.0 gallons per hour of No. 2 fuel oil.

Process equipment particulate matter emissions are controlled by a Chem-Jet Dust Suppression System which sprays a mixture of water and surfactant (Compound M-R) at various points in the processing system.

This facility is subject to the provisions of Rule 62-296.711, F.A.C. - Particulate Matter Reasonable Available Control Technology (PM RACT) for Materials Handling, Sizing, Screening, Crushing and Grinding Operations. In addition, the facility is subject to 40 CFR 60 Subpart OOO, Standards of Performance for Nonmetallic Mineral Processing Plants.

- 3) 0.8 miles east of Nebraska Avenue on Bearss, Tampa,
Hillsborough County (main location)
UTIM: 17-357.6 E 3107.6 N
- 4) 1755 - 20th Avenue S.E. @ Lake Avenue, Largo, Pinellas County
UTIM: 17-325.8 E 3087.0 N

Emission Unit ID No. & Description:

- 001 - Portable Concrete and Reclaimed Asphalt Processing System
- 002 - Diesel Generator

NOTE: Please reference Permit No., Emission Unit ID No., and Emission Point No. in all correspondence, test report submittals, applications, etc.

Replaces Permit No.: 7770262-001-AC

Specific Conditions:

1. A part of this permit is the attached 15 General Conditions [Rule 62-4.160, F.A.C.].
2. Pursuant to Rule 62-204.800, F.A.C., the permittee is subject to the standards of performance of 40 CFR 60, Subpart 000 and the general provisions of 40 CFR 60, Subpart A.

OPERATION LIMITATIONS

3. The diesel generator is permitted to operate a maximum of 3,120 hours in any 12 consecutive month period [Rule 62-210.200(223), F.A.C. and construction permit No. 7770262-001-AC].
4. The maximum throughput of concrete and/or reclaimed asphalt shall not exceed 200 tons/hour (monthly average basis) and 624,000 tons per 12 consecutive month period [Rule 62-210.200(223), F.A.C. and construction permit No. 7770262-001-AC].
5. The generator is permitted to fire only new No. 2 fuel oil with a sulfur content not to exceed 0.50% by weight. The generator's maximum fuel usage shall not exceed 45.0 gallons/hour [Rule 62-4.070(3), F.A.C. and construction permit No. 7770262-001-AC].

PERMITTEE:
Angelo's Recycled Materials

Permit No.: 7770262-005-AO
Project: Portable Concrete
and Reclaimed Asphalt Processing
Facility

6. No person shall circumvent any air pollution control device, or allow the emission of air pollutants without the applicable control device operating properly. The processing of material by the portable concrete and reclaimed asphalt processing system shall not occur unless the Chem-Jet Dust Suppression System is in service and operating properly [Rule 62-210.650, F.A.C.].

7. Calibrate, maintain, and operate monitoring devices which continuously measure the pressure to the Chem-Jet Dust Suppression System spray jets [Rule 62-4.070(3), F.A.C.].

EMISSION LIMITATIONS

8. The processing system is subject to the visible emission limits of 40 CFR 60, Subpart 000 and/or PM RACT. When subject to both, the more stringent limit takes precedence. The process emission sources and their visible emission limits are listed below in Table 1.

Table 1: Process Emission Source Visible Emission Limits

Emission Source	VE Limit (% Opacity)	Subject to:		EU No.	EP No.
		000	PM RACT		
Jaw Crusher	5	Yes	Yes	001	1
48"x6 Vibrating Screener	5	Yes	Yes	001	2
57"x20' Grizzly Feeder	5	Yes	Yes	001	3
Portable Discharge System	5	Yes	Yes	001	4
36"x80' Discharge Belt	10*	Yes	No	001	5
24"x80' Radial Belt	10*	Yes	No	001	6
24'x60' Radial Belt No. 1	10*	Yes	No	001	7
24'x60' Radial Belt No. 2	10*	Yes	No	001	8
24'x60' Radial Belt No. 3	10*	Yes	No	001	9
Truck Loading/Unloading	5	No	Yes	001	10

EU No. = Emission Unit No., EP No. = Emission Point No.

* This limit applies to transfer points onto conveyor belts only.
[40 CFR 60.672 and Rule 62-296.711, F.A.C.]

Permitting Note: The permittee has agreed to comply with the above visible emissions limitations when operating at all authorized sites.

9. Visible emissions from the diesel generator shall not exceed 20 percent opacity [Rule 62-296.320(4)(b), F.A.C.].

10. No person shall cause, let, permit, suffer or allow the emissions of unconfined particulate matter from any emissions unit whatsoever, including, but not limited to, vehicular movement, transportation of materials, construction, alteration, demolition or wrecking, or industrially related activities such as loading, unloading, storing or handling, unless otherwise specified by this permit, without taking reasonable precautions to prevent such emissions [Rule 62-296.320(4)(c), F.A.C.]

PERMITTEE:
Angelo's Recycled Materials

Permit No.: 7770262-005-AO
Project: Portable Concrete
and Reclaimed Asphalt Processing
Facility

11. The following work practices (reasonable precautions) shall be followed:

- (a) The posted and enforced plant-wide speed limit is 5 mph;
- (b) The site yard, roadways, and stockpiles are kept wet by water gun, water truck, and/or sprinkling system as necessary to prevent the occurrence of emissions of unconfined particulate matter [Permit application, dated 10/17/95 and Rule 62-296.320(4)(c), F.A.C.].

12. Reasonable precautions may include, but shall not be limited to the following:

- (a) Paving and maintenance of roads, parking areas and yards.
 - (b) Application of water or chemicals to control emissions from such activities as demolition of buildings, grading roads, construction, and land clearing.
 - (c) Application of asphalt, water, oil, chemicals or other dust suppressants to unpaved roads, yards, open stock piles and similar emissions units.
 - (d) Removal of particulate matter from roads and other paved areas under the control of the permittee of the emissions unit to prevent reentrainment, and from buildings or work areas to prevent particulate matter from becoming airborne.
 - (e) Landscaping or planting of vegetation.
 - (f) Use of hoods, fans, filters, and similar equipment to contain, capture and/or vent particulate matter.
 - (g) Confining abrasive blasting where possible.
 - (h) Enclosure or covering of conveyor systems.
- [Rule 62-296.320(4)(c), F.A.C.].

13. In order to provide reasonable assurance that the precautions and practices taken at the plant are adequate, emissions of unconfined particulate matter from the non-process emission sources (see Specific Condition No. 10) shall not exceed 5 percent opacity. Exceedance of this limit shall not be considered a violation in and of itself, but an indication that additional control precautions and/or practices beyond those outlined in Specific Condition Nos. 11 and 12 may be necessary [Rule 62-4.070(3), F.A.C.].

14. No person shall cause, suffer, allow or permit the discharge of air pollutants which cause or contribute to an objectionable odor. An objectionable odor is any odor present in the outdoor atmosphere which by itself or in combination with other odors, is or may be harmful or injurious to human health or welfare, which unreasonably interferes with the comfortable use and enjoyment of life or property, or which creates a nuisance [Rule 62-296.320(2), F.A.C.].

PERMITTEE:
Angelo's Recycled Materials

Permit No.: 7770262-005-AO
Project: Portable Concrete
and Reclaimed Asphalt Processing
Facility

COMPLIANCE TESTING REQUIREMENTS

15. The permittee of an emissions unit that is subject to emission limiting standards shall conduct compliance tests that demonstrates compliance with the applicable emission limiting standards of Specific Condition No. 8 prior to obtaining an operating permit for such emissions unit. The emission sources identified in Table 1 as EP Nos. 1 - 10 and the diesel generator shall be tested for visible emissions annually within 60 days prior to April 11 [40 CFR 60.8(a) and Rule 62-297.340(1)(a), F.A.C.].

16. Visible emissions testing for the process emission sources identified in Table 1 as EP Nos. 1 - 9 (i.e., those sources subject to 40 CFR 60 Subpart 000) shall be conducted using 40 CFR 60, Appendix A, EPA Method 9 and the procedures of 40 CFR 60.11. The visible emissions compliance tests shall be conducted by a certified observer and be a minimum of 30 minutes in duration.

17. For the truck loading/unloading operation (EP No. 10) and the diesel generator, compliance with the visible emissions limitation of Specific Condition No. 9 shall be determined using EPA Method 9 as contained in Rule 62-297, F.A.C. The visible emissions test shall be conducted by a certified observer and be a minimum of: 1) 12 minutes in duration (or 3 batches) during truck loading, and 2) 30 minutes in duration for the diesel generator. The visible emissions test observation period shall include the period during which the highest opacity emissions can reasonably be expected to occur. The minimum requirements for stationary point source emission test procedures shall be in accordance with Rule 62-297, F.A.C. and 40 CFR 60 Appendix A.

18. The owner or operator shall notify the Air Programs of the Department's Southwest District and the county having jurisdiction over the location where the plant will be tested at least 30 days prior to the date on which each formal compliance test is to begin of the date, time, and place of each such test, and the test contact person who will be responsible for coordinating and having such test conducted for the owner [40 CFR 60.8(d) and Rule 62-4.070(3), F.A.C.].

19. Testing of emissions shall be conducted with the emissions unit operation at permitted capacity as defined below. If it is impracticable to test at permitted capacity, an emissions unit may be tested at less than the minimum permitted capacity; in this case, subsequent emissions unit operation is limited to 110 percent of the test load until a new test is conducted. Once the unit is so limited, operation at higher capacities is allowed for no more than 15 consecutive days for the purpose of additional compliance testing to regain the authority to operate at the permitted capacity. Permitted capacity is defined as 90 to 100 percent of the maximum operation rate allowed by the permit (200

PERMITTEE:
Angelo's Recycled Materials

Permit No.: 7770262-005-AO
Project: Portable Concrete
and Reclaimed Asphalt Processing
Facility

Specific Condition No. 19 continued:

tons throughput per hour for the processing facility, the maximum attainable loading rate for the truck loading/unloading operation when handling dirt, and 45.0 gallons per hour of No. 2 fuel oil for the diesel generator) [Rule 62-297.310(2)(b), F.A.C.].

20. The permittee of an air pollution emissions unit, for which compliance tests are required, shall file a report with the Air Programs of the Department's Southwest District and the county having jurisdiction during the tests on the results of each such test. The required test report shall be filed with the Department as soon as practical but no later than 45 days after each test is completed. The test report submittal shall meet all applicable requirements of Rule 62-297, F.A.C. Include in the test report the source operation rate during each test and the type of material processed during the testing. In addition, for the diesel generator include documentation (see Specific Condition No. 22) which verifies that the fuel oil sulfur content limit of Specific Condition No. 5 was met during the test. The permittee shall submit the Chem-Jet Dust Suppression System operating parameters (i.e., pressure to spray jets, etc.) during each test run as part of the compliance test report [Rule 62-297.570, F.A.C.].

21. When the Department, after investigation, has good reason (such as complaints, increased visible emissions or questionable maintenance of control equipment) to believe that any applicable emission standard contained in a Department rule or in a permit issued pursuant to those rules is being violated, it may require the owner or operator of the emissions unit to conduct compliance tests which identify the nature and quantity of pollutant emissions from the emissions unit and to provide a report on the results of said tests to the Department [Rule 62-297.340(2), F.A.C.].

REPORTING AND RECORDKEEPING REQUIREMENTS

22. In order to document continuing compliance with Specific Condition No. 5, records shall be maintained of the sulfur content, in % by weight, of No. 2 fuel oil delivered for use in the diesel generator. On the basis of the requirements of Department of Agriculture and Consumer Services Rule 5F-2001 (which requires that No. 2 oil sold in Florida have a maximum sulfur content not to exceed 0.50%), reasonable assurance that the sulfur content requirement is being met can also be provided through vendor supplied documentation that the fuel oil delivered for use in the diesel generator meets the specifications for No. 2 oil. The above records shall be maintained for a minimum of the most recent five year period and made available to the Department upon request.

PERMITTEE:
Angelo's Recycled Materials

Permit No.: 7770262-005-AO
Project: Portable Concrete
and Reclaimed Asphalt Processing
Facility

23. Operation and Maintenance Plan for Particulate Control: The attached Operation and Maintenance Plan shall be followed for the Chem-Jet Dust Suppression System. Additionally:

- (a) The observations, checks, operations, and maintenance of the Chem-Jet Dust Suppression System shall be conducted according to the attached Operations and Maintenance Plan time table. Also, for each period of operation, record the pressure to the Chem Jet Dust Suppression System spray bars.
- (b) A list of the type and quantity of the required spare parts for the pollution control device which are stored on the premises shall be kept.
- (c) Records of inspections and maintenance of the Chem-Jet Dust Suppression System shall be retained for a minimum of five years and shall be made available to the Department and the county environmental program having jurisdiction upon request.

[Rule 62-296.700, F.A.C. & permit application dated 10/17/95]

24. In order to document continuing compliance with Specific Condition Nos. 3, 4 and 19, the permittee shall maintain the following records:

- (a) Daily hours of diesel drive unit operation;
- (b) Quantity of product loaded out each day (tons per day);
- (c) Daily, log the following parameters regarding the site watering:
 - (1) Time of operation of the water truck and/or sprinkling system;
 - (2) Any maintenance of the water truck and/or sprinkling system;
 - (3) An explanation of why watering was not performed, if applicable.
- (d) Calculate on a monthly basis:
 - (1) Average hourly throughput for the most recent month;
 - (2) The total tons processed for the most recent consecutive 12 month period;
 - (3) Hours of operation for the most recent consecutive 12 month period for the generator.

These records shall be recorded in a permanent form suitable for inspection by the Department and the county environmental program having jurisdiction upon request, and shall be retained for at least a five year period [Rule 62-4.070(3), F.A.C.].

25. Each calendar year on or before March 1, the permittee shall submit to the Air Programs of the Department's Southwest District and each county (except Manatee) in which the facility operated during the calendar year, a completed DEP Form 62-210.900(5), "Annual Operating Report for Air Pollutant Emitting Facility," for the preceding calendar year [Rule 62-210.370(3)(a)2., F.A.C.].

PERMITTEE:
Angelo's Recycled Materials

Permit No.: 7770262-005-AO
Project: Portable Concrete
and Reclaimed Asphalt Processing
Facility

26. Relocation to a previously authorized site:

At least 7 days prior to relocating the facility to a site authorized by this permit (see page 2), the permittee shall notify the Air Programs of the Department's Southwest District and, if applicable, the county having jurisdiction over the relocation site. The notification shall be on DEP Form 62-210.900(3), F.A.C., Notification of Intent to Relocate an Air Pollutant Emitting Facility (attached). A permit amendment and amendment fee is not required.

27. Relocation to a proposed new location:

(a) At least 7 days prior to each proposed new relocation, other than the locations on Page 2, the permittee shall notify the Air Programs of the Department's Southwest District and, if applicable, the county having jurisdiction over the relocation site. The notification shall be on DEP Form 62-210.900(3), F.A.C., Notification of Intent to Relocate an Air Pollutant Emitting Facility (attached). Provide a scale map showing the proposed new location of the facility and points of air pollutant emissions in relation to residences, roads, and other features of the surrounding area. A permit amendment and amendment fee of \$250 is required.

(b) At least 21 days prior to initial operation at a new relocation site, the permittee shall publish at your own expense the attached NOTICE OF INTENT TO ISSUE PERMIT AMENDMENT FOR FACILITY RELOCATION (with the proposed new location filled in). The notice shall be published one time only in the legal ad section of a newspaper of general circulation in the area affected. "Publication in a newspaper of general circulation in the affected area" means publication in a newspaper meeting the requirements of Section 50.011 and 50.031, F.S., in the county where the activity is to take place. The permittee shall provide proof of publication to the Air Section of the Department's Southwest District within 7 days of publication. Failure to publish the notice and provide proof of publication within the allotted time may result in the denial of the permit amendment.

NOTE: On a case by case basis, a waiver from this public notice requirement may be requested for good cause. The request should be made with the Notification required in Specific Condition No. 27.(a) [Section 403.815, F.S. and Rule 62-103.150].

28. A request for the renewal of this operation permit must be submitted to the Department at least 60 days prior to the expiration date of this permit. To properly request a renewal of this operation permit, the permittee shall submit a short form, compliance test reports as required by this permit, and the records required in Specific Condition No. 24 for the latest 2 month period [Rules 62-4.220 and 62-4.090(1), F.A.C.].

Supplemental Requirements

1. Provide a scale map (e.g., the relevant portion of a USGS topographic map) showing the proposed new location of the facility and points of air pollutant emissions in relation to residences, roads, and other features of the surrounding area.
2. If relocating to a different DEP district, provide a copy of the most recent compliance test report.

**STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF AIR RESOURCES MANAGEMENT**

**INSTRUCTIONS FOR DEP FORM NO. 62-210.900(3)
NOTIFICATION OF INTENT TO RELOCATE
AIR POLLUTANT EMITTING FACILITY**

An air permit for a relocatable facility shall be amended upon each change of location of the facility. In the event of a planned relocation, the owner or operator must submit a Notification of Intent to Relocate Air Pollutant Emitting Facility (DEP form number 62-210.900(3)) to the Department at least 7 days prior to the change, if the facility would be relocated to a county in which public notice of the proposed operation of the facility had been given within the previous five years pursuant to Rule 62-210.350(1), F.A.C., or otherwise 30 days prior to the change. Note: DEP permits are not automatically transferable upon a change of ownership. If the planned relocation is associated with a change in ownership of the facility, the new owner or operator must submit an Application for Transfer of Permit (DEP form number 62-1.201(1)) to the Department within 30 days after the change of ownership or control.

Current Facility Information

1. **Facility ID** - If known, enter the ARMS facility identification number or AIRS facility identification number.
2. **Permit Number** - Enter the DEP air operation permit number issued by the Department or authorized local air pollution control program for the facility to be relocated.
3. **Facility Owner or Operator** - Enter the name of the corporation, business, governmental entity, or individual that has ownership or control of the facility.
4. **Facility Name** - Enter the name, if any, of the facility addressed in this report (e.g., Okeechobee Plant, Plant "A," etc.).
5. **Facility Street Address or Location Description** - Enter the street address or approximate location at which the facility is currently operating or was most recently operated.
6. **City** - Enter the name of the city in which the facility is, or was most recently, located or the nearest city.
7. **County** - Enter the name of the county in which the facility is, or was most recently, located.
8. **Shutdown Date at This Location** - Enter the month, day and year that the facility ceased to operate or is expected to cease operating at its most recent or current location.

Proposed New Facility Location

1. **Facility Street Address or Location Description** - Enter the street address or approximate location where the facility is proposed to be relocated. This may be an intersection description or any locator which will allow a person unfamiliar with the facility to determine its proposed location (e.g., 3 mi. W. of U.S. 41 off S.R. 786; etc.). Do not enter a post office box number.
2. **City** - Enter the name of the city in which the facility is proposed to be relocated or the name of the nearest city preceded by "N. of," "W. of," etc.
3. **County** - Enter the name of the county in which the facility is proposed to be relocated.
4. **Zip Code** - Enter the five-digit postal zip code of the facility's proposed physical location (not necessarily the mailing address zip code).
5. **Facility Coordinates** - Enter either the Universal Transverse Mercator (UTM) coordinates (at least to the nearest tenth of a kilometer) or the latitude and longitude (dd/mm/ss) of the new site, whichever is most accurately known.
6. **Startup Date at New Location** - Enter the month, day and year that the facility is projected to start operating at its new site.
7. **Facility Comment** - Enter any comments about the facility addressed in this report.

Owner/Authorized Representative or Responsible Official

Enter all the information requested for the individual owner or authorized representative of the corporate or governmental owner of the facility (non-Title V source) addressed in this form. In the case of a Title V source, this person must be the "Responsible Official" as defined in Rule 62-213.200, F.A.C. This must be the person who is authorized to sign any permit-required reports and otherwise act in an official capacity on all matters related to emissions units at the facility.

Facility Contact

Enter all the information requested for the person to be contacted regarding day-to-day operations of air pollutant emissions units at the facility.

Certification

This statement should be signed by the individual named in the section, "Owner/Authorized Representative or Responsible Official."

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO ISSUE PERMIT
FOR FACILITY RELOCATION

The Florida Department of Environmental Protection, Southwest District, gives notice of its intent to issue an amendment to air pollution permit No. 7770262-005-AO, to Angelo's Recycled Materials for the relocation of a portable concrete and reclaimed asphalt processing facility, to [street address or approximate location of the facility as shown on a road map, city, county], Florida. MAILING ADDRESS - Post Office Box 280226, Tampa, FL 33682-0226, to the attention of Mr. Dominico Iafrate, President.

The Department will issue the permit amendment unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 of the Florida Statutes, or a party requests mediation as an alternative remedy under section 120.573 before the deadline for filing a petition. Choosing mediation will not adversely affect the right to a hearing if mediation does not result in a settlement. The procedures for petitioning for a hearing are set forth below, followed by the procedures for requesting mediation.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000 within fourteen days of receipt of this Notice of Intent to Issue Permit. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition (or a request for mediation, as discussed below) within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 of the Florida Statutes, or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with rule 28-5.207 of the Florida Administrative Code.

A petition for an administrative hearing must contain the following:

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number, and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of the Department's action or proposed action;

- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by the petitioner, if any;
- (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this permit. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A person whose substantial interests are affected by the Department's proposed permitting decision, may elect to pursue mediation by asking all parties to the proceeding to agree to such mediation and by filing with the Department a request for mediation and the written agreement of all such parties to mediate the dispute. The request and agreement must be filed in (received by) the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, by the same deadline as set forth above for the filing of a petition.

A request for mediation must contain the following information:

- (a) The name, address, and telephone number of the person requesting mediation and that person's representative, if any;
- (b) A statement of the preliminary agency action;
- (c) A statement of the relief sought; and
- (d) Either an explanation of how the requester's substantial interests will be affected by the action or proposed action addressed in this notice of intent or a statement clearly identifying the petition for hearing that the requester has already filed, and incorporating it by reference.

The agreement to mediate must include the following:

- (a) The names, addresses, and telephone numbers of any persons who may attend the mediation;
- (b) The name, address, and telephone number of the mediator selected by the parties, or a provision for selecting a mediator within a specified time;
- (c) The agreed allocation of the costs and fees associated with the mediation;

- (d) The agreement of the parties on the confidentiality of discussions and documents introduced during mediation;
- (e) The date, time, and place of the first mediation session, or a deadline for holding the first session, if no mediator has yet been chosen;
- (f) The name of each party's representative who shall have authority to settle or recommend settlement; and

- (g) The signatures of all parties or their authorized representatives.

As provided in section 120.573 of the Florida Statutes, the timely agreement of all parties to mediate will toll the time limitations imposed by sections 120.569 and 120.57 for requesting and holding an administrative hearing. Unless otherwise agreed by the parties, the mediation must be concluded within sixty days of the execution of the agreement. If mediation results in settlement of the administrative dispute, the Department must enter a final order incorporating the agreement of the parties. Persons whose substantial interests will be affected by such a modified final decision of the Department have a right to petition for a hearing only in accordance with the requirements for such petitions set forth above. If mediation terminates without settlement of the dispute, the Department shall notify all parties in writing that the administrative hearing processes under sections 120.569 and 120.57 remain available for disposition of the dispute, and the notice will specify the deadlines that then will apply for challenging the agency action and electing remedies under those two statutes.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department's Air Permitting Section located at 8407 Laurel Fair Circle, Tampa, Florida.
