**Subject:** RE: C W Roberts

Would you still like me to give you the differences in what is permitted now and what we would put in the AC?

Nancy

**Subject:** C W Roberts

I haven't been able to discuss this with Cindy Phillips, Terri Long, or Jon Holtom yet, but Pat and I had a discussion of this permitting process today and we think we can do what needs to be done under the AO and no public notice would be required. I'd still like to discuss this with Tallahassee folks, but wanted to give you guys a heads up.

**Subject:** RE: CW Roberts 7775176

Everyone is available on Tuesday, 5/5 at 2 pm. I was planning on making it a conference call, but I can only call 2 other people that way. Will the people from CW Roberts be with you or should I arrange for a teleconference line?

Hi Nancy,

I spoke to Johnathan Holtom last Wednesday on the advice of Cindy Phillips. Based on our conversation CW Roberts is requesting a meeting/conference call of their legal counsel with FDEP legal counsel.

I understand that Ronni Moore is the likely contact at FDEP OGC. CW Roberts counsel is Angela Morrion Uhland.

The available dates/times are:

May 1<sup>st</sup> any time; May 4<sup>th</sup> in the morning; May 5<sup>th</sup> in the afternoon; May 6<sup>th</sup>, May 7<sup>th</sup>, and May 8<sup>th</sup> any time.

Please let us know what dates/times will work.

Thank you.

**Subject:** RE: CW Roberts 7775176

This information will be passed along to Mr. Charles Roberts.

Regarding the RAP crusher question: None of the three AG-permitted RAP crushers owned by CW Roberts are at the plant. CW Roberts does not plan in the foreseeable future to have a crusher on-site. As well, RAP crushing material is currently not on site. This situation exemplifies why testing each RAP crusher according to each RAP crusher's own AG permit is a logical approach to testing. We await the answer from Tallahassee on the testing issue.

**Subject:** CW Roberts 7775176

We discussed the issue of requiring a construction permit application to add the RAP crusher on to CW Robert's asphalt plant permit with Cindy Phillips and Terri Long in Tallahassee and also during the monthly permitting teleconference on 4/9/09. It was uniformly agreed to that a construction permit application is required in this case to add the crusher as a separate emission unit in the facility's permit. We also discussed emphasizing in the public notice that this is just a clarification to what has already been permitted at the facility and that there will not be any increase in emissions or difference in operations.

We also discussed the on-site testing requirement for the crushers. Tallahassee said they would like to discuss this matter further so I do not have a definitive answer on this subject.

I understand that the asphalt plant will be tested on Monday 4/20/09. Will a RAP crusher be tested also?

We will get back to you as soon as we get an answer from Tallahassee on the testing issue.
