Mr. Willard Hanks
Dept. of Environmental Protection
Division of Air Resource Management
Mail Station 5505
2600 Blair Stone Road
Tallahassee, FL 32399-2400

Dear Mr. Hanks,

Enclosed please find four copies of the application form for our operating permit, the original proof of publication for Broward and Dade counties , and a check payable to DEP in the amount of \$1000.00.

I trust that this information will be satisfactory for the operating permit and I await your response.

Sincerely,

Handwritten signature of Brian P. Smith.

I. APPLICATION INFORMATION

Identification of Facility Addressed in This Application

1. Facility Owner/Company Name : Crusher Contractors Co.	
2. Site Name : Crusher Contractors - Relocatable	
3. Facility Identification Number :	7775057 [] Unknown
4. Facility Location : Crusher is currently located on property belonging to Pavex Inc. at the address shown. Crusher will be moved within the next month. Street Address or Other Locator : 18600 NW 122nd Ave. City : Miami County : Dade Zip Code : 33178-	
5. Relocatable Facility? [X] Yes [] No	6. Existing Permitted Facility? [] Yes [X] No

7775057-002-A0

Owner/Authorized Representative or Responsible Official

1. Name and Title of Owner/Authorized Representative or Responsible Official :
Name : Mr. Brian P. Smith Title : Owner
2. Owner or Authorized Representative or Responsible Official Mailing Address :
Organization/Firm : Crusher Contractors Co. Street Address : 135 Timber Lane City : Jupiter State : FL Zip Code : 33458-____
3. Owner/Authorized Representative or Responsible Official Telephone Numbers :
Telephone : (561)747-3155 Fax :
4. Owner/Authorized Representative or Responsible Official Statement :
<i>I, the undersigned, am the owner or authorized representative* of the non-Title V source addressed in this Application for Air Permit or the responsible official, as defined in Rule 62-210.200, F.A.C., of the Title V source addressed in this application, whichever is applicable. I hereby certify, based on information and belief formed after reasonable inquiry, that the statements made in this application are true, accurate and complete and that, to the best of my knowledge, any estimates of emissions reported in this application are based upon reasonable techniques for calculating emissions. The air pollutant emissions units and air pollution control equipment described in this application will be operated and maintained so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof. I understand that a permit, if granted by the Department, cannot be transferred without authorization from the Department, and I will promptly notify the Department upon sale or legal transfer of any permitted emissions units.</i>

Scope of Application

Emissions Unit ID	Description of Emissions Unit	Permit Type
Unknown	Kemco Dynabreaker portable crusher	
Unknown	Catapillar 3408 Diesel Engine	
Unknown	4 cyl Cummings Diesel Engine	

Purpose of Application and Category

Category I : All Air Operation Permit Applications Subject to Processing Under Chapter 62-213, F.A.C.

This Application for Air Permit is submitted to obtain :

-] Initial air operation permit under Chapter 62-213, F.A.C., for an existing facility which is classified as a Title V source.

-] Initial air operation permit under Chapter 62-213, F.A.C., for a facility which, upon start up of one or more newly constructed or modified emissions units addressed in this application, would become classified as a Title V source.

Current construction permit number :

-] Air operation permit renewal under Chapter 62-213, F.A.C., for a Title V source.

Operation permit to be renewed :

-] Air operation permit revision for a Title V source to address one or more newly constructed or modified emissions units addressed in this application.

Current construction permit number :

Operation permit to be revised :

-] Air operation permit revision or administrative correction for a Title V source to address one or more proposed new or modified emissions units and to be processed concurrently with the air construction permit application.

Operation permit to be revised/corrected :

-] Air operation permit revision for a Title V source for reasons other than construction or

I. Part 4 - 1

modification of an emissions unit.

Operation permit to be revised :

Reason for revision :

Category II : All Air Operation Permit Applications Subject to Processing Under Rule 62-210.300(2)(b), F.A.C.

This Application for Air Permit is submitted to obtain :

Initial air operation permit under Rule 62-210.300(2)(b), F.A.C., for an existing facility seeking classification as a synthetic non-Title V source.

Current operation/construction permit number(s) :

Renewal air operation permit under Rule 62-210.300(2)(b), F.A.C., for a synthetic non-Title V source.

Operation permit to be renewed :

Air operation permit revision for a synthetic non-Title V source.

Operation permit to be revised :

Reason for revision :

Category III : All Air Construction Permit Applications for All Facilities and Emissions Units

This Application for Air Permit is submitted to obtain :

Air construction permit to construct or modify one or more emissions units within a facility (including any facility classified as a Title V source).

Current operation permit number(s), if any :

I. Part 4 - 2

-] Air construction permit to make federally enforceable an assumed restriction on the potential emissions of one or more existing, permitted emissions units.

Current operation permit number(s) :

-] Air construction permit for one or more existing, but unpermitted, emissions units.

4. Professional Engineer Statement :

I, the undersigned, hereby certified, except as particularly noted herein, that :*

(1) To the best of my knowledge, there is reasonable assurance that the air pollutant emissions unit(s) and the air pollutant control equipment described in this Application for Air Permit, when properly operated and maintained, will comply with all applicable standards for control of air pollutant emissions found in the Florida Statutes and rules of the Department of Environmental Protection; and

(2) To the best of my knowledge, any emission estimates reported or relied on in this application are true, accurate, and complete and are either based upon reasonable techniques available for calculating emissions or, for emission estimates of hazardous air pollutants not regulated for an emissions unit addressed in this application, based solely upon the materials, information and calculations submitted with this application.

If the purpose of this application is to obtain a Title V source air operation permit (check here [] if so), I further certify that each emissions unit described in this Application for Air Permit, when properly operated and maintained, will comply with the applicable requirements identified in this application to which the unit is subject, except those emissions units for which a compliance schedule is submitted with this application.

If the purpose of this application is to obtain an air construction permit for one or more proposed new or modified emissions units (check here [] if so), I further certify that the engineering features of each such emissions unit described in this application have been designed or examined by me or individuals under my direct supervision and found to be in conformity with sound engineering principles applicable to the control of emissions of the air pollutants characterized in this application.

If the purpose of this application is to obtain an initial air operation permit or operation permit revision for one or more newly constructed or modified emissions units (check here [X] if so), I further certify that, with the exception of any changes detailed as part of this application, each such emissions has been constructed or modified in substantial accordance with the information given in the corresponding application for air construction permit and with all provisions contained in such permit.

TABLE OF CONTENTS

- 1.0 Summary
- 2.0 Description of Sampling Locations
- 3.0 Visible Emissions Field Data Sheets
- 4.0 Computer Input Sheets
- 5.0 Flow Diagram
- 6.0 Location Photographs

1.0 SUMMARY

Brooks & Associates conducted a visible emissions tests on 4 and 9 June 1998 at Crusher Contractors job site located on Pavex Inc. property at 18600 NW 122nd Ave. Miami, FL.

The tests were conducted in strict accordance with the Environmental Protection Agency's Method 9 as described in 40CFR60 Appendix A, as amended and modified by Florida State Code. These tests were conducted to comply with the conditions set forth in Crusher Contractors construction permit by the Florida Department of Environmental Protection, Southeast District and to determine compliance with Chapter 62-296 and 62-297 of the Florida Administrative Code.

The Kemco Dynabreaker portable crusher was operating at its maximum capacity of two hundred (200) tons per hour during the tests on 4 and 9 June 1998. All eight emission points observed had average opacities of 0% for the test.

Barbara Schaltenbrand and Eugene Schaltenbrand were the Certified Emissions Evaluators. Eugene Schaltenbrand was responsible for the overall testing program and preparation of this report. Stephanie Brooks coordinated the test with DERM and DEP. Neither DERM nor DEP was represented at the test. Mr Brian Smith represented Crusher Contractors.

2.0 DESCRIPTION OF SAMPLING LOCATIONS

The Kemco Dynabreaker portable crusher operated by Crusher Contractors consists of four distinct sections. The first section includes the large diesel engine (Emission Unit #2), the crusher itself (#1 on the flow diagram) and a short crusher conveyor (#2 on the flow diagram). The second section includes the small diesel engine (Emission Unit #3), conveyors #2 & #3, and the screen. Because of their proximity conveyor #3 and the screen were tested as one point. The third section is conveyor #4 and the fourth section is conveyor #5.

The photographs in Section 6.0 of this report were taken from the Observer's Position on 4 June. On 9 June Emission Units #2 & #3 were observed from atop the spoil bank behind conveyor #4.

S. Corwin personally known to me.

Juliana Howard
MY COMMISSION # CC660207 EXPIRES
August 24, 2001
BONDED THRU TROY FAIN INSURANCE, INC.

**PUBLIC NOTICE OF INTENT TO ISSUE
AIR CONSTRUCTION PERMIT
STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
DRAFT Permit No. 7776067-001-AC
Portable Asphalt Material Crusher**

The Department of Environmental Protection (Department) is hereby giving notice of its intent to issue an air construction permit to Crusher Contractors, Inc. for a diesel engine powered portable asphalt material crusher that will be operated at asphalt plants throughout Florida. The crusher is a minor source of air pollution and not subject to the Prevention of Significant Deterioration (PSD) regulations, Rule 62-212.400, F.A.C. A Best Available Control Technology determination was not required for the unit. The applicant's name and address are: Crusher Contractors, Inc., 135 Timber Lane, Jupiter, Florida 33458.

The applicant proposes to construct and operate a portable asphalt crusher powered by diesel engines at asphalt plants in counties in Florida that this notice appears in. The crusher will emit particulate matter and the products of combustion from the diesel fuel.

Maximum emissions of pollutants from this facility (crusher and 2 diesel engines) are estimated to be

Pollutant	Hourly Emissions pounds per hour	Annual Emissions tons per year
Particulate matter(PM/PM ₁₀)	5.2	4.5
Nitrogen Oxides (NO _x)	4.4	10.6
Carbon Monoxide (CO)	1.0	2.4
Sulfur dioxide (SO ₂)	0.3	0.7
Volatile Organic Compounds (VOC)	0.4	1.0

The facility is not expected to cause or contribute to any violation of an ambient air quality standard.

The Department will issue the FINAL Permit, in accordance with the conditions of the DRAFT Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed DRAFT Permit issuance actions for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2800 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32309-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in these DRAFT Permits, the Department shall issue a Revised DRAFT Permit and require, if applicable, another Public Notice.

The Department will issue the FINAL Permit with the conditions of the DRAFT Permit unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 F.S. Mediation is not available for this action. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57 F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department, 3800 Commonwealth Boulevard, Mail Station #36, Tallahassee, Florida 32389-3000, telephone: 850/488-0370; fax: 850/487-4938. Petitions must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition (or a request for mediation, as discussed below) within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-8.207 of the Florida Administrative Code. A petition must contain the following information: (a) The name, ad-

name, address, and telephone number of each petitioner, the applicant's name and address, the Permit File Numbers and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts of the case; (e) A statement of the basis for the petitioner's contention that the petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modifications of the Department's action or proposed action.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to be heard.

The requirements set forth above shall be in accordance with the

**PUBLIC NOTICE OF INTENT TO ISSUE
AIR CONSTRUCTION PERMIT
STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL
PROTECTION
DRAFT PERMIT NO. 7775057-001-AC
PORTABLE ASPHALT
MATERIAL CRUSHER**

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit to Crusher Contractors, Inc. for a diesel engine powered portable asphalt material crusher that will be operated at asphalt plants throughout Florida. The crusher is a minor source of air pollution and not subject to the Prevention of Significant Deterioration (PSD) requirements, Rule 60.212-400, F.A.C. Best Available Control Technology determination was not required for the unit. The applicant's name and address are: Crusher Contractors, Inc., 135 Timber Lane, Jupiter, Florida 33458.

The applicant proposes to construct and operate a portable asphalt crusher powered by diesel engines at asphalt plants in counties in Florida that this notice appears in. The crusher will emit particulate matter and the products of combustion from the diesel fuel.

Maximum emissions of pollutants from this facility (crusher and 2 diesel engines) are estimated to be:

POLLUTANT	EMISSIONS	
	DAILY EMISSIONS pounds per hour	ANNUAL EMISSIONS tons per year
Particulate matter (PM/PM ₁₀)	5.2	4.5
Nitrogen Oxides (NO _x)	4.4	10.8
Carbon Monoxide (CO)	1.0	2.4
Sulfur dioxide (SO ₂)	0.3	0.7
Volatile Organic Compounds (VOC)	0.4	1.0

The facility is not expected to cause or contribute to any violation of an ambient air quality standard.

The Department will issue the FINAL Permit, in accordance with the conditions of the DRAFT Permit unless a response received in accordance with the following procedure results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed DRAFT Permit issuance actions for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2800 Blair Stone Road, Mail Station 88505, Tallahassee, Florida 32309-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in these DRAFT Permit, the Department shall issue a Revised DRAFT Permit and require, if applicable, another Public Notice.

The Department will issue the FINAL Permit with the conditions of the DRAFT Permit unless a timely petition for an administrative hearing is filed pursuant to Sections 120.589 and 120.57 F.S. Mediation is not available for this action. The procedures for petitioning for a hearing are set forth below.

Persons whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.589 and 120.57 F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station 835, Tallahassee, Florida 32399-3000, telephone: 850/488-8370; fax: 850/487-4938. Petitions must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition (or a request for mediation, as discussed below) within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.589 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 20-6.307 of the Florida Administrative Code.

MIAMI DAILY BUSINESS REVIEW

A petition must contain the following information: (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Permit File Numbers and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modifications of the Department's action or proposed action.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it at the notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.
