Tampa, Florida 33619

Virginia B. Wetherell
Secretary

January 29, 1997

Mr. Dennis Kenney, P.G.
Florida Crushed Stone Co.
P.O. Box 790
Leesburg, FL 34748

Dear Mr. Kenney:

Re: Air Operation Permit Application Dated January 8, 1997
DEP File No.: 1190017-001-AO

On January 9, 1997 the Department received your application for an air pollution operation permit for the St. Catherine rock crushing plant.

In order to continue processing the application, the Department will need the following additional information pursuant to Rule 62-4.070(1), F.A.C.:

1. Please provide the records required in Specific Condition No. 15 of Construction Permit No. AC60-275105 for the latest two month period.

"NOTICE: Pursuant to the provisions of Section 120.60, F.S. and Chapter 62-12.070(5), F.A.C., if the Department does not receive a response to this request for information within 90 days of the date of this letter, the Department will issue a final order denying your application. You need to respond within 30 days after you receive this letter, responding to as many of the information requests as possible and indicating when a response to any unanswered question will be submitted. If the response will require longer than 90 days to develop, an application for new construction should be withdrawn and resubmitted when completed information is available. Or for operating permits, you should develop a specific time table for the submission of the requested information for Department review and consideration. Failure to comply with a time table accepted by the Department will be grounds for the Department to issue a Final Order of Denial for lack of timely response. A denial for lack of information or response will be unbiased as to the merits of the application. The applicant can reapply as soon as the requested information is available."
