Re: Ballenger Paving Company, Inc. Permit Applications for Three Relocatable
Concrete Batch Plants

Dear Mr. Hanks:

Enclosed are an original and three copies of a permit application for the construction of a Vince Hagan Model relocatable concrete batch plant, and an original and three copies of a permit application for the construction of two identical Rex Model S relocatable concrete batch plants that we discussed this afternoon.

Ballenger requests the Rex Model-S unit permitted in Duval County be amended to allow it's operation State-wide. For this amendment, a \$250 review fee is required. In addition, the State-wide permitting request for the two identical units requires a fee of \$2,000. It is my understanding that a check for \$2,250, the total of all required fees, has been mailed to DEP and has been received by the Department.

Our understanding is the Bureau of Air Regulations will issue an "Intent to Issue" in draft permit, along with a public notice and a list of newspapers to publish the notice throughout Florida. Ballenger Paving Company would like to run all three public notices consecutively. After roughly fifteen days upon the published public notice, a final construction permit will be issued to the facility.
