**Cc:** 'Joseph Shuler'  
**Subject:** Request for Permit Amendment

Ms. Sgro

The Department received your memorandum dated August 19, 2010, requesting an amendment to Operation Permit 7775176-003-AO for CW Roberts Contracting, Inc. The information in the memorandum must be put in the form of a letter specifically requesting an amendment to 7775176-003-AO signed by Mr. Roberts and signed and sealed by a professional engineer registered in the State of Florida. This request must be accompanied by a check for \$250.00.

When you submit the letter please provide the manufacturer's specifications on the maximum rated capacity for Crusher No. 2 to determine if this crusher is subject to 40 CFR 60, Subpart OOO. Also state whether these will be the only 3 crushers brought on to this site or if a different crusher could be brought on site.

Due to the transient nature of portable crushers the requested change in the on-site test requirements specific condition cannot be made.

Please call if you have questions.
