Quaid,  
 If appropriate, please make changes, as requested below, in the final version of the permit to be issued.  
 Thanks,  
 DZ

I reviewed the intent to issue for the above mentioned source. Please consider these comments when issuing the final permit.

1. Change the rule cite quote of condition 8 to read: [40CFR60 Subpart I, 60.92(a)(2) and adopted by reference in 62-240.800(7)(b)12., and 62-210(3)(c)1.d., F.A.C.]
2. Change the rule cite quote of condition 9 to read: [40CFR60 Subpart I, 60.92(a)(1) and adopted by reference in 62-240.800(7)(b)12., and 62-210(3)(c)1.d., F.A.C.]
3. In specific condition 12, can language be added that when in Pinellas County they must also comply with Pinellas County Code subsection 58-178?
4. In condition 20.A. add the requirement to record the facility name and emission unit number.
5. Modify the conditions under 25.A. to read:
  - (1) Operating parameters of the pollution control device;
  - (2) Time table for the routine maintenance of the pollution control device as specified by the manufacturer;
  - (3) Time table for routine periodic observations of the pollution control device sufficient to ensure proper operation;
  - (4) A list of the type and quantity of the required spare parts for the pollution control device which are stored on the premises of the permit applicant;
  - (5) A record log which will indicate, at a minimum:
    - a. When maintenance and observations were performed;
    - b. What maintenance and observations were performed; and
    - c. Who performed said maintenance and observations.
    - d. Acceptable parameter ranges for each operational check.

to match Pinellas County Code 58-128, and include the code cite.

6. Change condition 30.D. to read "...required by Condition 25.A.

7/29/2002

Is there a spare permit application for this source?
