Tourist dies after gorilla safari

KAMPALA, Uganda (AP) — An American tourist collapsed and died after viewing rare mountain gorillas in southwest Uganda.

The U.S. Embassy reported that Hulan Williams, 34, of Fairfax, Va., died Saturday in the Impenetrable National Park where he had gone to see the gorillas.

A park spokesman, Asuman Nsubuga, said Williams, who was on a leg of an African trip, collapsed, probably of a heart failure. He had gone to see the gorillas with a guide, said Williams' friend, a former U.S. Marine, who organized the trip. Williams was on the trip with a group of about 15 other tourists going to see the gorillas, an endangered species, declined drastically by rebel Rwandan Hutu forces who killed nine people, including two Americans, in the area in March 1999.

There are an estimated 650 mountain gorillas in the world, and most of them are believed to live in the Impenetrable National Park. The others live in the mountain range in the north of Rwanda and

New wave of violence erupts in Kashmir

SRI NAGAR, India (AP) — Militants entered a camp in India's Kashmir and started an overnight battle that left at least four people dead and three militants killed, the army reported.

An Indian police officer said at least 12 soldiers were killed and 25 wounded in the fighting. The differing numbers may be reconciled immediately.

At least 10 people were killed during a gun-battle between militants and soldiers at the camp in Berwah, 25 miles northwest of Srinagar, the Indian army said. The fighting began Monday and ended Tuesday.

Lashkar-e-Tayyiba, a militant Islamic group, telephoned the Indian Press office in Srinagar and claimed responsibility for the attack.

Usama, the group's leader, said three militants died — two of them were killed by the Lashkar-e-Tayyiba and the third by the Indian Mujahideen militant group.

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT

STATE OF FLORIDA

DEPARTMENT OF ENVIRONMENTAL PROTECTION

DRAFT Permit No: 7775103-001-AC

Mulliniks Construction Company, Inc.

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit to Mulliniks Construction Company, Inc. for a diesel engine powered portable concrete and asphalt material crusher that will be operated at construction and industrial sites throughout Florida. The crusher is a minor source of air pollution and not subject to the Prevention of Significant Deterioration (PSD) regulations, Rule 62-212.400, Florida Administrative Code (F.A.C.). A Best Available Control Technology determination was not required for this facility. The applicant's name and address are: Mulliniks Construction Company, Inc., 5937 Soutel Drive, Jacksonville, Florida 32219.

The facility has been reviewed for potential operation in all counties of Florida. The unit will emit fugitive particulate matter and the products of combustion from the diesel fuel. Control of fugitive particulate matter is accomplished by wetting as needed.

Total emissions of pollutants from this facility are estimated to be:

Pollutant	Hourly Emissions pounds per hour	Annual Emissions tons per year
Particulate Matter(PM/PM ₁₀)	2.3	2.3
Nitrogen Oxides (NO _x)	9.3	9.3
Carbon Monoxide (CO)	2.0	2.0
Sulfur Dioxide (SO ₂)	0.6	0.6
Volatile Organic Compounds (VOC)	0.7	0.7

Because of the low emissions and limited time of operation at any one site, the crusher will not cause or contribute to any violation of an ambient air quality standard.

The Department will issue the FINAL Permit, in accordance with the conditions of the DRAFT Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed DRAFT Permit issuance action for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2600 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in this DRAFT Permit, the Department shall issue a Revised DRAFT Permit and require, if applicable, another Public Notice.

The Department will issue the FINAL Permit with the conditions of the DRAFT Permit unless a timely petition for an administrative hearing is filed pursuant to Section 120.569 and 120.57, F.S.). Mediation is not available for this action. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, telephone: 850/488-9370, fax 850/487-4938. Petitions must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-6.207, F.A.C.

A petition must contain the following information: (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the permit file numbers and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the Department's action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Copies of the proposed construction permit and the technical evaluation are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:
