CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. William Roberts
General Manager
Wheelabrator South Broward Inc.
4400 South State Road 7
Ft. Lauderdale, Florida 33314

Re: Request for Additional Information on Permission to Burn Canker Waste Material

Dear Mr. Roberts:

The Department has received your request dated April 17, 2002 for permission to burn waste associated with the Department of Agriculture and Consumer Services Citrus Canker Eradication Program

After further review of your request, we have determined that this type of waste material does not fall under the intent of condition B.15.(6)(h) of your Title V permit. The Department does not consider citrus canker waste to be substantially similar to materials found in municipal solid waste. In order to properly evaluate your request, we require additional information.

Please provide an application for a Title V permit revision which includes the certifications by the responsible official and a professional engineer registered in Florida, an estimate of the quantity of waste per delivery to the facility and the estimated number of deliveries per month, a description of how the waste will be handled at the resource recovery facility, a description of the type of wastes to be accepted along with the description of any materials applied to the waste, and an estimate of the emissions produced from the combustion of these materials.

When all of the requested information has been received, we will be able to begin processing your request. If you should have any questions, please call Edward J. Svec at 850/921-8985.

Sincerely,

Scott M. Sheplak, P.E.

Re: Wheelabrator South Broward
Title V Permit No: 0112119-002-AV
Request for Permission to Burn Citrus Canker Waste Material

Dear Mr. Sheplak:

The Florida Department of Agriculture and Consumer Services requested that our facility be one of the designated sites to incinerate waste associated with their Citrus Canker Eradication Program. The special permit request is attached to this letter.

The facility is requesting permission to accept this fuel under the condition specified under B.15 (6) (h) in our Title V permit. The condition states "Waste materials generated by manufacturing, industrial or agricultural activities, provided that these items or materials are substantially similarly to items or materials that are found routinely in MSW, subject to prior approval of the Department."

If there are any questions, or if further information is required, please feel free to contact this office (954) 581-6606.

Sincerely,

William Roberts
General Manager
