RE: APAC-Georgia, Inc. State Wide Permit

7775045-001-AC  
7775033-002-AC

Dear Mr. Holtom:

I would like to thank you for the time you spent discussing our Statewide permit with me on 6/7/99. As I currently understand, you will allow us to extend our construction permit for an additional eighteen months. At that time, if we have not obtained operating permits for each plant, they will be removed from the statewide permit and we could obtain a general permit for those plants. The public notices would be good until they expire after five years.

The eighteen month period will be good to make adjustments from our current situation to new procedures. It will also help absorb the investment we have already placed in the past permit. I appreciate the understanding you have shown us in this matter.

We have enclosed with this letter the filing fee payment of \$250. If you need additional information or assistance, please do not hesitate to contact me. Once again, thank you for your help.

Sincerely,

Corky Lane

RE: APAC-Georgia, Inc. State Wide Permit

Dear Mr. Hanks:

We currently have five portable concrete plants under a state wide construction permit for Florida. Currently, all of our plants are in storage. One of these plants should be constructed in Jacksonville in November. For now we would like to request an extension of our construction permit for the following portable plants:

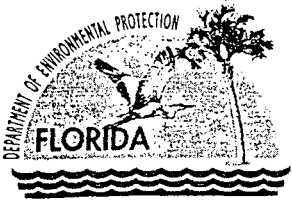

DEP File Nos. 7775018-002-AC  
7775027-001-AC  
7775028-001-AC  
7775033-002-AC  
7775045-001-AC

The current permit provisions expire on May 31, 1999. Please contact me if I can be of any assistance.

Sincerely,

Corky Lane

Dear Mr. Lane:

The Department has determined that the \$2,250 processing fee submitted with your September 30, 1997 application for statewide air construction permits was excessive, and you are due a refund of \$250. Please date and sign on the Applicant's Signature line of the enclosed Application for Refund Form and return it to me. If you have any questions, please call me at (850)921-9505.

RE: APAC-Georgia, Inc. State Wide Air Permit

Dear Steve:

As I have discussed with you earlier today during our phone conversation and my letter of 9/13/98, we currently have five portable concrete plants under a state wide construction permit for Florida. Currently, all of our portable concrete plants are in storage at this time. We are certain to mobilize a plant in Jacksonville this Spring and certainly hope to have the opportunity to erect a plant sooner.

At your direction, we are enclosing a check for \$250, which will include fee payment for all five of our relocatable concrete plants. We will also send you a letter by May 30, 1999 in order to give you the status of any plants that are not operating under the General Permit by that time.

The extensions of our construction permit we have discussed and the payment fees we have sent are for the following batch plants:

DEP File Nos. 7775018-002-AC  
7775027-001-AC  
7775028-001-AC  
7775033-002-AC  
7775045-001-AC

Please do not hesitate to contact me if I can be of any additional assistance.

Sincerely,

Corky Lane

RE: APAC-Georgia, Inc. State Wide Air Permit

Dear Mr. Hanks:

I would to thank you for your telephone call today. As I mentioned during our conversation, I have just met with our consulting engineer yesterday and obtained cleaner copies of the article to be published. We are setting up accounts at the required eleven newspaper this week in preparation for publishing. We are certain the article will be published in February.

I appreciate your concern and thank you for the help you have given us in the past. If you need additional information or if I can assist you in anyway, please do hesitate to contact me.

Sincerely,

Corky Lane

## NOTICE OF PERMIT EXTENSION

Mr. Milton Lane, Director  
Environmental, Health, and Safety  
APAC - Georgia Paving Company, Inc.  
Post Office Box 127  
Greenville, South Carolina 29602

**RE: Expiration Date Extension for Construction Permit Nos.  
7775018-002-AC, 7775027-001-AC, 7775028-001-AC, 7775033-002-AC & 7775045-001-AC**

Dear Mr. Lane:

The Department received your letter dated October, 8, 1998 requesting an extension of time for the above referenced air permits since the units will be in storage until the spring of 1999. As requested, the Department hereby amends these permits, by revising the expiration date from **December 31, 1998, to May 31, 1999.**

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000 (Telephone: 850/488-9730; Fax: 850/487-4938). Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the permitting authority for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the permitting authority's action is based must contain the following information:

(a) The name and address of each agency affected and each agency's file or identification number, if known;

APAC

Construction Permit Extension

Page 2 of 3

(b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;

(c) A statement of how and when each petitioner received notice of the agency action or proposed action;

(d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;

(e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief; and,

(f) A demand for relief.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation will not be available in this proceeding.

In addition to the above, a person subject to regulation has a right to apply to the Department of Environmental Protection for a variance from or waiver of the requirements of particular rules, on certain conditions, under Section 120.542, F.S. The relief provided by this state statute applies only to state rules, not statutes, and not to any federal regulatory requirements. Applying for a variance or waiver does not substitute or extend the time for filing a petition for an administrative hearing or exercising any other right that a person may have in relation to the action proposed in this notice of intent.

The application for a variance or waiver is made by filing a petition with the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. The petition must specify the following information:

(a) The name, address, and telephone number of the petitioner;

(b) The name, address, and telephone number of the attorney or qualified representative of the petitioner, if any;

(c) Each rule or portion of a rule from which a variance or waiver is requested;

(d) The citation to the statute underlying (implemented by) the rule identified in (c) above;

(e) The type of action requested;

(f) The specific facts that would justify a variance or waiver for the petitioner;

(g) The reason why the variance or waiver would serve the purposes of the underlying statute (implemented by the rule); and,

(h) A statement whether the variance or waiver is permanent or temporary and, if temporary, a statement of the dates showing the duration of the variance or waiver requested.

APAC

Construction Permit Extension

Page 3 of 3

The Department will grant a variance or waiver when the petition demonstrates both that the application of the rule would create a substantial hardship or violate principles of fairness, as each of those terms is defined in Section 120.542(2), F.S., and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Any party to this order has the right to seek judicial review of the permit pursuant to Section 120.68, F.S., by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the permitting authority in the Legal Office; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 (thirty) days from the date this Notice is filed with the Clerk of the permitting authority.

This amendment must be attached to and becomes a part of the subject permits.

Executed in Tallahassee, Florida.

Subject: APAC-Georgia DRAFT Statewide Construction Permits Comments

Dear Willard:

I have reviewed the DRAFT APAC-Georgia Statewide Construction Permit with Corky Lane (APAC-Georgia). There are 2 operational limitations in each DRAFT construction permit that should be clarified.

1. **Section III. Emission Unit(s) - Specific Conditions, Operational Limitations, B.5.** The conditions states that the plant shall not operate for more than 2 years at any one site in Florida. This condition may not be appropriate for concrete batch plants because most contracts are short duration and it is impossible to determine where the next project may require a plant to be located. Additionally, the plant is usually shut down for extended periods dictated by weather conditions and project design. It is possible for a contract to continue for more than 2 years, but the batch plant may only operate 6 or 8 months during the entire life of a project and still remain on the same site.
2. **Section III. Emission Unit(s) - Specific Conditions, Operational Limitations, B.6.** This conditions states, ...and hourly consumption of raw materials shall not exceed:

Cement: 27 cubic yards

Flyash: 6.8 cubic yards

Sand and aggregate: 212 cubic yards

Mr. Willard Hanks  
Bureau of Air Regulation  
December 5, 1997  
Page 2

This is a **typical mix** which will have some minor variation in component percentages and represents the average makeup of a concrete batch. The condition should read,

***"Maximum production shall not exceed 270 cubic yards per hour. A typical batch formulation is,***

***Cement: 27 cubic yards***

***Flyash: 6.8 cubic yards***

***Sand and aggregate: 212 cubic yards."***

Please call with any questions or comments. Thank you for all your help.

Sincerely,  
RTP Environmental Associates, Inc.

Re: APAC-Georgia Paving Company, Inc., 7775018-002-AC, 7775027-001-AC, 7775028-001-AC, 7775033-002-AC, 7775045-001-AC

Mr. Hanks:

This office has reviewed the draft permits for the above mentioned facility. Minor requested changes are:

1. Specific Condition No. B.1. - add a comma between silos and hoppers.
2. Pinellas County does have a requirement for an operation and maintenance plan (O&M Plan) when control equipment is utilized. When the construction permits are issued, they all should reflect the need to submit an O&M Plan with the application for an operating permit. This requirement was placed in 7775018-002-AC, 7775028-001-AC, 7775033-002-AC, and 7775045-001-AC, but was not required in 7775027-001-AC.

Since all five portable emission units are operated by the same Company, is it possible to identify the sources with one facility number with five emission units, instead of five facilities with one emission unit?

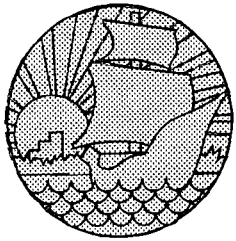

If you have any questions, contact this office at (813) 464-4422 or Suncom 570-4422.

Sincerely,

Gary Robbins, Environmental Program Manager  
Air Quality Division

Statewide Construction Permits for Five Relocatable  
Concrete Batch Plants.

Dear Mr. Fancy:

After reviewing the Draft Air Construction Permits for five relocatable concrete batch plants to operate in any county in Florida, Manatee County Environmental Management Department wish to call your attention to an important point.

To ensure proper setup, alignment, control and operation of equipment in this system, we recommend that dust collector exhaust points be tested every time after relocation using EPA Visible Emission test, Method 9.

Please consider this issue, and as always, should you have any questions regarding this issue please do not hesitate to contact me at the address or phone number listed above.

Thank you very much for your consideration.

Sincerely,

Attached for your approval and signature is a revised Technical Evaluation and Preliminary Determination (including Intent, Public Notice, and Draft Permits) for five relocatable concrete batch plants. An Intent to Issue was sent to Ballenger Paving Company on March 20, 1997, for three units. The applicant has changed his name and asked for permits for two more relocatable units. The applicant has requested permission to operate all of the units throughout the state.

Each relocatable concrete batch plant is a minor emission unit. The applicant will use baghouses on the batch plants and reasonable precautions (wetting) in the yards to control emissions. The baghouses for the cement and flyash silos can meet the 5 percent opacity standard in the Department's air regulations for these plants.

I recommend your approval and signature of the Department's Intent.

RE: APAC-Georgia Paving Company State Wide Permit

Dear Willard:

7775045-001-AC

7775033-002-AC

Enclosed is the permit application for two 366 yd<sup>3</sup>/hr relocatable concrete batch plants that are to be added to the state wide permit (draft permit numbers 7775018-002-AC, 7775027-001-AC, and 7775028-001-AC). RTP has already received the draft of the intent to issue that is to be published in the newspaper. APAC-Georgia would like to include these two plants into the state wide permit and into the notice to be published so that state wide coverage can be accomplished in a cost effective manner. In addition, the name of the company has changed from APAC-Ballenger to APAC-Georgia Paving Company, Inc. APAC-Georgia would like for the updated state wide permit to reflect this change.

A check for \$2250.00 is enclosed to cover the review fee for the two plants and the fee for opening the state wide permit.

Please call if you have any questions.

Sincerely,  
RTP Environmental Associates, Inc.
