No, a hard copy request isn't necessary. An additional 30 days to submit the RAI response will be fine.

Nancy,

Is there an answer yet on the request for additional time? Should I send in a hardcopy request?

Regards,
Max

Hi Nancy,

I appreciate the conference call today. I am requesting an additional 30 days on the submittal of information on the RAI (dated 2/18/2009). As you know, the meeting provided clarity as to what should be provided of the additional information for the RAI. As such, we will need the time to gather and review our documents. I don't expect that much time will be needed but for assurance am requesting the extra 30 days.

Regards,
Max
