RE: Request for State-Wide Construction Permits for Ballenger Paving Company's  
Relocatable Concrete Batch Plants

Dear Mr. Hanks:

Thank you for all of your helpful guidance you've given me on these permitting projects. Attached are four copies of each (eight copies total) of the completed construction permit applications. The one original (the other three are copies) is signed and embossed by a professional engineer and is signed and dated by a company authorized representative. Please note that there are two identical 270 cubic yard per hour units (Rex Model - S) and one 120 cubic yard per hour unit (Vince Hagan Model).

Ballenger requests the Rex Model - S unit permitted in Duval County be amended to allow it's operation State-wide. For this amendment, a \$250.00 review fee is enclosed. In addition, for the State-wide permitting of the other two units, a \$2,000.00 review fee is enclosed. Therefore, enclosed is a check for \$2,250.00 made payable to the Florida Department of Environmental Protection.

Our understanding is the Bureau of Air Regulations will issue an "Intent to Issue" in draft permit, along with a public notice and a list of newspapers to publish the notice throughout Florida. Ballenger Paving Company would like to run all three public notices consecutively. After roughly fifteen days upon the published public notice, a final construction permit will be issued to the facility.

If there is anything we can do to expedite the permitting process or should you have any additional questions concerning the submittal, please contact me at (864) 848-1303 or Mr. Corky Lane at (864) 292-9550.

Sincerely,  
RTP Environmental Associates, Inc.®

David L. Robb  
Senior Project Manager
