

JR's

STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
NOTICE OF PERMITS

In the matter of an  
Application for Permits by:

DEP File Nos. 7775019-001-AO  
7775020-001-AO

Mr. Vic DiGeronimo, Owner  
Independence Excavating, Inc.  
730 Roosevelt Plaza  
Tampa Port Authority  
Taampa, Florida 33605

Enclosed are Operation Permits Nos. 7775019-001-AO (Unit "A") and 7775020-001-AO (Unit "B") for two movable secondary asphaltic concrete crushing units. These permits authorize operation of these units in any county in Florida. Both permits are issued pursuant to Section (s) 403, Florida Statutes.

Any party to this Order (permit) has the right to seek judicial review of the permit pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date this Notice is filed with the Clerk of the Department.

Executed in Tallahassee, Florida.

CERTIFICATE OF SERVICE

The undersigned duly designated deputy agency clerk hereby certifies that this NOTICE OF PERMITS and the permits to operate were mailed by certified mail to Mr. Vic DiGeranimo, Independence Excavating, Inc., and that copies thereof were mailed by U.S. Mail to District and County Air Program Administrators before the close of business on 9-30-96.

Clerk Stamp

FILING AND ACKNOWLEDGMENT FILED,  
on this date, pursuant to  
§120.52(11), Florida Statutes,  
with the designated Department  
Clerk, receipt of which is hereby  
acknowledged.

Operation Permit Evaluation For  
Independence Excavating, Inc.  
Dual Reclaimed Asphalt Units  
Permit Numbers: 7775019-001-AO & 7775020-001-AO

Construction Permits Nos. AC 29-256368 & AC 29-256369 were issued to Independence Excavating, Inc., on April 28, 1995. These permits expired on July 1, 1996. On March 19, 1996, the permittee applied to the Department's Southwest District Office for operation permits for these units. Since these are statewide operation permit applications, they should have been filed with the Bureau of Air Regulation in Tallahassee according to Specific Condition No.11 of the above-mentioned construction permits. This resulted in a delay in processing and the applicant executed a waiver of the 90-day time limit which expires on September 30, 1996.

The Department is issuing the operation permits with conditions based on comments received from the Southwest District and from the applicant. The Southwest District commented on the change in the unit designations (from "A" to "B" and from "B" to "A") which occurred from the time that the construction permits were proposed (the preliminary determination) and the issuing of the final construction permits. This was due to the applicant's relocating the "B" unit to the location formerly listed for the "A" unit.

The Southwest District also suggested that the public notice requirements for each relocation be modified. The Department is currently in the process of drafting guidance regarding public notice requirements for relocatable facilities that have statewide permits. As it now stands, a non-Title V movable facility operating under a statewide permit will be allowed to relocate to a new site within the same county without publication of a new public notice if a previous public notice (i.e. required by the construction permit or the operation permit) was issued for any site in that county within the last five years. Otherwise, a new public notice must be published as required by Rule 62-210.350, F.A.C. and a permit amendment issued before the facility can move to the new site.

The applicant referred to the construction permit visible emissions requirements (multiple emission points, three hour observation, and retest upon relocation) as being excessive and unmanageable. These units are subject to the federal new source performance standards (40 CFR 60, Subpart OOO), which require opacity limits for all affected facilities that are identified in 40 CFR 60.670. Among those affected facilities are the crushing, screening and storage (stockpiling) operations, excluding truck dumping of nonmetallic materials into any screening operation, feed hopper, or crusher. The three hour observation is required under 40 CFR 60.11 for the initial compliance test. After that, Method 9 testing consists of 24 opacity observations at 15-second intervals. Regarding retesting upon each relocation, this is a reasonable requirement since it ensures that the spray control equipment is set up properly after being dismantled and reinstalled.

**PERMITTEE:**  
Independence Excavating, Inc.  
730 Roosevelt Plaza  
Tampa, Florida 33605

**Permit Number:** 7775020-001-AO  
**Expiration Date:** Dec. 31, 2001  
**County:** Statewide Operation  
**Project:** Reclaimed Asphalt  
Unit B

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and Chapters 62-204 through 62-297, and 62-4, Florida Administrative Code (F.A.C.). The above named permittee is hereby authorized to perform the work or operate the emission unit shown on the application and approved drawings, plans, and other documents attached hereto or on file with the Department of Environmental Protection (Department) and specifically described as indicated below:

Authorization to operate a portable secondary asphaltic concrete crushing unit consisting of a 150 ton/hour Hazmag crushing unit powered by a 320 H.P. diesel engine. Also included is a 270 H.P. diesel generator set to supply electrical power to conveyors and other equipment. The facility is currently located at 730 Roosevelt Plaza, Tampa Port Authority, Tampa, Hillsborough County, Florida.

Particulate emissions generated from the crushing, screening and stockpiling operations are controlled by a water spray system. Fugitive emissions from these sources and emissions from the diesel engines, including NOx, CO, HC and SO2, will be below the levels that require new source review under the federal Prevention of Significant Deterioration (PSD) rules.

Operation of this facility shall be in accordance with the permit application, plans, documents, amendments and drawings, except as otherwise noted in the General and Specific Conditions.

**Attachments:**

1. Application received on March 19, 1996.
2. DEP's Fax Transmission Sheet dated June 3, 1996.
3. Applicant's Waiver of 90 Day Time Limit.

**PERMITTEE:**  
Independence Excavating, Inc.

**Permit Number:** 7775020-001-AO  
**Expiration Date:** Dec. 31, 2001

**GENERAL CONDITIONS:**

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.161, 403.727, or 403.859 through 403.861, F.S. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in Subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of

PERMITTEE:  
Independence Excavating, Inc.

Permit Number: 7775020-001-AO  
Expiration Date: Dec. 31, 2001

**GENERAL CONDITIONS:**

credentials or other documents as may be required by law and at a reasonable time, access to the premises, where the permitted activity is located or conducted to:

- a. have access to and copy any records that must be kept under the conditions of the permit;
- b. inspect the facility, equipment, practices, or operations regulated or required under this permit; and
- c. sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- a. a description of and cause of non-compliance; and
- b. the period of noncompliance, including dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.73 and 403.111, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and F.S. after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

PERMITTEE:  
Independence Excavating, Inc.

Permit Number: 7775020-001-AO  
Expiration Date: Dec. 31, 2001

**GENERAL CONDITIONS:**

11. This permit is transferable only upon Department approval in accordance with Rules 62-4.120 and 62-30.300, F.A.C., as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. The permittee shall comply with the following:

a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.

b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.

c. Records of monitoring information shall include:

- the date, exact place, and time of sampling or measurements;
- the person responsible for performing the sampling or measurements;
- the dates analyses were performed;
- the person responsible for performing the analyses;
- the analytical techniques or methods used; and
- the results of such analyses.

14. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

PERMITTEE:  
Independence Excavating, Inc.

Permit Number: 7775020-001-AO  
Expiration Date: Dec. 31, 2001

**SPECIFIC CONDITIONS:**

1. Pursuant to Rule 62-210.200(223), F.A.C., this emission unit shall be allowed to operate up to 10 hours per day, 6 days per week and 52 weeks per year (2,080 total hrs/yr) at a maximum production rate of 150 tons of crushed material per hour.

2. Pursuant to Rule 62-204.800(7)(b)62, F.A.C., and the application submitted by the permittee, visible emissions from the crushing, screening, and stockpiling operations shall be less than 5% opacity.

3. Pursuant to Rule 62-296.320(4)(b), F.A.C., visible emissions from the crusher diesel engine and the diesel generator shall be less than 20% opacity.

4. Compliance with Specific Conditions Nos. 2 and 3 shall be demonstrated using EPA Reference Method 9. Following the initial opacity compliance determination according to 40 CFR 60.11 (visible emissions tests conducted over a period of three hours (30 six-minute averages) required by the construction permit, annual and relocation tests thereafter shall be conducted by recording a minimum of 24 opacity observations at 15-second intervals. To ensure that relocated equipment is properly set up each time the unit is moved to another site, a visible emissions test shall be conducted within 15 days of any such move and annually thereafter.

5. The permittee shall notify the appropriate district and local air program offices at least 15 days prior to compliance testing as required by Rule 62-297.310(7), F.A.C. Within 45 days of test completion, the permittee shall submit a written report containing the test results to the Department's district office and the local air program office having jurisdiction over the site. The emission testing and reporting shall be in accordance with the applicable requirements of Rule 62-297, F.A.C., and 40 CFR 60, Subpart 000.

6. (a) Operation is permitted in all counties where the public notice of the proposed construction or operation of the facility had been given within the previous five years pursuant to Rule 62-210.350(1) provided that the owner or operator submits a Notification of Intent to Relocate Air Pollutant Emitting Facility (DEP Form No. 62-210.900(3)) to the Department's district office, and the local air pollution control program at least seven (7) days prior to the relocation.

(b) To operate in counties where public notice had been given more than five years before a planned relocation, the permittee must submit to the Department's Bureau of Air Regulation in Tallahassee a Notification of Intent to Relocate Air Pollutant Emitting Facility at least thirty (30) days prior to the relocation, give public notice (prepared by the Department) and obtain a written authorization from the Department.

**PERMITTEE:**  
Independence Excavating, Inc.

**Permit Number:** 7775020-001-AO  
**Expiration Date:** Dec. 31, 2001

**SPECIFIC CONDITIONS:**

(c) To operate in other counties, the permittee must submit a Notification of Intent to Relocate Air Pollutant Emitting Facility at least thirty (30) days prior to the relocation, give public notice of the Intent to Issue (prepared by the Department) pursuant to Rule 62-210.350(1), and obtain an air permit amendment from the Department.

(d) The unit shall not be operated in a location or in a manner that creates a nuisance. Pursuant to and as required by Rule 62-210.370, F.A.C., the permittee shall submit an Annual Operating Report to the appropriate district or local air program office.

7. Pursuant to Rule 62-296.320, F.A.C., no objectionable odor from this facility shall be allowed.

8. Pursuant to Rule 62-296.320(4)(c), F.A.C., the permittee shall take reasonable precautions to control emissions of unconfined particulate matter including but not limited to the following:

- (a) Unpaved roads, parking areas and yards shall be kept moist at all times by applying water/dust suppressant as necessary.
- (b) Particulate matter shall be removed from paved roads as necessary to prevent dust emissions.
- (c) Emission points shall be enclosed to the extent possible and vented through an appropriate air pollution control device, if necessary, to meet the applicable emission standards.
- (d) Material drop points shall be as low as possible, primarily during windy conditions. Operation shall cease if necessary to avoid exceeding applicable emission standards.
- (e) Vehicular speed shall be a maximum of 10 mph. Signs shall be posted where applicable.
- (f) Vegetation planting or landscaping shall be done where needed to reduce the dust problem, where applicable.

9. Emissions shall be minimized at all times in a manner consistent with good air pollution control practice as referenced in 40 CFR 60.11(d), including periods of startup, shut down, and malfunction.

10. Pursuant to Rule 62-4.220, F.A.C., an application for an operation permit shall be submitted to the Bureau of Air Regulation office in Tallahassee at least 90 days prior to the expiration date of this permit. To apply for an operation permit, the applicant shall submit the appropriate application form, fee, and a report describing any changes in equipment or operation of the unit, and compliance test reports as required by this permit.

(c) To operate in other counties, the permittee must submit a Notification of Intent to Relocate Air Pollutant Emitting Facility at least thirty (30) days prior to the relocation, give public notice of the Intent to Issue (prepared by the Department) pursuant to Rule 62-210.350(1), and obtain an air permit amendment from the Department.

(d) The unit shall not be operated in a location or in a manner that creates a nuisance. Pursuant to and as required by Rule 62-210.370, F.A.C., the permittee shall submit an Annual Operating Report to the appropriate district or local air program office.

7. Pursuant to Rule 62-296.320, F.A.C., no objectionable odor from this facility shall be allowed.

8. Pursuant to Rule 62-296.320(4)(c), F.A.C., the permittee shall take reasonable precautions to control emissions of unconfined particulate matter including but not limited to the following:

- (a) Unpaved roads, parking areas and yards shall be kept moist at all times by applying water/dust suppressant as necessary.
- (b) Particulate matter shall be removed from paved roads as necessary to prevent dust emissions.
- (c) Emission points shall be enclosed to the extent possible and vented through an appropriate air pollution control device, if necessary, to meet the applicable emission standards.
- (d) Material drop points shall be as low as possible, primarily during windy conditions. Operation shall cease if necessary to avoid exceeding applicable emission standards.
- (e) Vehicular speed shall be a maximum of 10 mph. Signs shall be posted where applicable.
- (f) Vegetation planting or landscaping shall be done where needed to reduce the dust problem, where applicable.

9. Emissions shall be minimized at all times in a manner consistent with good air pollution control practice as referenced in 40 CFR 60.11(d), including periods of startup, shut down, and malfunction.

10. Pursuant to Rule 62-4.220, F.A.C., an application for an operation permit shall be submitted to the Bureau of Air Regulation office in Tallahassee at least 90 days prior to the expiration date of this permit. To apply for an operation permit, the applicant shall submit the appropriate application form, fee, and a report describing any changes in equipment or operation of the unit, and compliance test reports as required by this permit.

PERMITTEE:  
Independence Excavating, Inc.

Permit Number: 7775019-001-AO  
Expiration Date: Dec. 31, 2001
