In the Matter of an
Application for Permit

Mr. David Ammon, Project Manager
John Carlo, Inc.
Post Office Box 18401
Jacksonville, Florida 32229

DEP File No. 7770402-002-AO
Relocatable Facility

Enclosed is the FINAL Permit Number 7770402-002-AO to operate a 200 cubic yard per hour relocatable concrete batch plant issued pursuant to Chapter 62-296, Florida Administrative Code. This permit is issued pursuant to Chapter 403, Florida Statutes.

Any party to this order (permit) has the right to seek judicial review of the permit pursuant to Section 120.68, F.S., by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Legal Office; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 (thirty) days from the date this Notice is filed with the Clerk of the Department.

Executed in Tallahassee, Florida.

C. H. Fancy, P.E., Chief
Bureau of Air Regulation

CERTIFICATE OF SERVICE

The undersigned duly designated deputy agency clerk hereby certifies that this NOTICE OF FINAL PERMIT (including the FINAL permit) was sent by certified mail (*) and copies were mailed by U.S. Mail before the close of business on 8-7-97 to the person(s) listed:

Mr. David Ammon, John Carlo, Inc. *
Mr. George Sinn, Jr., Central Florida Testing Lab., Inc.
District Air Program Administrators
County Air Program Administrators

Clerk Stamp

FILING AND ACKNOWLEDGMENT FILED, on this date, pursuant to §120.52(7), Florida Statutes, with the designated Department Clerk, receipt of which is hereby acknowledged.

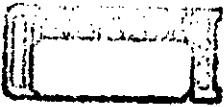

(Clerk) 8-7-97 (Date)

FINAL DETERMINATION

John Carlo, Inc.

Permit No. 7770402-002-AO

Relocatable Concrete Batch Plant

An Intent to Issue an amended air operation permit for John Carlo, Inc. relocatable concrete batch plant for operation throughout the state was distributed on May 2, 1997. The Notice of Intent was published in the Tampa Tribune on June 12, 1997, the Jacksonville Times-Union on June 13, 1997, and the Orlando Sentinel on June 14, 1997. These papers have circulation in 38 counties in Florida. These counties are Alachua, Baker, Bradford, Brevard, Citrus, Clay, Columbia, Dixie, DeSoto, Duval, Flagler, Hamilton, Hardy, Hernando, Highlands, Hillsborough, Lake, Lafayette, Leon, Levy, Manatee, Madison, Marion, Nassau, Orange, Osceola, Pasco, Pinellas, Putnam, Polk, St. Johns, Sarasota, Seminole, Sumpter, Suwannee, Taylor, Union, and Volusia. Comments were not submitted in response to the public notice.

Because these papers do not have circulation in all the counties in Florida, this operation permit will be valid only in those counties mentioned above. The permittee will have to amend the permit, which will include a public notice requirement, prior to operating in any other county in Florida.

The final action of the Department will be to issue the permit as proposed except for the change noted above.

Department of Environmental Protection

PERMITTEE:

John Carlo, Inc.
P. O. Box 18401
Jacksonville, Florida 32229

FID No.	7770402
Permit No.	7770402-002-AO
Expires:	May 31, 2002

Authorized Representative:
Mr. David Ammon
Project Manager

LOCATED AT:

Project: Relocatable Concrete Batch Plant, Unit No. 1
Standard Industrial Classification Code (SIC): 3273

This permit is valid for the following counties: Alachua, Baker, Bradford, Brevard, Citrus, Clay, Columbia, Dixie, DeSoto, Duval, Flagler, Hamilton, Hardy, Hernando, Highlands, Hillsborough, Lake, Lafayette, Leon, Levy, Manatee, Madison, Marion, Nassau, Orange, Osceola, Pasco, Pinellas, Putnam, Polk, St. Johns, Sarasota, Seminole, Sumpter, Suwannee, Taylor, Union, and Volusia. The plant may operate in other counties in Florida after having the permit amended to authorize operation in those counties.

The plant may be operated in any county in Florida provided: the public notice requirements per Rule 62-103.150, Florida Administrative Code (F.A.C.) have been met within the previous 5 years; the permit for the facility has been issued/amended to authorize operation in the county; the new site is listed in a Notification of Intent to Relocate Air Pollutant Emitting Facility; and all county requirements have been satisfied.

STATEMENT OF BASIS:

This operation permit is issued under the provisions of Chapter 403 of the Florida Statutes (F.S.), and Chapters 62-4, 62-204, 62-210, 62-296, and 62-297, F.A.C. The above named permittee is authorized to operate the facility in accordance with the conditions of this permit and as described in the application, approved drawings, plans, and other documents on file with the Department of Environmental Protection (Department).

Attached appendices made a part of this permit:

Division of Air Resources
Management

AIR PERMIT 7770402-002-A0

SECTION I. FACILITY INFORMATION

SUBSECTION A. FACILITY DESCRIPTION

This facility consists of a 200 cubic yard per hour relocatable concrete batch plant (SIC 3273). The operation will store aggregate and sand in the yard. The plant contains feed bins for the sand and aggregate, an enclosed silo, cement storage vessels, conveyors, weight hopper, and a mixer. Particulate matter emissions from the processing equipment are controlled with a baghouse. Reasonable precautions are used to control unconfined emissions. A payloader transfers the sand and aggregate to the plant. Enclosed trucks haul the wet concrete mix from the plants. Pneumatic unloading trucks bring cement to the plant. Other trucks bring sand, aggregate, and water to the plant.

SUBSECTION B. REGULATORY CLASSIFICATION

This industry is not listed in Table 212.400-1, Major Facility Categories and is not a Title V source. The plant is a minor source of air pollution.

SUBSECTION C. PERMIT SCHEDULE:

- 06/12/97 Notice of Intent published in the Tampa Tribune
- 06/13/97 Notice of Intent published in the Jacksonville Times-Union
- 06/14/97 Notice of Intent published in the Orlando Sentinel
- 05/02/97 Issued Notice of Intent to issue Permit
- 04/10/97 Application deemed complete

SUBSECTION D. RELEVANT DOCUMENTS:

The documents listed below are the basis of the permit. They are specifically related to this permitting action and are on file with the Department.

1. Application received 03/19/97
2. Application fee received 04/10/97
3. Technical Evaluation and Preliminary Determination dated 5/1/97

AIR PERMIT 7770402-002-AO

SECTION II. EMISSION UNITS(S) SPECIFIC CONDITIONS

SUBSECTION A. ADMINISTRATIVE

- A.1 Regulating Agencies: All applications for permits to construct or modify an emission unit(s) should be submitted to the Bureau of Air Regulation (BAR), Florida Department of Environmental Protection (FDEP) with a mailing address of 2600 Blairstone Road, Tallahassee, Florida 32399-2400 and phone number (904)488-1344. All documents related to applications for permits to operate, annual operation reports, and minor modifications shall be submitted to the Bureau of Air Regulation (Permitting Authority). Notifications of relocation, schedules for compliance testing, and test reports shall be submitted to the Department's district or county's air pollution control program having jurisdiction over the site at which the facility will operate. This permit does not eliminate the necessity for obtaining any other federal, state or local permits that may be required, or allow the permittee to violate any more stringent standards established by federal or local law. The permit does not allow the permittee to cause pollution in contravention of Florida Statutes and Department rules. Local program requirements may apply to the operation of this unit.
- A.2 Relocation Notification: At least 7-days prior to relocating the plant to an approved county whose public notice was published within the last 5 years, the permittee shall notify the air program administrator for the Department's District and, if applicable, county environmental program. The notification will be on DEP Form 62-210.900(3), F.A.C. All potential operation sites may be shown on a USGS topographic map. Unless notified otherwise by an environmental agency, the plant may be relocated and operated in any county on the list. County license, a discretionary public notice, or additional restrictions for the operation at a specific site may be imposed by the environmental agency. If the public notice for a county is more than 5 years old, the Form shall be submitted at least 30 days in advance of the move and a new public notice is required prior to operating in the county. If the facility was never authorized to operate in the county, the permittee shall obtain an amendment to this permit prior to relocating to the county.
- A.3 General Conditions: The owner and operator is subject to and shall operate under the attached General Permit Conditions G.1 through G.15 listed in *Appendix GC* of this permit. General Permit Conditions are binding and enforceable pursuant to Chapter 403 of the Florida Statutes. [Rule 62-4.160, F.A.C.]
- A.4 Terminology: The terms used in this permit have specific meanings as defined in the corresponding chapters of the Florida Administrative Code.
- A.5 Forms and Application Procedures: The permittee shall use the applicable forms listed in Rule 62-210.900, F.A.C. and follow the application procedures in Chapter 62-4, F.A.C. [Rule 62-210.900, F.A.C.]
- A.6 Expiration: This air operation permit shall expire on May 31, 2002. [Rule 62-210.300(1), F.A.C.]
- A.7 Application for Permit to Operate: At least sixty days prior to the expiration date of this permit, the permittee shall submit to the Department's Bureau of Air Regulation four air permit applications for permits to operate, DEP Form No. 62-210.900(2), along with the processing fee established in Rule 62-4.050(4), F.A.C.
- A.8 Operation and Maintenance Plan: An Operation and Maintenance (O&M) Plan for the air pollution control device shall be kept at the facility. The O&M logs shall be maintained for a minimum of three years and made available upon request. At a minimum, the O&M plan shall include:

AIR PERMIT 7770402-002-AO

SECTION II. EMISSION UNITS(S) SPECIFIC CONDITIONS

- The operating parameters of the control device
- A timetable for the routine maintenance of the pollution control device
- A timetable of routine weekly, bi-monthly, or monthly observations of the pollution control device
- A list of the type and quantity of the required spare parts which are stored on the premises for the control device
- A record log which shows, at a minimum, when maintenance was performed, what maintenance was performed, and by whom

SUBSECTION B. SPECIFIC CONDITIONS:

This permit supersedes previous air operation permit No. 0570402-001-AO.

The following Specific Conditions apply to the following emission units:

EMISSION UNIT NO.	SYSTEM	EMISSION UNIT DESCRIPTION
ARMS No. 01	Concrete Batch Plant	Feed hopper, silos, conveyors, scale, mixer, and associated equipment controlled by a baghouse

EMISSION LIMITATIONS

- B.1 Visible emissions from each dust collector exhaust point, silos, hoppers and other storage or conveying equipment shall not exceed 5 percent opacity. [Rule 62-296.414(1), F.A.C.]
- B.2 The permittee shall not allow any person to circumvent any pollution control device nor allow the emissions of air pollutants without the applicable air pollution control device operating properly. [Rule 62-210.650, F.A.C.]
- B.3 The owner or operator shall control unconfined emissions using reasonable precautions per the conditions of Rule 62-296.320(4)(c), F.A.C. Reasonable precautions shall include the following:
- Paving and maintenance of roads, parking areas, and yards;
 - Application of water when necessary to control emissions; and
 - Removal of particulate matter from roads and other paved areas under control of the owner or operator to prevent reentrainment, and from building or work areas to prevent particulate matter from becoming airborne.
 - Enclosure or covering of conveyor systems;
 - Curtailing of operations if winds are entraining unconfined particulate matter; and

AIR PERMIT 7770402-002-AO

SECTION II. EMISSION UNITS(S) SPECIFIC CONDITIONS

- Use of spray bar or chute to mitigate emissions at the drop point to the truck.

OPERATIONAL LIMITATIONS

- B.4 Hours of operation are not limited. [Rule 62-4.070(3), F.A.C.]
- B.5 This plant shall not operate for more than 2 years at any one site in Florida.
- B.6 Maximum production shall not exceed 200 cubic yards per hour.
- B.7 Water shall be added to the concrete mix prior to it being loaded into trucks.

TEST METHODS AND PROCEDURES

- B.8 Each dust collector exhaust point shall be tested for visible emissions on an annual basis, within 60 days of May 31. [Rule 62-297.340(1)(d), F.A.C.]
- B.9 All emission tests performed shall comply with the following requirements in this section of the permit. [Rule 62-296.414(3), F.A.C.]
- B.10 The test method for visible emissions shall be EPA Method 9. [Rule 62-297.401, F.A.C.]
- B.11 Visible emissions tests of dust collector exhaust points shall be conducted while loading the silo at a rate that is representative of the normal silo loading rate. The minimum loading rate shall be 25 tons per hour, and loading shall be completed within one hour. If the dust collector also collects dust from the batching operation, the batching operation shall be in operation during the visible emissions test. The batching rate during the emissions test shall be representative of the normal batching rate. Each test report shall state the actual silo loading rate during emissions testing and, if the dust collector controls the batching operation, state whether or not batching occurred during the emissions testing.
- B.12 Per the conditions of Rule 62-297.310(7)(a), F.A.C., each dust collector exhaust point shall be tested for compliance with the visible emission limiting standard of Rule 62-296.414(1), F.A.C. For all facilities, annual compliance tests shall be conducted once per year. [Rule 62-296.414(4), F.A.C.]
- B.13 Each dust collector exhaust point shall be tested for a minimum of 30 minutes or, if the operation is normally completed within less than 30 minutes and does not recur within that time, the test shall last for the length of the loading operation. [Rule 62-297.310(4)(a), F.A.C.]

AIR PERMIT 7770402-002-AO

SECTION II. EMISSION UNITS(S) SPECIFIC CONDITIONS

RECORDKEEPING AND REPORTING REQUIREMENTS

- B.14 The air program administrators for the Department's districts or county environmental programs having jurisdiction over the site where the plant will be tested shall be notified in writing at least 15 days in advance of any compliance test scheduled to be conducted on this operation. The notification must include the following information: the date, time, and location of each test; the name and telephone number of the facility's contact person who will be responsible for coordinating the test; and the name, company, and telephone number of the person conducting the test. [Rule 62-297.340(1)(I), F.A.C.]
- B.15 Reports of the required compliance tests shall be filed with the District Air Pollution Control Program or County Air Pollution Control Program where the test was conducted as soon as practical but no later than 45 days after the last test is completed. [Rule 62-297.570(2), F.A.C.]
- B.16 All measurements, records, and other data required to be maintained by this facility shall be retained for at least three (3) years following the date on which such measurements, records, or data are recorded. These data shall be made available to the Department upon request. The Permitting Authority shall be notified in writing at least 15 days prior to the testing (auditing) of any instrument required to be operated by these specific conditions of certification in order to allow witnessing by authorized personnel. [Rule 62-4.070(3), F.A.C.]

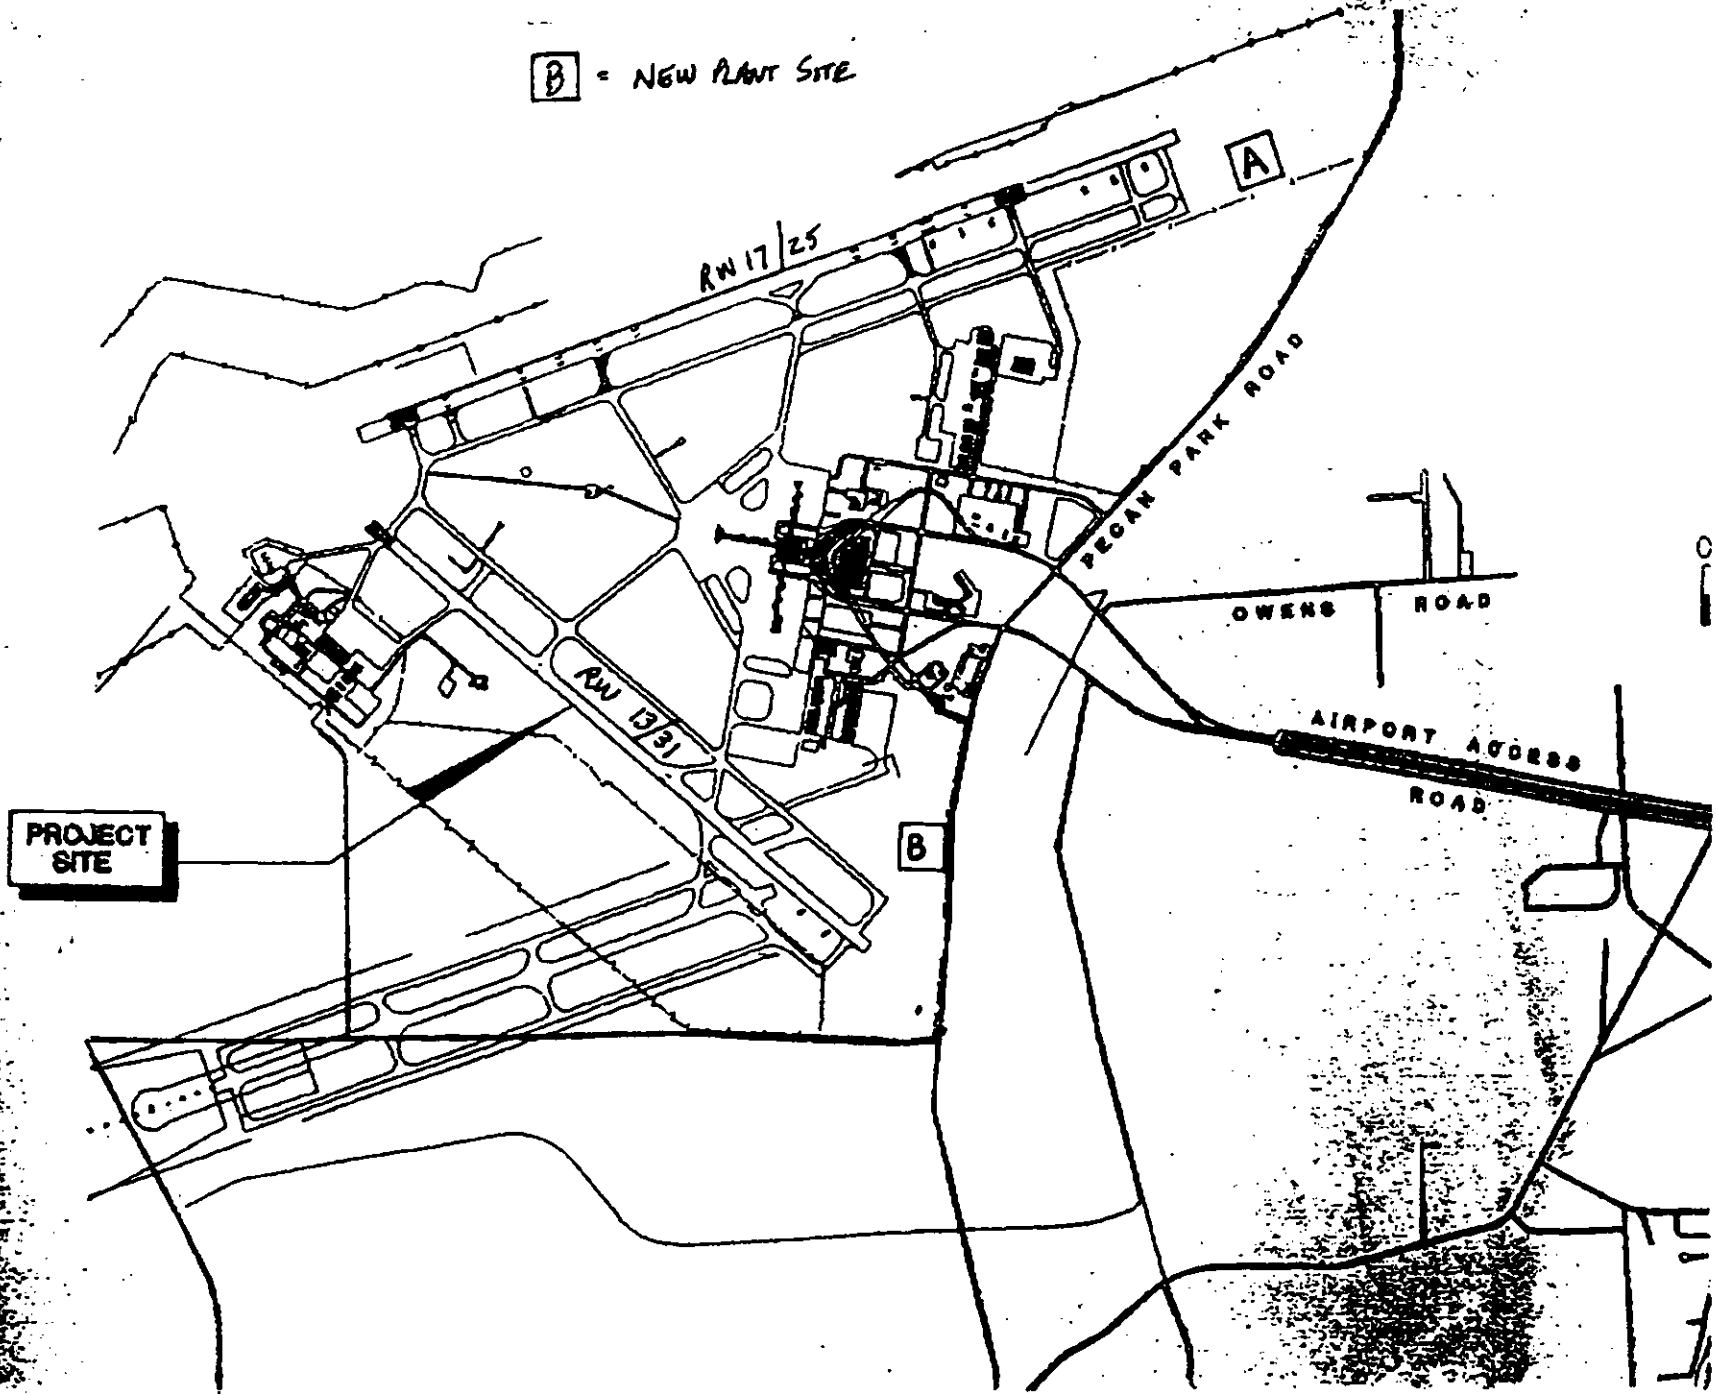

APPENDIX GC
GENERAL PERMIT CONDITIONS [F.A.C. 62-4.160]

- G.1 The terms, conditions, requirements, limitations, and restrictions set forth in this permit are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.161, 403.727, or 403.859 through 403.861, Florida Statutes. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
- G.2 This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings or exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
- G.3 As provided in Subsections 403.087(6) and 403.722(5), Florida Statutes, the issuance of this permit does not convey and vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This permit is not a waiver or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.
- G.4 This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
- G.5 This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
- G.6 The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
- G.7 The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at a reasonable time, access to the premises, where the permitted activity is located or conducted to:
- (a) Have access to and copy and records that must be kept under the conditions of the permit;
 - (b) Inspect the facility, equipment, practices, or operations regulated or required under this permit, and,
 - (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.
- Reasonable time may depend on the nature of the concern being investigated.
- G.8 If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:
- (a) A description of and cause of non-compliance; and
 - (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

APPENDIX GC
GENERAL PERMIT CONDITIONS [F.A.C. 62-4.160]

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

- G.9 In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.73 and 403.111, Florida Statutes. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.
- G.10 The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.
- G.11 This permit is transferable only upon Department approval in accordance with Florida Administrative Code Rules 62-4.120 and 62-730.300, F.A.C., as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.
- G.12 This permit or a copy thereof shall be kept at the work site of the permitted activity.
- G.13 This permit also constitutes:
- (a) Determination of Best Available Control Technology ()
 - (b) Determination of Prevention of Significant Deterioration (); and
 - (c) Compliance with New Source Performance Standards ().
- G.14 The permittee shall comply with the following:
- (a) Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
 - (b) The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application or this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
 - (c) Records of monitoring information shall include:
 - 1. The date, exact place, and time of sampling or measurements;
 - 2. The person responsible for performing the sampling or measurements;
 - 3. The dates analyses were performed;
 - 4. The person responsible for performing the analyses;
 - 5. The analytical techniques or methods used; and
 - 6. The results of such analyses.
- G.15 When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.
