CERTIFIED MAIL - Return Receipt Requested

Mr. Billy Mulliniks  
Mulliniks Construction Company, Inc.  
5936 Soutel Drive  
Jacksonville, Florida 32219

Re: Permit Project Nos.: 7775036-014-AC, 7775103-008-AC, and 7775104-002-AC  
Affected AC/AO Permits Nos.: 7775036-006-AC/ 7775036-007-AO  
7775103-001-AC/ 7775103-003-AO  
7775104-001-AC/ (no AO issued)

Dear Mr. Mulliniks:

We acknowledge your letter of January 22, 2001, requesting an expanded county list of authorization based on additional newspaper proof of publication affidavits that have been furnished to the Department. The permitted counties are contained in an Appendix PC, which is an attachment to each of the above referenced AC/AO permits.

A check for \$150.00 was also provided as processing fees; however, the total amount due is \$750.00 (\$250.00 per project). On February 9, 2001, we received additional monies (\$525.00) as processing fees. We applied \$250.00 to 7775036-014-AC, \$250.00 to 7775103-008-AC, and \$175.00 to 7775104-002-AC (insufficient by \$75.00). We will refund the insufficient processing fee for project 7775104-002-AC, if we have not received the deficient amount in 30 days after receipt of this letter.

If there are any questions, please call William Leffler at 850/921-9522.

Sincerely,

C. H. Fancy, P.E.  
Chief  
Bureau of Air Regulation

**PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT**  
 STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION  
 DRAFT Permit No. 777514-001-AC  
 Mullinix Construction Company, Inc.  
 The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit to Mullinix Construction Company, Inc. for a diesel engine powered portable concrete and asphalt material crusher that will be operated at construction and industrial sites throughout Florida. The crusher is a minor source of air pollution and not subject to the Prevention of Significant Deterioration (PSD) regulations, Rule 62-212.000, Florida Administrative Code (F.A.C.). A Best Available Control Technology determination was not required for this facility. The applicant's name and address are: Mullinix Construction Company, Inc. 5937 Saurel Drive, Jacksonville, Florida 32216.  
 The facility has been reviewed for potential operation in all counties of Florida. The unit will emit fugitive particulate matter and the products of combustion from the diesel fuel. Control of fugitive particulate matter is accomplished by wetting as needed. Total emissions of pollutants from this facility are estimated to be:  
 Pollutant  
 Hourly Emissions  
 pounds per hour  
 Annual Emissions  
 tons per year  
 Particulate Matter (PM/PM10) 2.5 2.3  
 Nitrogen Oxides (NOx) 9.3 9.3  
 Carbon Monoxide (CO) 2.0 2.0  
 Sulfur Dioxide (SO2) 0.6 0.6  
 Volatile Organic Compounds (VOC) 1.1 1.1  
 Because of the low emissions and limited time of operation at any one site, the crusher will not cause or contribute to any violation of an ambient air quality standard.  
 The Department will issue the FINAL Permit, in accordance with the conditions of the DRAFT Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.  
 The Department will accept written comments concerning the proposed DRAFT Permit issuance action for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2600 Blair Stone Road, Mail Station # 3505, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public
