Notice of Intent**

Dear Mr. Hanks:

Attached, please find the affidavits for the Public Notices published ("full run") in the St. Petersburg Times, and the Sarasota Herald - Tribune on May 9th, 1998 for Southern Crushing Services, Inc., Portable Crushing Operation.

Should you receive any public comment regarding the issuance of the statewide permit for this operation, please inform us as to the nature of the comment(s) so we can resolve any problems that might arise. In addition, since the legal advertisement was circulated in all the various counties covered by these two publications, we are requesting that this portable operation be allowed to operate in all counties in which this legal advertisement was published.

Thank you for your cooperation in this matter. Should you have any questions or require any additional information to issue the permit for this facility, do not hesitate to contact our office.

Sincerely,  
CENTRAL FLORIDA TESTING LABORATORIES, INC.

PUBLIC NOTICE OF INTENT TO ISSUE AIR OPERATION PERMIT  
STATE OF FLORIDA  
FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION  
Proposed Permit No. 7770420-002-AO  
Southern Crushing Services, Inc.  
Relocatable Concrete and Asphalt Material Crushing Plant  
Statewide Operation  
The Department of Environmental Protection (Department) gives notice of its intent to amend the Air Operation Permit for Southern Crushing Services Inc., Post Office Box 613, Valrico, Florida 33595 0613, for operation of a relocatable concrete and asphalt material crushing plant. An air construction permit and an air operation permit were previously issued for this facility that limited its operation to west central Florida. Specific approved sites are: 8705 East Hanna Avenue and 34th Street in Tampa; 2315 Marathon Road in Odessa; and 12955 40th Street North in Clearwater. This notice will allow relocation of the plant to and operation in any county where it is published. Specific new sites are: 500 Green Road in Sarasota, 40851 Cook Brown Road in Fort Myers, and 12165 U.S. Highway 41 North in Palmetto. A Best Available Control Technology (BACT) determination was not required for any air pollutant pursuant to Rule 62-212.400, F.A.C. and 40 CFR 52.21, Prevention of Significant Deterioration (PSD).  
The plant will emit fugitive particulate matter and the products of combustion from the diesel fuel used to power the plant when electrical power is unavailable at the operation site. Particulate matter emissions are controlled by wetting the material being processed. Maximum estimated emissions from the plant are 17.4 tons per year (TPY) particulate matter, 0.6 TPY sulfur dioxide, 0.3 TPY nitrogen oxides and trace amounts of carbon monoxide and hydrocarbons.  
Because of the low emission rates and the limited time of operation at any one site (2 years), the emissions from the facility will not significantly contribute to or cause a violation of any state or federal ambient air quality standards. An air quality impact analysis was not conducted.  
The Department will amend the Air Quality Operation Permit to authorize operation in the counties covered by this public notice unless a response is received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed Proposed Permit Amendment Issuance Actions for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2800 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in these Proposed Permit Amendment Issuance Action, the Department shall issue a Revised Proposed Permit Amendment Action and require, if applicable, another Public Notice.

The Department will issue the FINAL Permit Amendment unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 F.S. Mediation is not available for this action. The procedures for petitioning for a hearing are set forth below:

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, Telephone: 850/488-9370, Fax: 850/487-4938. Petitions must be filed within fourteen days of publication of this public notice or within fourteen days of receipt of the notice of intent, whichever occurs first. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition (or request for mediation, as discussed below) within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S. or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with rule 28-5.207 of the Florida Administrative Code.

A petition must contain the following information:

(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Permit File Number, and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by the petitioner, if any; (e) A statement of facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification to the Department's action or proposed action; and, (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the Department's action or proposed action addressed in this notice of intent. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above. A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

DEPARTMENT OF ENVIRONMENTAL PROTECTION  
 Proposed Permit No. 7770420-002-AO  
 Southern Crushing Services, Inc.  
 Relocatable Concrete and Asphalt Material Crushing Plant  
 Statewide Operation

The Department of Environmental Protection (Department) gives notice of its intent to amend the Air  
 Operation Permit for Southern Crushing Services Inc., Post Office Box 513, Valrico, Florida 33595-0513, for  
 operation of a relocatable concrete and asphalt material crushing plant. An air construction permit and an air  
 operation permit were previously issued for this facility that limited its operation to west central Florida.  
 Specific approved sites are 6705 East Hanna Avenue and 34th Street in Tampa; 2315 Marathon Road in  
 Odessa; and 12955-40th Street North in Clearwater. This notice will allow relocation of the plant to and  
 operation in any county where it is published. Specific new sites are 500 Green Road in Sarasota, 40851 Cook  
 Brown Road in Fort Myers, and 12165 U.S. Highway 41 North in Palmetto. A Best Available Control Technology  
 (BACT) determination was not required for any air pollutant pursuant to Rule 62-212.400, F.A.C. and 40 C.F.R.  
 52.21, Prevention of Significant Deterioration (PSD).

The plant will emit fugitive particulate matter and the products of combustion from the diesel fuel used to  
 power the plant when electrical power is unavailable at the operation site. Particulate matter emissions are  
 controlled by wetting the material being processed. Maximum estimated emissions from the plant are 17.4  
 tons per year (TPY) particulate matter, 0.6 TPY sulfur dioxide, 0.3 TPY nitrogen oxides and trace amounts of  
 carbon monoxide and hydrocarbons.  
 Because of the low emission rates and the limited time of operation at any one site (2 years), the emissions  
 from the facility will not significantly contribute to or cause a violation of any state or federal ambient air quality  
 standards. An air quality impact analysis was not conducted.

The Department will amend the Air Operation Permit to authorize operation in the counties covered by this  
 public notice unless a restraining order is received in accordance with the following procedures results in a different  
 decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed Proposed Permit Amendment  
 Issuance Actions for a period of 14 (fourteen) days from the date of publication of this Notice. Written  
 comments should be provided to the Department Bureau of Air Regulation, 2605 Blair Stone Road, Mail  
 Station 45505, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public  
 inspection. If written comments received result in a significant change in these Proposed Permit Amendment  
 Issuance Action, the Department shall issue a Revised Proposed Permit Amendment Issuance Action and  
 require, if applicable, another Public Notice.

The Department will issue the FINAL Permit Amendment unless a timely petition for an administrative  
 hearing is filed pursuant to Sections 120.569 and 120.57 F.S. Mediation is not available for this action. The  
 procedures for petitioning for a hearing are set forth below.  
 A person whose substantial interests are affected by the Department's proposed permitting decision may  
 petition for an administrative hearing in accordance with Sections 120.569 and 120.57 F.S. The petition must  
 contain the information set forth below and must be filed (received) in the Office of General Counsel of the  
 Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, telephone:  
 850/486-9370, fax: 850/487-4938. Petitions must be filed within fourteen days of publication of the public  
 notice or within fourteen days of receipt of this notice of intent, whichever occurs first. A petitioner must mail  
 a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any  
 person to file a petition (or a request for mediation, as discussed below) within the appropriate time period shall  
 constitute a waiver of that person's right to request an administrative determination (hearing) under Sections  
 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent  
 intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with  
 Rule 28-5.207 of the Florida Administrative Code.

A petition must contain the following information: (a) The name, address, and telephone number of each  
 petitioner; the applicant's name and address; the Permit Numbers and the counties in which the project is  
 proposed; (b) A statement of how and when each petitioner received notice of the Department's action or  
 proposed action; (c) A statement of how each petitioner's substantial interests are affected by the  
 Department's action or proposed action; (d) A statement of the material facts disputed by petitioner; if any; (e)  
 A statement of the facts that the petitioner contends warrant reversal or modification of the Department's  
 action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require  
 reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought  
 by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to  
 the Department's action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to formulate final agency action, the filing of a  
 petition means that the Department's final action may be different from the position taken by it in this notice  
 of intent. Persons whose substantial interests will be affected by any such final decision of the Department on  
 the application have the right to petition to become a party to the proceeding, in accordance with the  
 requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00  
 p.m., Monday through Friday, except legal holidays, at:
