150 TPH Portable Concrete Crusher Plant  
Permit No. AC29-223724

Department of Environmental Regulation  
Division of Air Resources Management  
Bureau of Air Regulation

April 28, 1993

## Final Determination

The Technical Evaluation and Preliminary Determination for the permit to construct a 150 TPH portable concrete crusher plant for Complete Resources Company of 702 Old Darby Street, Seffner, Hillsborough County, Florida, was distributed on April 2, 1993. The Notice of Intent to Issue was published in the Tampa Tribune on April 5, 1993. The notice stated that the unit will operate at locations in Polk and Hillsborough Counties. The public notice requirements will have to be satisfied and the permit amended prior to allowing Complete Resources Company to operate this plant in other counties. Copies of the evaluation were available for public inspection at the Department's offices in Tallahassee and Tampa and at the Environmental Protection Commission office in Tampa.

The Environmental Protection Commission of Hillsborough County commented that the permitting requirements of counties having approved environmental programs would have to be met prior to this plant operating in the counties. This can include a requirement to obtain a permit from the county. The Department agrees with this comment and has added this requirement to Specific Condition No. 7f.

No other comments were submitted on the Department's Intent to Issue the permit. The final action of the Department will be to issue construction permit AC29-223724 as proposed in the Technical Evaluation and Preliminary Determination except for the change noted above.

and a water spray system to  
control fugitive emissions.  
Particulate matter emissions  
are estimated to be 3 lbs/hr.  
The plant will also emit 6.9  
lbs/hr nitrogen oxide, 2 lbs/hr  
carbon monoxide, and 0.9 lbs/  
hr sulfur dioxide which are the  
products of combustion  
formed from burning 230  
lbs/hr of diesel fuel. A deter-  
mination of Best Available  
Control Technology was not  
required. The plant will oper-  
ate at 4201 Maine Avenue,
