LEGAL NOTICE

PUBLIC NOTICE OF INTENT TO ISSUE AIR OPERATION PERMIT STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION Proposed Permit No. 7770420-002-AO Southern Crushing Services, Inc. Relocatable Concrete and Asphalt Material Crushing Plant Statewide Operation

The Department of Environmental Protection (Department) gives notice of its intent to amend the Air Operation Permit for Southern Crushing Services Inc., Post Office Box 613, Valrico, Florida 33595-0613, for operation of a relocatable concrete and asphalt material crushing plant. An air construction permit and an air operation permit were previously issued for the facility that limited its operation to west central Florida. Specific approved sites are: 6705 East Hanna Avenue and 34th Street in Tampa; 2315 Marathon Road in Okeechobee, and 12955-40th Street North in Clearwater. This notice will allow relocation of the plant to and operation in any county where it is published. Specific new sites are: 500 Green Road in Sarasota, 40851 Cook Brown Road in Fort Myers, and 12165 U.S. Highway 41 North in Palmetto. A Best Available Control Technology (BACT) determination was not required for any air pollutant pursuant to Rule 62-212.400, F.A.C. and 40 C.F.R. 52.21, Prevention of Significant Deterioration (PSD).

The plant will emit fugitive particulate matter and the products of combustion from the diesel fuel used to power the plant when electrical power is unavailable at the operation site. Particulate matter emissions are controlled by wetting the material being processed. Maximum estimated emissions from the plant are 17.4 tons per year (TPY) particulate matter, 0.6 TPY sulfur dioxide, 0.3 TPY nitrogen oxides and trace amounts of carbon monoxide and hydrocarbons.

Because of the low emission rates and the limited time of operation at any one site (2 years), the emissions from the facility will not significantly contribute to or cause a violation of any state or federal ambient air quality standards. An air quality impact analysis was not conducted.

The Department will amend the Air Operation Permit to authorize operation in the counties covered by this public notice unless a response is received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed Proposed Permit Amendment Issuance Action for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2600 Bar Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public inspection. If written comments result in a significant change in these Proposed Permit Amendment Issuance Action, the Department shall issue a Revised Proposed Permit Amendment Issuance Action and require, if applicable, another Public Notice.

The Department will issue the FINAL Permit Amendment unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 F.S. Mediation is not available for this action. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57 F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, telephone: 850/488-9370, fax: 850/487-4938. Petitions must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition for a request for mediation, as discussed below within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28.5.207 of the Florida Administrative Code.

A petition must contain the following information: (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Permit File Numbers and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by petitioner; (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the Department's action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.
