Re: OGC Case 02-1186
C.W. Roberts Contracting Permit No. 7775176-001-AC
Wildwood Asphalt Plant

Dear Mr. Beason:

We received the "Order Dismissing Petition with Leave to Amend," dated October 21, 2002 that required a response by November 4, 2002. Mrs. Miller actually received this Order on Saturday, October 25, 2002 and the Neighborhood Committee did not receive the information until Monday, October 28th.

Mrs. Miller called someone at the DEP and it was our understanding that if we could not meet the November 4th deadline, we could ask for an extension but only through the services of an environmental Attorney. Therefore a scheduled Neighborhood Meeting was set for November 11, 2002 at the Oxford Community Building. County Commission Benny Strickland and Robin Rogers from the Planning & Zoning Board were present.

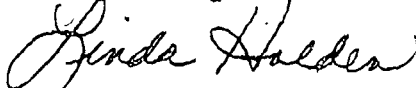

The Lake Miona Neighborhood Committee would like to request an extension to this Order. We believe we can provide additional facts and information concerning the location of this Asphalt Plant at the entrance of our neighborhood. We have collected funds to seek legal advice but would need the extension in order to proceed.

We apologize for the lack of knowledge concerning the legal aspects of these issues.

We, as a Committee, represent approximately 400 neighbors and respectfully request an extension to the signing of Mr. Robert's permit.

Thank you for your assistance and consideration,

Lake Miona Neighborhood Committee,
