

Department of Environmental Protection

Lawton Chiles
Governor

Southwest District
3804 Coconut Palm Drive
Tampa, Florida 33619

Virginia B. Wetherell
Secretary

October 17, 1995

Mr. Joseph M. Stavola, President
Dixie Lime and Stone Co.
P.O. Box 1209
Anthony, FL 32617

Dear Mr. Stavola:

Re: Air Construction/Operation Permit Application, Dated
7/27/95, for the Sumterville Mine Rock Crushing Plant
DEP File Nos. AC60-275111, AO60-275112

On September 21, 1995 the Department received your consultant,
Mr. Steve C. Cullen, P.E., a response to a request for additional
information regarding the above referenced application. In order
to continue processing the application, the Department will need
the following additional information pursuant to Rule 62-
4.070(1), F.A.C.:

1. Permit application processing fees are set forth in Rule 62-4.050, F.A.C. and are based on emission unit potential emissions (including fugitive emissions). Currently, the proper fee is \$1000, however, a fee only \$250 was submitted. Having said that, the Department is planning to discuss the issue of permit fees at its annual air meeting this week. I recommend that before you submit an additional fee, wait for confirmation of the proper amount.
2. Please address the NSPS Subpart 000 applicability of the bin loading hopper and the Powerscreen hopper.
3. Is it correct that the vibratory feeder and the Hewitt Robbins impact crusher both feed the crusher underbelt?
4. How are Powerscreen unders and overs conveyed to stockpiles?

Dixie Lime and Stone Co.
Sumterville Mine

"NOTICE: Pursuant to the provisions of Section 120.60, F.S. and Chapter 62-12.070(5), F.A.C., if the Department does not receive a response to this request for information within 90 days of the date of this letter, the Department will issue a final order denying your application. You need to respond within 30 days after you receive this letter, responding to as many of the information requests as possible and indicating when a response to any unanswered question will be submitted. If the response will require longer than 90 days to develop, an application for new construction should be withdrawn and resubmitted when completed information is available. Or for operating permits, you should develop a specific time table for the submission of the requested information for Department review and consideration. Failure to comply with a time table accepted by the Department will be grounds for the Department to issue a Final Order of Denial for lack of timely response. A denial for lack of information or response will be unbiased as to the merits of the application. The applicant can reapply as soon as the requested information is available."

If you have any questions, please call me at (813)744-6100 extension 112.

Sincerely,

Eric Peterson
Air Permitting Engineer
