This Part 1 application package was developed as a service to members of the Alliance of Automobile Manufacturers for their use in submitting information to States and the U. S. Environmental Protection Agency concerning facilities that may be subject to a delayed MACT standard, pursuant to EPA's 112(j) regulations (40 C.F.R. §63 Subpart B). Alliance members and non-members are free to use the form in whole or in part as they deem appropriate. Applicants are free to tailor this form to meet their individual needs and any specific state requirements. The legal responsibility for meeting regulatory requirements is solely that of the entity submitting the permit application. The Alliance and its contractors are not responsible for use of these forms to comply with the requirements of Section 112(j) of the Clean Air Act.

◆ This list of Emission Units conforms to the list of Emission Units under the Title V Permit, Draft Title V Permit, Proposed Title V Permit, or the Title V application for this facility. There may be emission units within the facility which are insignificant emission units, or do not have any associated applicable requirements, or are otherwise exempt from being listed as emission units under Title V. (herein referred to as “de minimis units”). These de minimis units have been disclosed to the Agency during the Title V process and may even be listed in Staff Activity Reports or similar documents. These de minimis units are not listed in this table if the applicant has reasonably determined that these de minimis units do not fall under any listed source categories subject to Section 112(j) requirements. The Applicant does not intend to take any further action on behalf of these de minimis units unless the Agency notifies the Applicant otherwise, in a timely fashion, consistent with the time-frames associated with applicability determinations.

† This source category was selected based upon reasonable belief that the listed emission units may fall into the listed source category. Since there are no final rules defining the applicability of the upcoming MACT standards, this is a tentative determination made by the Applicant based on information available at the time of submittal of this form. For those emission units which may reasonably be determined to have an applicable source category, a Part 2 application will be submitted unless the Agency notifies the Applicant otherwise.

▼ This column addresses standards that have been proposed up to the date of this submittal. (Please note that some pending MACT standards will be proposed after this Part 1 application is due.)

★ For those emission units where the “YES” box is checked in this column, the Applicant specifically requests that an applicability determination be made by the Agency in a timely fashion. The Applicant will take no further action regarding submittal of a Part 2 application for these emission units until the Agency affirmatively notifies the Applicant that such a submittal is required.

Re: Request for Determination of MACT Applicability

Dear Mr. Pirtle:

In response to your letter dated May 14, 2002 which requests that the Department make a determination of MACT applicability for your plant, I have attached Chapter 28-105, F.A.C., Declaratory Statements, which specifies the procedure that you must follow in order for us to comply with your request.

The Department's Agency Clerk is Kathy Carter. Her address is:

Kathy Carter, Agency Clerk
Florida Department of Environmental Protection
MS 35
3900 Commonwealth Boulevard
Tallahassee FL 32399-3000

Thank you for submitting the 112(j) notification information. Your information submittal appears to meet our current 112(j) requirements.

Please be aware that, although your letter refers to this information submittal as a "Section 112(j) Part 1 Permit Application," the Department does not recognize your submittal as a state permit application and has no plans to process it as such.

No further 112(j) information is needed from you at this time. If you have any questions, concerning this matter, please contact me at 850/921-9534.

Sincerely,

Cindy L. Phillips, P.E.

CHAPTER 28-105, F.A.C.

DECLARATORY STATEMENTS

28-105.001 Purpose and Use of Declaratory Statement.

A declaratory statement is a means for resolving a controversy or answering questions or doubts concerning the applicability of statutory provisions, rules, or orders over which the agency has authority. A petition for declaratory statement may be used only to resolve questions or doubts as to how the statutes, rules, or orders may apply to the petitioner's particular circumstances. A declaratory statement is not the appropriate means for determining the conduct of another person or for obtaining a policy statement of general applicability from an agency. A petition for declaratory statement must describe the potential impact of statutes, rules, or orders upon the petitioner's interests.

28-105.002 The Petition.

A petition seeking a declaratory statement shall be filed with the clerk of agency that has the authority to interpret the statute, rule, or order at issue and shall provide the following information:

(1) The caption shall read:

Petition for Declaratory Statement

Before (Name of Agency)

(2) The name, address, telephone number, and any facsimile number of the petitioner.

(3) The name, address, telephone number, and any facsimile number of the attorney or qualified representative (if any) of the petitioner.

(4) The statutory provision(s), agency rule(s), or agency order(s) on which the declaratory statement is sought.

(5) A description of how the statutes, rules, or orders may substantially affect the petitioner in the petitioner's particular set of circumstances.

(6) The signature of the petitioner or of the petitioner's attorney or qualified representative.

(7) The date.

28-105.003 Agency Disposition.

The agency may hold a hearing to consider a petition for declaratory statement. If the agency is headed by a collegial body, it shall take action on a petition for declaratory statement only at a duly noticed public meeting. If a hearing is held, it shall be conducted in accordance with Sections 120.569 and 120.57(2), F.S. The agency may rely on the statements of fact set out in the petition without taking any position with regard to the validity of the facts. Within 90 days of the filing of the petition, the agency shall render a final order denying the petition or issuing a declaratory statement.
